## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Eastside High School, home of the Lions, is located in the Antelope Valley, about 60 miles northeast of the Los Angeles basin, in Los Angeles County in the high desert at 3200 East Avenue J-8, in the city of Lancaster. Formally a rural community, the area is rapidly becoming urban/suburban. The Antelope Valley has a total population of approximately 542,000. Many parents commute to the Los Angeles area to work.

Eastside High School is the eighth and newest comprehensive high school in the Antelope Valley Union High School District that serves 23,000+ students and another 2,000 adult education students. The student body is composed of students from three primary feeder schools from Eastside Elementary School District and the Lancaster Elementary School District. The high school district and elementary district are not unified. The majority of students provide their own transportation to school, but buses are currently serving students who live more than three miles away. The school serves 9th - 12th with an enrollment of over 2600 students.

School Mission/Vision Statement:

### Mission

Eastside High School is dedicated to empowering and inspiring students to strive for success, to set goals, and to become lifelong learners. This is achieved in a safe, mutually respectful learning community that provides students with the skills and knowledge necessary to succeed in today's technologically connected and global society.

### Vision

EHS students will graduate with the skills and adaptability necessary to achieve their own personal goals and compete in an ever-changing world.

Students with Disabilities	19.8

#### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## School Facility Conditions and Planned Improvements

Eastside High School's administrative building was finished just prior to the 2010-11 school year. The theater building was completed during the second semester of the 2010-11 school year. The school's football stadium was opened for use in 2014.

The Antelope Valley Union High School District maintains educational facilities that are safe, clean, and provide an educational environment that exceeds adequacy standards established by the state as set forth in the Williams vs. State of California educational lawsuit mandated for public schools in the state of California. The school district is staffed to provide each school with site-based maintenance and operational staff including custodial staff, grounds crews, and maintenance and repair personnel. These persons are based at each school site and report to school site administrators in rendering service to the District. Site-based maintenance and operations persons are supported by a central maintenance and operations crew including carpenters, painters, heating/ventilation/air conditioning personnel, and one individual who operates the District's field mower. All sites receive operating funds for maintenance and operations from restricted funds identified for maintaining each campus. In addition, the District takes full advantage of the state's deferred maintenance funding program whereby a five-year deferred maintenance plan is submitted and updated to reflect major repair/reconstruction projects in the District. This includes appropriate upgrades and repairs to roofing, asphalt, electrical, and plumbing on District-owned facilities.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	30	N/A	33	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	7	N/A	8	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 Career Technical Education Programs

Eastside High School Career Technical Education (CTE) academies and pathways reflect an integrated approach to college and career preparation that includes academic and technical coursework, students supports and work-based learning opportunities.

Our school offers CTE pathways in the following industry sectors:

- Arts, Media, and Entertainment
  - o Multimedia Contemporary Design 1
  - o Visual Imagery
  - o Digital Media and Graphic Design
  - o Studio Art: 2-D Design AP
  - o Intro to Film and Video Theory
  - o Digital Video Prod and Broadcasting
  - o Sound Engineering 1 & 2
  - o Stagecraft, Adv and Technology
- Education, Child Development, and Family Services
  - o Childhood and Adolescent Development 1
  - o Social Emotional Learning: The Heart of Education
- Health Science & Medical Technology
  - o Principles of Biomedical Sciences Honors
  - o Human Body Systems Honors
  - o Medical Interventions Honors
  - o Biomedical Innovation Honors
  - o Sports Medicine
  - o Advanced Sports Medicine
  - o Sports Medicine - Clinical
- Information and Communication Technologies
  - o Computer Science Principles (AP)

After-school activities in CTE STEM fields give students additional opportunities to access career technical education content.

EHS offers two Career Academies where students are placed in cohorts by grade level which enhances their learning experience. The Biomedical Science Academy, a Gold Certified Linked Learning Academy, is a comprehensive program that includes rigorous academics and a four-course sequence. The Education and Social Service Careers Academy provides a foundation for students to continue their career pathway in K-12 education or the social services profession. Guest speakers, field trips, and internship opportunities are ingrained in the academies to allow students to learn all aspects of the career-focused programs.

