## AP-05 Executive Summary - 91.200(c), 91.220(b)

### 1. Introduction

This Action Plan provides the basis and strategy for the use of federal funds granted to the City of Medford by the U.S. Department of Housing and Urban Development (HUD) under the Community Development Block Grant (CDBG) program. This plan presents proposed objectives and outcomes for the second year of the five-year Consolidated Plan (2020-2024). The City will apply for an estimated \$1,489,182.00. The program year extends from July 1, 2022-June 30, 2023.

The City of Medford, under the leadership of Mayor Breanna Lungo-Koehn, administers Community Development Block Grant funds through the Office of Planning, Development & Sustainability. The City has identified several needs through input from agencies and residents, data collection and analysis. As part of the process to establish priorities and strategies the public is invited to provide input and identify needs. Public service agencies submit proposals to be considered for funding. The Office of Planning, Development & Sustainability works with the Mayor to develop a draft budget and plan for input including proposed projects and funding. The Medford City Council authorizes submission of the application at a public hearing.

### 2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The primary objective of HUD's Entitlement Programs is to develop viable communities through the provision of decent housing, a suitable living environment, and expanded economic opportunities. Four priority needs were identified with goals corresponding to those needs. The priority needs were determined by review of data, community meetings, public and stakeholder engagement, and NSC member consultations.

#### ***City of Medford Priority Needs:***

**Economic Development** – The City seeks to support its business community through programs that will promote competitiveness, resiliency and accessibility. The City's needs include:

- Explore using CDBG funds for a commercial rehabilitation program to support small businesses interested in improving their façades, signage, and accessibility.

- Provide and/or facilitate technical support to new and existing businesses through consultation services, educational programming and training, and other forms of business support. The City will explore partnerships with the Chamber of Commerce and other organizations.
- The City will explore pairing CDBG funding with other sources, such as Mass Gaming Commission and the Encore Boston Harbor Surrounding Community Agreement, to support eligible programs.

**Public Facilities, Infrastructure and Parks** – The City seeks to reconstruct its infrastructure, park, public facilities, water, sewer, drainage, sidewalk, and roadway facilities, to remove architectural barriers and eliminate slums and blight. Street and sidewalk improvements will be focused in eligible low- to-moderate income areas. Commitments include the following:

- Street and sidewalk improvements at Pinkert Street.
- Stump removal and tree planting in low and moderate-income areas;
- Removal of architectural barriers;
- Rehab at Logan, Brooks, Morrison Parks and McGlynn Playground;
- ADA improvements at Gillis Park and Tufts Pool and potentially LoConte Ice Rink;
- Renovations and upgrades at Medford Fire Stations 3 and 5

**Public Services** – The City seeks to provide a variety of public service programs and to continue to support nonprofit community development agencies. See appendix for breakdown of recommended funding. The City’s objectives include:

- Combating social illnesses, public safety and substance abuse, which weaken the stability of the City’s households and neighborhoods;
- Improving quality of life for Medford’s school children, through the provision of after school childcare programs;
- Improving the resources available to the City’s population at risk of homelessness, residents in crisis, local consumers, and the physically and emotionally disabled population and to the homeless population through a new service;
- Improving quality of life for Medford’s elderly population, through the provision of day health and recreational programs and transportation to reduce isolation;
- Encouraging the creation of affordable housing and assisting those with emergency and transitional housing needs. Programs include legal aid, food pantry and meals, and referral and counseling services;
- Providing vocational, social, recreational and educational opportunities for developmentally disabled Medford residents and their families.

## **Affordable Housing Objectives**

**Affordable Housing** - The City seeks to improve the quality of housing and increase housing opportunities available to low- and moderate-income households. Specific objectives include the following:

- Oversee affordable housing lotteries and ensure timely delivery of affordable units at market rate developments where affordable units have been required;
- Develop affordable rental and home ownership opportunities for low to moderate income households;
- Participation in local and regional housing planning;
- Assist individuals with housing referrals to agencies specializing in housing issues and programs;
- Improve the quality of housing for low to moderate income households;
- Explore and support the creation of an affordable housing trust;
- Coordinate the administration of the Inclusionary Housing Ordinance with Boards and proponents;
- Continue to research working with agencies to develop a housing rehab program; implement a housing rehab program if deemed feasible.

### **3. Evaluation of past performance**

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

The City of Medford has been effective in executing previous Consolidated Plans and Annual Action Plans and meeting CDBG goals and objectives. Some examples include recent investment in street infrastructure, fire houses, public facilities, with ADA rehabilitation improvements to Tufts Pool; continued support of access to jobs, education, health, wellness, recreation, social service activities; and assisting over 75 businesses through a new economic development program funded with CDBG-CV grant funds. However, the NSC has seen slight delays in rehabilitation projects underway due to supply chain disruptions caused by the COVID-19 pandemic. Even with this set-back, the Medford Housing Authority still carried out COVID-19 preventions throughout their developments.

Additionally, the City of Medford, in collaboration with the Malden Redevelopment Authority and Medford Community Housing, is near the start of construction on the Fellsway West II project, which would include the new construction of 3 affordable housing units in Medford. Medford has also kept in mind the rapidly changing needs of the low-and moderate-income population and the escalating regional housing crisis and continues to partner with agencies and organizations to develop and implement new strategies into the 2022 Annual Action Plan.

Ninety-days after the close of the City's HUD Program Year (July 1st through June 30th), the Office of Planning, Development & Sustainability submits the Consolidated Annual Performance Evaluation Report (CAPER); the CAPER for PY2021 is due for submission to HUD in September 2022. The CAPER will include the accomplishments only for the 2021-2022 program year.

#### **4. Summary of Citizen Participation Process and consultation process**

Summary from citizen participation section of plan.

The Office of Planning, Development & Sustainability engaged Medford residents, neighborhood stakeholders and public service providers to aid in the development of the July 1, 2022-June 30, 2023, Annual Action Plan. A series of public meetings and hearings were conducted by the City of Medford and North Suburban Consortium to discuss community needs and priorities, provide an overview of CDBG and the Action Planning process and summarize year to date expenditures. Meetings are conducted throughout the year on planning and implementation of various CDBG funded projects. The first public hearing was held on May 3, 2022 to approve the submittal of the action plan. The second public hearing will be held in conjunction with the development of the CAPER in/or around September 2022.

#### **5. Summary of public comments**

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

One public comment from a Medford resident was submitted via email in response to the advertisement of public meetings:

"I first became familiar with the Community Development Block Grant program in 1977, when I began my first job as a community organizer in Binghamton, New York. The low-income community and its advocates were fighting to get the City to utilize the funds as they were intended to be used -- on behalf of its marginalized populations, rather than as a way to supplement the City's revenues to support basic operations. That problem was not unique to Binghamton, nor to 1977. The theft of funds intended for underresourced folks has been consistent across the country, and across the past half century. I believe that Medford has done better than most communities in this regard, but that is a low bar.

I know almost all of the organizations submitting public service applications, several of them quite well. They are almost all excellent and critically important organizations. But only two are non-profits based or firmly connected to our city. Medford is sorely lacking its own non-profit infrastructure. There are no incorporated or staffed NGOs here advocating for low-income people nor for immigrants. In most cities, the folks from 26 Bradlee Road would have a non-profit resourced and ready to help them, but not here. Since the demise of Tri-CAP, we have had to depend on Boston's ABCD to provide essential services, but ABCD is most certainly not Medford's antipoverty agency. People have to leave Medford for legal

assistance, for emergency services, for crisis intervention services. Medford has no viable community development corporation.

I support the organizations applying for funding for the coming year, but looking to the future, it is time for Medford to utilize its CDBG funding, as well as funds from other sources, to develop and maintain our own local NGO network. I ask that the City Council and the City's Planning Department begin now to develop a plan to accomplish this."

A summary of other public comments received through the Citizen Participation and Consultation Process can be found within Section AP-12 Citizens Participation.

**Narrative**

The Office of Planning, Development & Sustainability is the designated City office charged with the development and implementation of the City of Medford's Consolidated and Annual Action Plans. In addition to producing the plans that provide the strategy for the allocation of federal dollars, the office coordinates the process to recommend projects to best address priority needs of low and moderate-income residents and provides the necessary financial and programmatic oversight.

The Office of Planning, Development & Sustainability also participates in the North Suburban HOME Consortium (NSC) and the Massachusetts Balance of State (BOS) Continuum of Care, designating staff to represent and attend regular meetings. The Office ensures that the City of Medford's non-housing community development, economic development, housing, and homeless needs are addressed within the regional programs.

