**Measurements**

This is the measurement identified in the plan to determine if the goal was reached.

Acadience Benchmark and Progress Monitoring assessments.

Please show the before and after measurements and how academic performance was improved.

Acadience Benchmark Assessments were used, as well as Acadience Progress Monitoring. Teachers also tracked growth through a school-wide created spreadsheet to determine targeted needs for students.

Our Beginning of the year Acadience proficiency came in lower than our anticipated 45%.

Our Beginning of Year proficiency was 28.33%. Our End of Year proficiency was 46%. We did not meet our anticipated goal. We grew overall proficiency by 17.67%.

**Action Steps**

This is the Action Plan Steps identified in the plan to reach the goal.

All students will participate in school-wide interventions. Students will receive extra instruction based on identified need. Interventions available to students include: foundational reading, reading comprehension, writing/research skills, and extended learning.

A coordinator will oversee implementation of the intervention program, facilitate progress monitoring, train and collaborate with para professionals and classroom teachers to ensure program success.

Paraprofessionals and classroom teachers will facilitate interventions.
Additional school funds were used to support this intervention plan through the hiring of additional personnel, as well as supplies and materials.

Publicity

The following items are the proposed methods of how the Plan would be publicized to the community:

- School assembly
- School newsletter
- School website

The school plan was actually publicized to the community in the following way(s):

☐ Letters to policy makers and/or administrators of trust lands and trust funds.

☐ Other: Please explain.

☐ School assembly

☐ School marquee

☐ School newsletter

☐ School website

☐ Sticker and stamps that identify purchases made with School LAND Trust funds.
