

Summer Mathematics Institute (Cohort 1)

A five-day institute for K-8 teachers and paraprofessionals in the Central Valley who want to become enthused and empowered by mathematics!

Participants will...

- Improve their mathematical knowledge and skills through the use of manipulatives and pictorial representations.
- Develop instructional strategies that include ALL students: ELL, Special Ed, high-flyers, and strugglers.
- Immediately practice their new instructional strategies with actual students at a nearby summer school.
- Enhance their professional network!

Register
today!