## **AP-10 Consultation - 91.100, 91.200(b), 91.215(l)**

### **1. Introduction**

The July 1, 2022 - June 30, 2023, Annual Action Plan was developed by the City of Medford, Office of Planning, Development & Sustainability through citizen participation and consultation efforts. The City engaged residents, stakeholders and service providers to obtain input on priority needs for the year ahead. Building upon the comprehensive consultation process undertaken in the development of the 2020-2024 Consolidated Plan, the Action Plan incorporates feedback provided through community meetings and public hearings conducted by the City and North Suburban Consortium.

#### **Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).**

The Office of Planning, Development & Sustainability (PDS) works collaboratively with the Medford Housing Authority, housing providers, planning, human service and homelessness agencies in the City and region. This ongoing coordination addresses many community needs, informs investment decisions and ensures the provision of critical services including youth and elderly programming, childcare, family support services, crisis prevention, job preparedness training, transitional housing, and recreational opportunities for developmentally disabled persons. In addition, the City supports the Massachusetts Balance of State (BoS) Continuum of Care planning process. The City hosts weekly Hub meetings with key service providers, the police and the Dept of Health to coordinate care for critical cases; these are confidential case meetings, therefore the Office of PDS does not participate in these meetings. In 2022, city social worker staff have started participating in regional meetings for critical housing cases as well.

Additionally, over the past year the City's Office of Outreach and Prevention has been holding periodic meetings with local service providers to enhance communication and determine the best way to increase coordination between said providers. The Office of PDS has been participating in those coordination meetings to better understand community-wide needs.

#### **Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.**

The City of Medford shares the Balance of State's goals of 1. increasing the number of permanently supportive housing units; 2. improving job readiness and achieving employments; 3. providing homeless prevention and rapid rehousing assistance; and 4. providing case management services to increase likelihood of residential stability.

The City of Medford will continue to seek opportunities to support projects and programs that further the Balance of State goals. The Consolidated Plan consultations, as well as ongoing consultation with the CoC, will continue to have a direct impact on the allocation of funding.

In 2021, as a direct result of the pandemic, the city added a social worker position with temporary pandemic funding. Additionally, the City will be funding ABCD Mobile Homeless Outreach Program with Public Service funding this year.

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS**

The City of Medford is a member of the Balance of State CoC, the City of Medford will be engaged in the establishment of priorities, selection of projects, and the development of HMIS policies.

**Narrative**

The City of Medford through the Office of Planning, Development & Sustainability is in regular contact with various public and private agencies to ensure funding priorities are in line and coordinated with current community development goals and objectives. The Office maintains continued collaboration with the relevant Medford Departments and Human Services Organizations that provide the City's youth programs, family support services, and elder programs. In addition, the City of Medford is an active participating member in the North Suburban HOME Consortium and will consult with numerous housing and real estate entities throughout the implementation of the plan.

The City of Medford recognizes that its housing and economic development initiatives must be placed in a regional context. Medford enjoys a positive relationship with its neighbors and regularly consults with neighboring jurisdictions about redevelopment initiatives.

### **1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting**

As a CDBG recipient, the City of Medford is required to adopt a detailed Citizen Participation Plan that sets forth the jurisdiction's policies and procedures for public participation. The plan is administered by the Office of Planning, Development & Sustainability and must encourage the participation of low and moderate-income residents in Consolidated and Annual Action Planning processes; provide for reasonable access to proposed plans and substantial amendments; allot for public hearings and meetings and address citizen comments and complaints.

In developing the 2022-2023 Annual Action Plan, the City and the North Suburban Consortium (NSC) conducted public meetings and hearings to solicit citizen and service provider input. This feedback contributed to the identification of priority needs and CDBG investment strategies. A variety of human service agencies, housing providers, municipal officials and residents participated, establishing the continued need for services and improvements impacting low-to-moderate income residents.

## Expected Resources

### AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

#### Introduction

The City of Medford anticipates receipt of CDBG funds in the amount of approximately \$1,489,182.00 annually. To maximize the impact of CDBG funds, the City expends significant general government funds and encourages all partners and projects to strategically leverage additional funds.

As a member of the North Suburban Consortium, the City has available HOME Investment Partnership funds to support direct assistance to moderate income homebuyers and to subsidize the development cost of affordable housing projects.

