Supervisor of Library Media Specialists

** Scroll down for additional information about the TAG Program.*

Additional information about the Talented and Gifted (TAG) Program:

The Sayreville Talented and Gifted Program identifies those students in Grades 3-8 who possess or demonstrate high levels of ability, in one or more content areas, when compared to their chronological peers in the local district. The identification process includes multiple measures which are specific to each grade level. Students participating in the TAG Program will have opportunities to utilize their skills and talents to work toward achieving their highest potential.

More information regarding the related eligibility criteria for each grade level will be reviewed at the information session.

If you have any questions prior to the session, please contact the TAG Supervisor:
