2022-23 Phase One: Executive Summary for Schools

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

North Pointe Elementary is the northern most school in Boone County. North Pointe opened in 2000 and was designed to house 700 students. However, at one time the school held almost 1200 students. After the opening of another nearby elementary school and a drop in the housing market, the school's population dropped to approximately 500 students. The school has seen a continued dip in enrollment over the last few years. In 2020, there were 441 students enrolled. Currently in 2022, enrollment has dipped to approximately 400 students. However, there has been an increase in housing development and over 1200 homes have been approved to be built in the North Pointe school district. Therefore, we anticipate that enrollment will begin to steadily increase. The school has experienced an increase in the percentage of economically disadvantaged students over the past few years. The rate increased from 26.2% in 2020 to 31.1% in 2021 (decreased slightly in 2022), which enabled the addition of a Family Resource Center to the school to help reduce nonacademic barriers for students.

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

North Pointe Elementary's mission statement is "One School, one goal: Success for all!" At North Pointe Elementary, we envision that all staff:

- Challenge and encourage students to reach their full potential
- Student needs are first and foremost over personal beliefs
- All students have access to an equitable, rigorous and relevant education
- All students are capable of high student achievement

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

During the 2018-19 school year, North Pointe was designated as a 4-star school. We also attained a high ranking in proficiency, separate academic indicator, and growth. In 2021, students in grades 3-5 grade reported very positive feedback on the School Climate and Safety Survey questions. The overall survey results show that students enjoy coming to school and have highly positive school experiences. What We Are Doing To Improve: Our staff/SBDM Council engage in data analysis to identify

strengths and growth areas. Our school improvement plan is created based upon this data analysis and drives our teaching and learning. Using multiple points of assessment data, we have developed comprehensive MTSS processes to improve the performance of GAP group students. Teachers have aligned curriculum and timelines to the Kentucky Academic Standards and work regularly in Professional Learning Communities to create units and assessments that address the various depths of knowledge and encourage higher order thinking skills. Specific learning targets in each lesson focus teaching and learning. Student progress is frequently monitored and individualized instruction (remediation and acceleration) is implemented. Teachers and staff members are continuously participating in professional development in a wide variety of areas to improve instruction across the content areas based on teacher and student needs. Our goals for improvement in the next three years are to continue to increase academic proficiency in all areas and improve novice reduction in all academic areas.

Additional Information

CSI/TSI (including ATSI) Schools Only: Describe the procedures used to create the school's improvement plan and briefly state the specific efforts to address the causes of low student performance and resource inequities.

N/A

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

The North Pointe community is proud of its school and engages in supporting the school in a variety of ways. The local PTA provides numerous family activities for NPE students and their families. The traditions of high academic performance and strong community ties is a source of pride for the North Pointe community and characteristics that we will continue to develop in the future.