Each industry sector has an advisory committee that includes members representing the local/regional workforce, and K-16 partners specific to the content area.

The district's CTE division supports EHS in the development and implementation of high-quality career pathways that address regional labor market needs. They work in conjunction with school sites, industry, and the community college to ensure students in the CTE programs at EHS can transition successfully after graduation to post-secondary and the workforce.

## 2021-22 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	1094

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2022-23 Opportunities for Parental Involvement

Parents are welcome to participate in school activities in a number of ways. Parents participate as members of the School Site Council, School Advisory Council, as well as participate in multiple booster clubs for various activities. EHS employs a full-time Parent Volunteer Coordinator who facilitates parents in giving assistance and support campus-wide. EHS opened a Parent

## 2022-23 Opportunities for Parental Involvement

Center in 2012 to encourage PowerSchool usage and assistance to parents in filling out school-related documents. School personnel are on hand to assist parents.

Regularly scheduled EL and AVID Parent Nights and celebrations are held throughout the school year. In addition, an EL Mini-Conference was held for students and parents to highlight A-G college requirements, PSAT/SAT information and information on how to read a student transcript. A district ELAC Meeting is held 1-2 times a quarter.

Academic Probation meetings are held quarterly after school for parents to understand the eligibility requirements for athletic participation. Separate conferences are held for each grade level. At least once a year we also hold other informative meetings including: College Fair, Making College a Reality, Senior Nights, School Showcase, Back To School Night, and other special nights for both students and parents. Once a month student parent-teacher meetings are offered and are highly attended. We also have a separate Parent Night in the Spring for AVID. In the 2022-2023 school year EHS is going to be partnering with the Parent Institute for Quality Education (PIQE) to ensure families are well informed and involved with their students' education as well as understand the resources available through coursework that parents participate in.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

## 2022-23 School Safety Plan

Our Safety plan is a resource of information designed to assist our staff in dealing with crime and emergencies on campus. The information in the plan encompasses the following areas: crime assessment, policy, and procedures, evacuation plans, people and programs, physical environment and compliance. It is designed to maintain consistency regardless of which staff member or administrator is dealing with situations on campus. A complete copy of the School Safety Plans can be obtained in the Administration Office.

Our focus areas include increasing school safety while expanding and emphasizing school pride by reducing referrals for fighting, gang activity, and graffiti. The Staff of EHS is trained to identify and recognize signs of at-risk youth and how to access resources and programs within the EHS community. Evacuation and Lockdown Drills are held on a quarterly and monthly basis.

Eastside High School requires all students to present their IDs prior to entering campus. An additional campus supervisor will patrol the perimeter of EHS during school hours. In support of students' emotional and social development, EHS has identified six mentors to work with students throughout the day helping them to focus on their attendance, academic and school participation.

District Statement: We want our community to be aware of our continued commitment to safety which includes multiple, proactive approaches to fortifying security throughout our schools.

In April and June 2018, we conducted safety reviews of our campuses that resulted in the implementation of enhanced safety measures. These measures vary by school and include enhanced fencing, additional security and counseling personnel, updated surveillance cameras, front entrance modifications, and door locking devices. We also incorporated additional training with the Lancaster Sheriff's Station and revised student, staff and visitor identification processes.

For more than 25 years, we have had a dedicated school deputy on campus each day. In addition to this, we continue to focus on our students' social emotional needs through various programs and counseling outreach, provide safety training to our students and staff, and underscore the importance of vigilance through "See Something, Say Something." Our district and site websites have links to confidential student referral forms, where students and parents are able to submit safety concerns for administration to address.

