

**PARKLAND HIGH SCHOOL (PHS)
SUMMER COURSES FOR ENRICHMENT
PROGRAM INFORMATION AND REGISTRATION DETAILS
SUMMER 2023**

NOTE: This information only pertains to students who want to take a summer course for advancement OR for their own benefit. It does not apply to our summer Driver Education-Theory course or to our summer PE/Health course (for eligible students only).

Summer enrichment is for a student who demonstrates high ability who wishes to complete single subject acceleration OR who wants to pursue individual course study for their own benefit through a college/university during the summer months. To do this, students must adhere to the following guidelines:

1. Students will meet with their guidance counselor for course registration for 2023-2024 starting in February 2023. During this meeting, students who may be considering summer enrichment should discuss the criteria for acceleration along with the possible options, including:
 - a. Course work at an accredited 2- or 4-year college/university
 - b. Online study (through an accredited program like Keystone School Online, CTY, etc.)
 - c. Online course work in math through PHS.
2. Students should have an 85% average or higher in their current course (math, science, World Language, etc.) at the Honors or GHP levels to be eligible for participation in summer enrichment in the next course in the sequence. Proficiency on PSSAs and/or Keystone Exams (where applicable) is also reviewed to determine eligibility. Other standardized test scores, including PSAT/ACT/SAT Scores, along with attendance and student discipline will also be considered in the application process.
3. Any student who decides that he/she wants to enroll in a summer enrichment course (either outside of PHS or at PHS during the summer months) must complete the Parkland High School Summer Enrichment Application- Summer 2023 found at this link: <https://forms.gle/EZRXkEwmPD2AhhXW8> **NOTE that the deadline for completing this application and remitting payment (if taking a summer enrichment course through PHS) is Friday, April 21, 2023. Forms and payment received after April 21st will require a \$50 late fee in addition to the course cost.**
4. When students complete the Summer Enrichment Application- Summer 2023, it does not guarantee that they will be able to move forward with their studies. All requests will be carefully reviewed by Mrs. Bennick and the student's guidance counselor.
5. **Students whose requests for summer enrichment are not approved will be notified on or before Friday, May 19, 2023.**
6. **For students completing summer enrichment courses outside of PHS:**
 - a. Students are responsible for any and all tuition, costs, and/or fees for course(s).
 - b. Students must complete the Parkland High School Comprehensive Exam to demonstrate acquired skills and concepts.
 - c. Students must schedule a day between Monday, August 7 – Thursday, August 10, 2023 to complete their Comprehensive Exam. Exams will only be administered on these days. The exam session will last 2 hours, starting at 9:00 AM – 11:00 AM.
 - d. Students will be notified of their Comprehensive Exam date prior to leaving for summer break. Should a student need to change the date of his/her exam, the student and/or his/her parent/guardian must contact Mrs. Bennick by phone at 610-351-5606 OR by email at bennickt@parklandsd.org no later than Thursday, August 3, 2023 to

reschedule the exam date. If something changes with the administration of the Comprehensive Exam, Mrs. Bennick will be in touch.

- e. In order to complete the exam, students must provide a transcript that shows the successful completion of the summer work. This transcript must be submitted to Mrs. Bennick on the day that the student is scheduled to complete the exam. Students will not be able to complete their exams if they have not supplied Mrs. Bennick with a copy of their transcript.
 - f. Students who earn an 85% or higher on the comprehensive exam(s) may move on to the next Honors/AP course in the sequence. Students who earn a 75% or better may move on to the next CP/GHP course in the sequence.
 - g. The grade received for this course work will not be used in determining the student's yearly or cumulative average. Also, credits earned through these courses may not be used toward fulfillment of Parkland's required courses for graduation (i.e. - Three years of high school math and a minimum of three credits are required for graduation.).
 - h. Note that once a student is approved for summer study outside of PHS, any and all subsequent changes **MUST** be communicated to and approved by Mrs. Bennick. This includes students who decide not to pursue summer enrichment studies and students who wish to change to a different institution/provider for summer study.
7. For students completing summer enrichment courses at PHS:
- a. Students are responsible for any and all tuition, costs, and/or fees for course(s).
 - b. The online math courses that will run through PHS during the summer include: Algebra II GHP, Geometry GHP, College Algebra GHP, and Precalculus.
 - c. These courses will run June 19 – August 4, 2023. (Dates are subject to change should the 2022-2023 be adjusted due to winter weather and/or other changes to the school calendar.) Note that schools will be closed on July 3rd – 5th in observance of the July 4th holiday.
 - d. Students may only register for one course.
 - e. Students will complete both a midterm exam and a final exam in conjunction with their respective course. They will not need to schedule additional dates for testing.
 - f. The course has a required midterm exam (completed online) and final exam (completed in-person on Thursday, August 3, 2023).
 - g. Students who earn an overall 85% may move on to the next Honors/AP course in the sequence. Students who earn an overall 75% or better may move on to the next CP/GHP course in the sequence.
 - h. Students who fail to successfully complete the summer course will not be able to enroll in another program for enrichment purposes.
 - i. The grade received for this course work will be used in determining the student's yearly or cumulative average (for students in grades 9-11 during the 2022-2023 school year only).
 - j. Please review the information found on the last two pages of this packet for additional details about summer enrichment courses offered at PHS.
8. If a student successfully meets the stated criteria:
- a. The student will have satisfied the pre-requisite necessary for course advancement.
 - b. A copy of the transcript (for outside coursework) or final grade (for course work offered live at PHS) will be placed in student's file.
 - c. The student will be scheduled for the next course in the sequence at the appropriate level.

