Early childhood development milestones to age 5

Every child is unique. No two children develop, grow and learn at exactly the same pace. And yet children develop in predictable ways. Take notes as your little one learns. Babies and toddlers are growing, learning and changing all the time. It's fun to watch! We suggest you keep track of the new things they do and the milestones they reach. If you are concerned about your child's growth, development or learning, we encourage you to contact us at HelpMeGrowMN.org or 1-866-693-4769

Curriculum

Our preschool curriculum focuses on social, emotional, cognitive, physical and creative development with strong emphasis on pre-math and pre-literacy skills. It is aligned with Prior Lake-Savage Area Schools' elementary curriculum standards, and state and national early childhood standards, which ensures a strong start in school for all children.

Enrollment

At this time, there are limited openings for the 2023-2024 school year. Information can be found on our webpage: ew.plsas.org. For more information call 952-226-0952

Early Childhood Screening

Minnesota requires all children to be screened before entering kindergarten. The screening is most valuable soon after your child's third birthday and gives you and your child an early connection to PLSAS.

Screening is FREE and includes growth, development, and immunization checks. Your child will be assessed in preschool concepts, communication skills, motor skills and social-emotional skills.

If your child has already been screened in HeadStart or in another school district, please provide the screening report. Children only need to be screened one time. Children do not need to be screened if they have an active Individualized Education Program (IEP).

Parents can choose to conscientiously object to screening for their child. If you object, please provide a signed statement indicating your conscientious objection screening.

Kitchen Bootcamp 201 (Ages 10-18)

Instructor: Heather Novak

Have you taken one of my cooking camps (or cooking 101) in the past, found it easy, and really enjoyed it? Then you may be ready for the next level. In this camp, I will introduce tools and techniques such as mandolins, instant pots, canning, grilling and multi-step recipes. We will review kitchen safety and healthy eating. Possible food and techniques used or created include: marinating, brunch items, jelly or jam, lava cakes, cake pops, fried or grilled foods and creating a healthy balanced menu. Because we will be working together in groups with multiple hot items and recipes; safety, awareness and being able to work in the kitchen comfortably without direct help is an expectation for this class.

Advisory Councils are active task-oriented groups who make recommendations about policies, procedures, program offerings, budgets, and more for ISD 719 Community Education Services programs. Together these groups determine what resources could be utilized to meet the needs and interests of community members without duplicating the efforts provided by others.

If you would be interested in working with a council to address the lifelong learning needs of our district, please call Joel Dahl, Director at 952-226-0312 or email joeldahl@plsas.org to request an application for membership.

Our Mission The mission of the Prior Lake-Savage Area Community Education Services Program is to enhance the quality of life for all citizens by helping to provide opportunities for individuals to reach their full potential and contribute to their communities. To accomplish this mission requires that parents, family, schools, faith communities, businesses, community organizations and all people living within our community work together. This can be done through a cooperative effort in meeting the recreational, educational, social and cultural needs and wants of the community.