## 2021-22 Types of Services Funded

Eastside High School is currently a school-wide Title I school, with a majority of its students qualifying for Title I funds. There are several services and programs offered at Eastside to assist students and families meet the District and Site LCAP Goals. Literacy Support classes are offered for students who do not read and write at grade level. In order to ensure students are successful in their ELA and Math classes, students are placed in support classes based on their NWEA scores. These classes use Read 180 to teach reading and writing skills so students can make gains in their literary skills at or above grade level. Math Intervention and support classes such as Algebra 1 Support and math support are offered. The use of daily planners supports organizational skills, time management and school-to-home communication.

The Special Education program, an inclusion model, provides assistance from instructional aides and special education teachers in the classroom to support all students in meeting the standards. Literacy Support and ESS classes provide time to ensure goals for each Special Education student are met. Teachers and the Special Education support staff implement student accommodations to ensure the opportunity for academic success. A Teacher on Special Assignment also provides ongoing staff development and is present during transition IEPs for students coming to high school from feeder schools.

We offer the LINK Crew Program, a mentor program specifically designed for the transition from Junior High to High School. Through this program, 9th grade students attend a summer orientation and various activities throughout the year. In addition, our AVID Program currently serves several hundred students. The program places special emphasis on growing college readiness, writing, critical thinking, teamwork, organization and reading skills. These skills are taught and utilized campus-wide by all students, EHS is currently honored as an AVID Demonstration School.

At Eastside, we provide a before school and after school educational enrichment program for at-risk secondary students, in addition to Saturday Schools. The programs are designed to demonstrate that the trend of low academic student achievement can be reversed and that all students can master academic standards if they are given the time, support, resources, and instruction that focuses on their academic needs. Substantial features of our after school program is that we have chromebooks available for our students and teacher tutors of different academic disciplines.

At Eastside, there is a Foster Liaison on campus on a regular basis to work with Foster students and their needs on campus. The Community Attendance Worker (CAW) on campus works with the Foster and Homeless students and helps with providing city bus passes, school supplies/backpacks, PE clothes, and takes students shopping for school clothes with provided vouchers.

The EL Department here at Eastside High School serves our students first and foremost by creating a curriculum to help students achieve English proficiency. The EL Department also provides quarter monitoring of students' grades and works with the Counseling office to ensure these students are in the classes they need to be and receive the resources they need. We have a bilingual secretary that assists with communication to the parents, we have a bilingual aide that assists the students who are still learning English. We also administer the ELPAC test yearly to help measure if our students can be reclassified. We have equipped all classrooms with a class set of chromebooks and Promethean boards to bridge the gap and most importantly increase student academic achievement.

## Professional Development

Teachers have multiple opportunities to participate in voluntary and mandatory professional development sessions. These take place during staff meetings, department meetings, Professional Learning Communities, and other optional Professional Development sessions that occur monthly outside of the school day. In addition, teachers have the option of attending district trainings and/or collaborating either during the school day or after school. Finally, teachers are given opportunities to attend conferences outside of the district through LACOE, the College Board, and other agencies in conjunction with district offered pd.

To support teachers in implementing the various professional development initiatives, Eastside High School has identified a variety of instructional partners and coordinators who have varying periods of release time to observe, conference, plan, and co-teach with other teachers. Teachers are encouraged to observe each other in implementing strategies, and consistent follow-up in Professional Development sessions ensures that there is a clear focus and direction to our Professional Development. The professional development plan continues to evolve based on data collected and identified the needs of our faculty, staff, and students. Additionally, EHS has partnered with Catapult learning to support literacy across the curriculum through the catalyst of well thought out and structured lesson plans. We utilize the Core Instructional Model which supports collaboration, objective and goal setting with measurable outcomes, identifying student success, student active participation, assessing student learning, collaboration and the gradual release process. Teachers participate in differentiated professional development towards this goal with opportunities before and after school as well as during the school day.

All teachers are trained in AVID Strategies (WICOR), Catapult, (Core Instructional Model) and new teachers have an IP who works with them. New teachers go through AVTI for support and to clear their credentials. The District Office also offers regular professional development opportunities scheduled through EdCentral.
