James D. Fish  
Superintendent

January 26, 2023

Good evening,

Earlier this evening, I was sent screenshots of a snapchat conversation shared between at least four students who attend Ruth Fox Middle School. In one of the screenshots, one student made multiple threats of harm to herself and general threats to others in the building. The student did identify one staff member regarding a specific threat and that person has been contacted and made aware of the threat.

Law Enforcement was immediately contacted and are conducting an investigation. The student making the comments has been identified and this student has been removed from school and will not be in attendance tomorrow or in the near future. Staff and student safety will remain our top priority and inappropriate comments or threats made on social media will be taken seriously and turned over to law enforcement.

Sincerely,

James D. Fish, Superintendent
