

Serving Muncie for three centuries

Muncie Community Schools (MCS) has been educating children since 1855.

A new era began in 2018, when MCS and Ball State University formed a one-of-a-kind partnership with a cradle-to-career approach that is becoming a model for other school districts around the country.

From our highly rated pre-K programs to our high school's status as a mentor Early College program school, MCS meets students where they are and takes them where you want them to be.

Placing Learners First

muncieschools.org

To provide a quality educational environment where every child is known, safe, inspired, challenged and empowered.

Our Mission

Pillars of Focus

High-quality Pre-K Education

We believe investing in young children is vital to their future success and socioeconomic status.

Strong Educational Leaders

We are committed to recruiting, hiring, developing and retaining the highest quality teachers and principals reflective of our diverse community.

Student-centered Teaching & Learning

We offer a learner-centered approach focusing on the needs, abilities, interests and learning styles of our students.

Social & Emotional Learning

We provide Pre-K- 12 SEL programs in:

- self-awareness
- self-management
- social awareness
- relationships
- decision making

Family & Community Engagement

We use culturally responsive practices to provide welcoming schools with many opportunities for families to interact and be heard.