Through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), which was enacted to respond to the growing effects of this historic public health crisis, the City of Medford received \$926,445 in round 1 of CDBG-CV allocations and \$525,848 in round 2 for Program Year 2020. The purpose of the special allocations is to assist the City in preventing, preparing for, and responding to the coronavirus (COVID-19). Utilization

of these funds is not reflected in this plan.

**Anticipated Resources**

**Table 5 - Expected Resources – Priority Table**

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied**

To maximize the impact of the CDBG funds, the City strategically leverages additional resources and City partnerships whenever feasible. As a member of the North Suburban Consortium, the City may access HOME Investment Partnership (HOME) funds to support direct assistance to low-to-moderate-income first-time homebuyers and to subsidize an affordable housing development.

The City anticipates CDBG funds will also leverage additional resources, as well. Non-Entitlement funds, that will be used to further the goals of the Strategic Plan may include private foundations, organizations, and individuals.

The following anticipated leveraged resources, include:

**Municipal General Funds:** The annual City budget commits resources for the priority activities including Public Parks, Facilities, and Infrastructure, the Office of Outreach and Prevention, and the Disability Commission

**Affordable Housing Resources:** Affordable Housing developments are likely to utilize a variety of State Housing resources including HOME program funds, Low-Income Housing Tax Credit funds, Housing Bond funds, voucher-based Section 8 program, and private mortgage financing. Additional funds are leveraged through partnerships with private and for-profit developers.

**Community Preservation Act:** The City anticipates committing funds through the Community Preservation Act, as well as other state and federal grants that leverage spending on Affordable Housing, municipal infrastructure, parks and recreation and other CDBG-funded improvements.

**Philanthropy:** Private funding from national, state, and local funders including the United Way and private foundations/donors.

**New Market Tax Credit Programs:** The NMTC program provides tax credit incentives for equity investment.

**Section 8 Funds:** The Medford Housing Authority administers the Section 8 Housing Choice Voucher program and provides rental subsidies.

**Continuum of Care Funds:** Non-profit human service providers that offer housing and services to homeless persons throughout Medford and Tri-City region can access resources through the Massachusetts Balance of State. These resources include, but are not limited to, non-entitlement ESG, McKinney-Vento, RAFT and HomeBASE. CSBG, LIHEAP, and Headstart are additional state and federal resources administered through the Community Action Program agency, ABCD.

In addition to these resources, the City continues to explore the establishment of an Affordable Housing Trust that can enable the expansion of its capacity to generate and commit revenue to affordable housing needs.

The HOME program matching requirements are met through State Housing Bond funds and the Mass Rental Voucher program. Matching funds requirements are monitored by the Malden Office of Strategic Planning & Community Development (formerly the Malden Redevelopment

Authority) as the NSC Lead Entity.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

No additional publicly owned land is anticipated to be used to address needs. City parks and public facilities will continue to be operated to provide recreation and services to low- and moderate-income persons.

**Discussion**

The priorities identified within the Strategic Plan are the outcome of an extensive, comprehensive effort to identify community needs. The Strategic Plan assesses the available resources available to meet those needs. The City of Medford’s investments will leverage public and private funds to address the economic development, affordable housing, community development, and special needs populations’ needs.

## AP-35 Projects - 91.420, 91.220(d)

### Introduction

In PY2022, the City of Medford will utilize CDBG funding to address the priority needs identified in the Strategic Plan. These priorities include the creation and preservation of affordable housing, upgrades and improvements to the public infrastructure, systems and facilities, expansion of local economic opportunities, and public services assisting vulnerable low-to-moderate-income residents.

### Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Funding has been allocated to best address the priorities identified in the Strategic Plan.

Funding has been allocated to best address the priorities identified in the Strategic Plan.

The primary priority in the City of Medford, and throughout the Boston-Metro area, is the expansion and preservation of affordable housing.

In 2022, the City has also prioritized the need for an increase in economic development programs and will establish new programs to aid Medford’s small businesses.

The provision of public services is also a priority. A strong network of human service providers and non-profit agencies support low- and moderate-income Medford residents in achieving self-sufficiency, permanent housing, continuing education, job preparedness, wellness and other anti-poverty initiatives. However, the need for services far exceeds the available resources. Service providers are encouraged to maximize leveraged funds and to avoid duplication of services. The primary obstacle to addressing need is funding.

In past program years, the primary priority consisted of a continued commitment to an aging infrastructure and public facilities to increase accessibility to public spaces and services, particularly for low-to-moderate income Medford residents. Despite significant investment, this continues to be an area of need and the City will look to fund additional public infrastructure projects in 2022.

