

WE'RE HIRING

We are spirited, collaborative, transformative. Who are you?

White Bear Lake Area Schools is seeking an experienced secondary school principal for a **once-in-a-career opportunity**: opening a new facility and elevating learning opportunities for students and staff.

Community support of a 2019 bond referendum inspired us to dream big and transform the future of learning.

We are looking for a collaborative, adaptable and energetic leader to join the transformation. Strong relationship and team-building skills will be key during our transition from a two-campus high school to a unified (9-12) campus over the next 18 months. Our new leader will guide our highly experienced staff and student body in setting the culture for the high school for years to come.

You will enjoy:

- Students and staff who are empowered to design their futures
- A district commitment to equity and excellence for all
- Strong community support and school spirit (Go Bears!)
- State-of-the-art collaborative, flexible learning spaces to unlock the future of learning
- Brand new athletic and fine arts facilities
- An established and supportive district leadership team
- An exciting grand opening in Fall 2024!

Our new principal will have the opportunity to collaborate with staff and students during the 2023-24 school year to prepare for the school's opening in 2024.

Are you an innovative, student-focused instructional change leader inspired to bring our ambitious strategic plan to life?

Think student agency, educational innovation, equity and excellence for all.

Design Your Future. Create Your Success.
