2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

The greater Littlerock community is located in the high desert of Southern California, within the boundaries of Los Angeles County. Littlerock High School is part of the Antelope Valley Union High School District. The AVUHSD serves the communities of Lancaster, Palmdale, Quartz Hill, Littlerock, Pearblossom, and Lake Los Angeles. The district consists of eight comprehensive high schools, three continuation schools, two prep junior high school and one community day school. Littlerock High School, established in 1989, places a strong emphasis on high achievement for students and preparation for productive citizenship and is committed to providing strong instructional programs for all students to ensure excellence in education and preparation for careers.

The Littlerock High School staff believes that through powerful teaching and differentiated instructional strategies, education becomes a lifelong learning process. This process empowers all students to meet challenging standards in personal, academic, vocational, social, technical, and communication areas. The Littlerock High School learning community advocates rigorous and relevant instruction with technology integration in a secure environment that encourages students' development as responsible and capable individuals and productive members of society.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

School facilities are sufficient to meet program needs and are designed within strict State standards for permanent high school construction. Restroom inspections are conducted regularly, facility repair requests are done electronically to expedite the process. School cleanliness and upkeep are of the highest priority and site inspections are conducted on a regular basis.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	22	N/A	33	N/A	47
Mathematics (grades 3-8 and 11)	N/A	4	N/A	8	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

Littlerock High School offers numerous opportunities for our students to prepare for college and careers through Career Technical Education (CTE). Course offerings are available in the following industry sectors:

- Agriculture and Natural Resources
- Agriculture Mechanics 1, 2, and Advanced
- Biology and Sustainable Agriculture
- Agriculture Chemistry
- Adv Interdisciplinary Science for Sustainable Agriculture
- Arts, Media, and Entertainment
- Multimedia Contemporary Design 1
- Visual Imagery
- Digital Media and Graphic Design
- Adv Digital Media Arts and Communications
- Studio Art: 2-D Design AP
- Health Science & Medical Technology
- Principles of Biomedical Sciences Honors
- Human Body Systems Honors
- Medical Interventions Honors
- Biomedical Innovation Honors
- Information and Communication Technologies
- Computer Science Principles (AP)
- Transportation
- Auto Technology 1 & 2

The Biomedical Science Academy allows student grade-level cohorts to learn content within a small learning community that applies real-world and career skills to their academic and technical coursework. Students interested in careers in the health science/medical area benefit from the knowledge and experiences in this class, student supports, and work-based learning opportunities. They partake in a range of experiences including field trips to industry and higher education institutions.

Littlerock High School also offers a robust agriculture department that allows students to gain technical expertise through real-world experiences in plant growth and water management through crop boxes and greenhouse facilities. Our students have the opportunity to participate in career technical student organizations (CTSO), HOSA (Health Occupations Students of America), and FFA (Future Farmers of America), where they learn and apply leadership skills and compete in CTE areas to demonstrate knowledge and proficiency.

Each industry sector has an advisory committee that includes members representing the local/regional workforce, and K-16 partners specific to the content area.

Our site receives support and works collaboratively with the CTE office to ensure that our programs address the quality indicators for CTE. Our teachers participate in district, state, and national professional development to ensure these courses address current and emerging workforce trends.

Data is pulled from the California Longitudinal Pupil Achievement Data System (CALPADS) to provide comparison data for LHS CTE students and progress in the College and Career Indicator for CTE pathways. Supplemental data provided in coordination with the CTE office includes work-based learning, college coursework and acceptance rates, graduation rates, attendance, and post-graduation follow-up.

2021-22 Career Technical Education (CTE) Participation

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents and community members are encouraged to become involved in the educational programs at Littlerock High School. Staff members and parents participate on various committees that make decisions regarding the priorities and directions of the educational plan to ensure instructional programs are consistent with students' needs and comply with AVUHSD's Strategic Plan Goals.

2022-23 Opportunities for Parental Involvement

The primary decision-making body at the school through which parents are formally involved is the School Site Council, a partnership among faculty, administrators, support staff, students, and parents. The School Site Council meets regularly to address programs and components that make up the school, to discuss the effectiveness of the various programs in relation to student achievement, and to act as a liaison between the community and the school.

Parents are encouraged to participate on one or more of the following committees or organizations:

- School Site Council
- Volunteering in or out of the classrooms
- English Learners Advisory Committee
- Back-To-School Night
- 9th Grade Orientation
- Extra-Curricular Events
- Title I Advisory Committee
- LCAP Community Forums
- Paren Workshops

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	4.75	5.43	2.45
Expulsions	0.32	0.12	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

Ensuring the safe and secure operation of the school site is a constant priority for site administrators. Emphasis given to effective security operations includes a security staff of seven individuals under the direction of a Director of Campus Safety. The AVUHSD Board of Trustees has adopted disciplinary codes that govern the conduct of students. These disciplinary codes provide site administrators guidelines to operate safe schools. Board policies provide guidelines on school safety.

The Safe School Plan includes several components that address personal and social responsibility, conflict resolution, cultural diversity and social skills, site maintenance, disaster preparedness, and school culture and climate. The current safety plan has been updated by the Director of Campus Safety and reviewed by the School Site Council. A complete copy of the School Safety Plans can be obtained in the Administration Office.

In addition to safety enhancements across the District (see below), Littlerock High School continues to emphasize the importance of connectedness between our staff and students and fostering the social/emotional well-being of students through programs like Capturing Kids' Hearts and the Student Support Center. Additional lockdown drills have been added, and large bags are subject to being searched.

District Statement:

In April and June 2018, the AVUHSD conducted safety reviews of its campuses that resulted in the implementation of enhanced safety measures. These measures vary by school and include enhanced fencing, additional security and counseling personnel, updated surveillance cameras, front entrance modifications, and door locking devices. The District also incorporated additional training with the Lancaster Sheriff's Station and revised student, staff, and visitor identification processes.

For more than 25 years, the AVUHSD has had a dedicated school deputy on campus each day. In addition to this, the District continues to focus on students' social-emotional needs through various programs and counseling outreach, provides safety training to students and staff, and underscores the importance of vigilance through "See Something, Say Something." Our district and site websites have links to confidential student referral forms, where students and parents are able to submit safety concerns for administration to address.

2021-22 Types of Services Funded

Categorical funds are an additional support provided to the schools with specific guidelines for their use. The major portion of categorical funds that LHS receives are through the Title I program and Targeted Funds. This additional money goes toward helping our students in the areas of Math and English supports, and extended learning opportunities. This money also provides additional counseling services, instructional aides, instructional coaching, class sections and tutoring. Other Federal and State funds used to support the instructional program include Title IV Funds.

Professional Development

Littlerock High School offers a comprehensive Professional Development plan through categorical funding and targeted funds. The continuing focus is on teaching all students, building relational capacity between students and staff, school-wide strategies, grade-level proficiency, educational technology use, personalized learning, and academic rigor. Our annual teacher in-service days provide teachers with researched-based instructional strategies and best practices. In addition, weekly time continues to be allocated for teachers to collaborate regarding lessons and instructional strategies for all students as well as assessment data analysis to modify instruction to ensure all students progress to master the new Common Core State Standards as well as be proficient on the Smarter Balanced assessments.

In addition to site-based professional development, the District provides ongoing professional development for staff.

This table displays the number of school days dedicated to staff development and continuous improvement.