## **AP-50 Geographic Distribution - 91.420, 91.220(f)**

### **Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed**

As the Community Development Block Grant (CDBG) is intended to predominantly serve low- to moderate-income residents, PY2022 CDBG funding will be allocated to projects that are either within CDBG eligible areas, eliminate slum and blight, or directly impact low- and moderate-income beneficiaries. Projects consisting of physical improvements will be undertaken in low- and moderate-income areas or at public facilities serving low-to-moderate-income residents. Public service and housing activities are operated based upon the eligibility of the person/households, not through geographic targeting.

### **Geographic Distribution**

<b>Target Area</b>	<b>Percentage of Funds</b>

**Table 8 - Geographic Distribution**

### **Rationale for the priorities for allocating investments geographically**

Projects were prioritized based on their ability to address identified needs with the resources available. In Year 3 of the Consolidated Plan, a priority is to invest CDBG funds to meet City-wide needs of an aged public infrastructure system. Selected activities are those projects that are determined to be a high priority by the Office of the Mayor, Department of Public Works and Office of Planning, Development & Sustainability and based on the consolidated planning process

ADA accessibility remains a long-standing commitment of the City. Locations selected for improved accessibility are a function of many factors including design and coordination with Public Works projects to identify needs within low and moderate-income areas.

Updates to public facilities, redevelopment, supporting the creation of new housing and economic development activities will have a direct impact on the quality of life for low to moderate income residents

### **Discussion**

The City of Medford will continue to target programmatic investments in low- and moderate-income areas, utilizing data analysis and input received during the citizen participation period and ongoing consultation with City departments, officials and community partners. As needs continue to far

outweigh available resources, the City will seek to leverage additional resources whenever possible.

## **AP-75 Barriers to affordable housing -91.420, 91.220(j)**

### **Introduction**

The City, in coordination with the North Suburban Consortium (NSC), continues to promote policies and practices that would support quality affordable housing within their communities. HOME funds are utilized to create affordable housing within the City of Medford and other member communities. The biggest barriers are identifying land available, development costs, administrative constraints, and infrastructure limitations.

### **Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment**

Planned Actions to remove the negative effects of these barriers include:

- Assist private and non-profit developers in identifying development sites and access funding toward development.
- Administer adopted Inclusionary Housing Ordinance.
- Review the acquisition of available buildings/homes to rehab into affordable housing.

### **Discussion**

The need for affordable housing in the City exceeds the available affordable supply. The City continues to work with the NSC, private developers and non-profits to increase the affordable housing in Medford. Long-term affordability restrictions on homeowner and rental units will be maintained by adding units to the Local Initiative Program's Subsidized Housing Inventory. First Time Homebuyer trainings and programs will continue to be supported by the City through non-profits such as Medford Community Housing.

## **AP-85 Other Actions - 91.420, 91.220(k)**

### **Introduction**

The activities and goals listed within this Annual Action Plan coincide with the priorities identified in the Consolidated Plan. Activities selected for Program Year 2022 funding are those projects that will make an immediate impact to low- and moderate-income residents. Eligible public service activities are selected through a formal solicitation process, which prioritizes programming to best address identified community needs.

### **Actions planned to address obstacles to meeting underserved needs**

The primary obstacle to meeting the underserved affordable housing needs of low-and-moderate-income persons continues to be a lack of available resources compared to demand. Considering the level of public subsidy required to develop affordable housing, the City and the North Suburban Consortium are only able to fund a few projects annually. HOME funds are nearly fully committed for rental developments and the regional CHDOs have mentioned plans for several new projects on the horizon. While this limitation is beyond the City's ability to address, Medford and the Malden Redevelopment Authority are committed to working with the Medford Housing Authority and housing developers - both for-profit and non-profit to identify development opportunities and secure the necessary resources. The rising values have created an obstacle for new homebuyers and the number of properties out of reach to prospective buyers are increasing.

A second obstacle to addressing underserved needs is the challenges of a changing job market. The demand for a higher educated workforce has shut many LMI persons out of living-wage jobs. The City will continue to seek to create local employment opportunities, and fund agencies that support self-sufficiency programs, such as the Immigrant Learning Center.

Medford's membership within the North Suburban Consortium provides access to gap funding critical to address the lacking supply of affordable housing. The City will continue to identify projects and partners, utilizing this resource whenever viable, as developing innovative strategies. The City will also insure that selected public improvement projects are ready to proceed.