If you plan to enroll your child in a summer enrichment math course through PHS this summer, please consult the next two pages. Otherwise, you can complete the application for summer enrichment as listed on page 1, item #3 of this document.

**PARKLAND HIGH SCHOOL (PHS)
SUMMER COURSES FOR ENRICHMENT
SUMMER 2023 OFFERINGS AT PHS**

Four math courses will be offered for enrichment during the summer of 2023. All courses will run in an online format and will be facilitated by PHS math teachers. The courses that will be offered include:

1. Algebra 2 GHP
2. Geometry GHP
3. College Algebra GHP
4. Precalculus

Students who register for these courses typically do so to advance to the next Honors/AP course in the sequence, and our summer courses will prepare students for study at that level. We do not offer any Honors, AP, or CP classes for enrichment.

To register, please make note of the following:

1. The cost is \$450 per course (check or money order payable to Parkland School District or cash for receipt).
2. The courses will start Monday, June 19 – Friday, August 4, 2023. (Schools will be closed July 3rd - July 5th in observance of the July 4th holiday.) Students will receive initial access to the course on or before June 19th, and the online content will close as of 12:01 AM on August 3rd.
3. Edgenuity is the online environment through which the courses are presented. However, the courses are aligned to the PHS Math Curriculum that is covered during the traditional school year. For more detailed course descriptions, please see pages 36-41 in the PHS Course Selection Book,
https://resources.finalsite.net/images/v1671216889/parklandsdorg/b3igemwft5ivnulongft/hs_course_selection.pdf
4. As these are accelerated courses that cover the same material that is taught during the traditional school year, students should anticipate having to work 4-6 hours per day on the course. Course content and skills are taught in the online environment and consists of videos, readings, practice problems, and various assessments. The PHS teacher is a facilitator and does not provide daily instruction. However, he/she does provide help and support.
5. The course will have a required midterm exam and final exam.
 - a. The midterm exam will be taken online and synchronously. The date and time of this exam will be communicated by the teacher before the course begins.
 - b. The final exam will be taken in person on Thursday, August 3, 2023, from 9 AM – 11:00 AM at Parkland High School. All students taking a PHS summer enrichment math course must attend this exam session.
6. Prior to the start of class, the teacher will notify students of important due dates for work completion along with the midterm and final exam dates and times. While the course is self-paced and students have access to the course 24/7, the due dates are required and will help students with their plan for work completion. In addition, teachers will inform students of their online office hours, which are designed to help answer questions and/or provide supplemental instruction for course content.
7. Students may only register for ONE summer enrichment course.
8. Students are responsible for all tuition costs. Financial assistance is not available.
9. Upon completion of the summer course, students will be automatically scheduled for the appropriate math course for the fall of 2023. Scheduling is based on the student's final grade in the course AND on their requested subsequent course placement in the online summer enrichment application.
10. Students who plan to move on to the next AP or Honors level course in the math sequence are responsible for completing all summer assignments that are required prior to the start of the school year.

To register your child for one of these courses:

1. Complete the Parkland High School Summer Enrichment Application- Summer 2023 (as aforementioned) at <https://forms.gle/EZRXkEwmPD2AhhXW8>
2. Submit payment (\$450) with the last page from the online application (which you must print out and send in with your payment) to:

Parkland High School
Attn: Mrs. Bennick, Assistant Principal
2700 N. Cedar Crest Blvd.
Allentown, PA 18104

The deadline for completing the online application and submitting payment is Friday, April 21st, 2023. Forms and payments received after this date are subject to a \$50 late fee in addition to tuition. If a student is not approved for one of the PHS summer courses, he/she will be notified on or before Friday, May 19, 2023. Those who are approved for a PHS summer course will receive a confirmation email during the first two weeks of June 2023.

If you have additional questions about the summer enrichment courses offered at PHS, please contact Mrs. Bennick, Assistant Principal, at bennickt@parklandsd.org or 610-351-5600.