### **Actions planned to foster and maintain affordable housing**

Project coordination, monitoring expiring-use priorities, promoting affordable homeownership opportunities and ensuring long-term affordability through the addition of affordable units on the Local Initiative Program's Subsidized Housing Inventory are efforts of City staff and development boards to

foster and maintain affordable housing. Additionally, the City will explore opportunities to create housing programs that preserve the quality of Medford’s existing housing stock and support the creation of new housing.

### **Actions planned to reduce lead-based paint hazards**

The City, in coordination with the North Suburban Consortium, will ensure compliance with Massachusetts lead laws on all homebuyer assistance and developer-driven projects, both homeowner and rental. Testing and lead-safe removal of lead-based paint hazards are required in all HOME and CDBG funded rehabilitation activities.

The City of Medford Board of Health serves as a point of contact regarding lead-based hazards and distributes pamphlets describing lead regulations and resources in their office. Whenever lead concerns arise, the Board of Health refers families to the Greater Lawrence Poisoning Prevention Program to initiate lead home inspections and blood testing.

### **Actions planned to reduce the number of poverty-level families**

Aligned with its commitment to reduce poverty, the City prioritizes the funding of public service programs that support low-income Medford families in achieving self-sufficiency. Continued support for these anti-poverty programs is crucial as they provide vulnerable, at-risk families access to a variety of supportive services, essentials, advocacy, recreational opportunities, transportation, affordable childcare, emergency housing, financial literacy, skill building and job preparedness. The provision of such programming is necessary in addressing the economic, housing and health challenges facing low-to-moderate income residents, helping families move out of poverty.

The City also supports efforts of the Metro-North Regional Employment Board and will continue to provide the availability of job training opportunities and employment readiness programs.

### **Actions planned to develop institutional structure**

The City will continue to enhance its program coordination functions, specifically in the areas of prioritization of projects and performance monitoring. Through inter-departmental communication, the Office of Planning, Development & Sustainability will be readily available to identify ready-to-proceed public works and facility projects. The City will evaluate its process for selection of public service projects to include a greater focus on outcome measures.

### **Actions planned to enhance coordination between public and private housing and social service agencies**

The City benefits from a strong network of Medford-based non-profits, regional housing and human services providers. Strong interagency coordination is key to improving the overall quality of life,

leveraging resources, directly impacting the lives of low-to-moderate-income residents and shaping viable neighborhoods. The City will continue to build on the work of the Office of Outreach and Prevention, strengthening our engagement with community partners and enhancing outreach and coordination efforts.

The City directly operates quality programs for Medford elders, through its Council on Aging. The Council on Aging also connects elderly residents with other community resources, augmenting existing senior programming.

Additionally, the City continues to participate as a member of the North Suburban Consortium to effectively coordinate its housing agenda with surrounding communities.

## **Discussion**

The City's focus will be on upgrades to aging infrastructure and public facilities, job creation and retention and economic stabilization. Funding will also support affordable housing development, transportation, and recreational and supportive services aims at special needs populations. Proposed activities fulfill HUD's priorities of providing decent affordable housing, suitable living environment and expanded economic opportunity, principally for low- and moderate-income persons. Community Development staff works in partnership with citizens, other City departments and the public and private sectors to accomplish established goals and objectives improving the quality of life for all Medford residents.

## Program Specific Requirements

### AP-90 Program Specific Requirements - 91.420, 91.220(I)(1,2,4)

#### Introduction

The City of Medford's Action Plan, in alignment with the Strategic Plan, outlines available resources and proposed activities to be undertaken during the course of the 2022-2023 program year. As stated earlier in the AP-15, the City expects to receive \$1,489,182.00 in Community Development Block Grant entitlement funds.

#### Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
<b>Total Program Income:</b>	<b>0</b>

#### Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan.	85.00%

## **Discussion**

A range of activities have been identified, including creation and preservation of affordable housing, physical improvements and upgrades to infrastructure and City systems, removal of architectural barriers, improvements to public facilities, job creation and retention and public services. The City anticipates that approximately 85% of CDBG funds, over a 3-year period (PY2021, PY2022, and PY2023) will be used toward projects benefiting low-and-moderate income residents. Medford has not engaged in, nor anticipates receiving any program income from Section 108 loan proceeds, urban renewal settlements or float-funded activities.
