## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Quartz Hill High School (QHHS) is located in Quartz Hill, California, a small, unincorporated community located in the Antelope Valley's western portion. The Antelope Valley represents the northernmost area of Los Angeles County in Southern California. The community lies flanked between Lancaster's city to the east and the city of Palmdale to the south. Quartz Hill was settled in the 1880s, and three families—the Lanes, the Goddes, and the Stratmans—were responsible for the initial settlement. It was first known as Belleview, but the name was later changed to Quartz Hill. First opened in 1964, QHHS was the third school built in the Antelope Valley Union High School District (AVUHSD), which now encompasses eight comprehensive high schools, three continuation schools, and other alternative education sites including Adult Education, Community School, six site-specific Independent Study programs and six on-site continuation programs. The district currently serves the educational needs of 23,000 students. QHHS began the 2022/2023 school year, servicing over 3000 students.

Once in the heart of a rural area in the western Antelope Valley, QHHS now draws students from an area of mostly residential single-family homes, with a smattering of multi-family complexes to the north and east. To the west of the school lies the vast, open spaces of the Antelope Valley. The aerospace industry remains the Antelope Valley's primary employer, with large employee bases at Lockheed, Rockwell, Northrup-Grumman, and Edwards Air Force Base. Major dependence on aerospace as an employment source has generated boom-bust employment cycles, but Palmdale and Lancaster cities continue to diversify economically. Many parents in the Quartz Hill area commute daily into the Los Angeles area, and most would be classified as middle income. Still, the entire strata of low to high-income families are represented in the attendance zone. The current attendance zone is three hundred square miles.

QHHS's eighty-acre permanent facility, located at Avenue L and 60th Street West, was originally built to house 1800 students. Extensive demographic growth necessitated the construction of additional facilities, including a second gymnasium, expanding the Library/Media Center, a stadium, and forty-five portable classrooms. The AVUHSD had an open-enrollment policy for schools in the district, allowing students to apply to schools outside their enrollment/attendance area. Under open-enrollment, QHHS was a preferred site. The District discontinued open-enrollment at the beginning of the 2006-2007 school year, and a yearly application system is now in place.

In 1998, QHHS became an International Baccalaureate (IB) school, and the first IB class graduated in the spring of 2001. As of the most current academic year (2022/2023), there are 51 total IB students with 30 anticipated year diploma candidates and 21 diploma year candidates. QHHS is the only school in the district offering IB courses and the IB Diploma in 2022/2023. Students who have met IB entry requirements in other district schools may apply for a transfer to QHHS upon entering 11th grade.

In the 19/20 school year, QHHS seniors received upwards of \$2,024,650.00 in scholarship awards. The monetary total included school, local, military, state, and national scholarship awards.

## 2022-23 School Overview

**QHHS Mission Statement:** The mission of Quartz Hill High School is to provide a place to grow as unstoppable learners, deeply respecting one another and our communities, while wholeheartedly developing the communication and leadership skills to become truly Royal within the world today.

**QHHS Vision Statement:** Through a rigorous and relevant curriculum, QHHS will prepare students to be:

Respectful of everyone, Royals improve the overall culture of our school and community by showing courtesy, helpfulness, kindness, and responsibility.

Unstoppable in our efforts to learn, Royals work to analyze and evaluate information in order to build critical thinking skills that can be used to create innovative solutions to real-world problems despite the challenges they face.

Leading by example, Royals motivate each other by practicing good citizenship, showing our strong work ethics, and engaging in effective collaboration to build a strong learning community.

Engaged together in the learning process, Royals demonstrate our abilities to communicate ideas clearly and respond effectively to others through reading, writing, listening, and speaking.

**AVUHS District Mission Statement:** "Our mission is to provide a safe and secure learning environment that promotes a rigorous curriculum and enables our students to develop the necessary academic, technical, and work-related skills of the 21st century."

**AVUHS District Vision Statement:** "Our vision is that every student who graduates will be prepared to pursue college and any career to which he or she aspires."

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## School Facility Conditions and Planned Improvements

Quartz Hill High School (QHHS) facilities are over 40 years old, and the school completed a \$15 million modernization program in the 2003/2004 school year. In 2007, the main school cafeteria was remodeled and expanded to accommodate the increase in student population. On QHHS's campus, 54 re-locatable buildings are used for classrooms, and two re-locatable office facilities have been installed. The original structures of QHHS were also renovated with new lighting systems, flooring, upgraded electrical capabilities, plumbing, restroom facilities, and heating/air conditioning systems. In 2014 the addition of a baseball field and softball field was completed. The 2015/2016 school year marked the beginning of a full library renovation project where the library was transformed into a 21st-century learning center. A major renovation of the exterior lighting (LED lighting) took place during the second semester of the 2016/2017 school year.

According to California Education Code section 35186, school facilities must be clean, safe, and maintained in good repair, and our faculty strives to maintain this standard daily. Facilities are thoroughly cleaned each evening and are checked throughout the day at regular intervals to ensure sanitary and healthful conditions are maintained.

The Antelope Valley Union High School District (AVUHSD) maintains educational facilities that are safe, clean, and provide an educational environment that exceeds the state's adequacy standards as outlined in the Williams vs. State of California educational lawsuit recently mandated for public schools in the state of California.

Students attend classes where rooms are properly heated and ventilated. Classrooms are appropriate for the learning environment, including the absence of noise levels, which would interfere with teachers' and students' communication. There are sufficient numbers of clean, well-stocked, functioning restrooms on all campuses, and there exists no unsanitary or unhealthful condition that would impact a student's ability to learn.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

<b>Mathematics</b> (grades 3-8 and 11)	N/A	14	N/A	8	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## 2021-22 Career Technical Education Programs

Quartz Hill High School (QHHS) offers a wide variety of Career Technical Education (CTE) programs that include exploratory courses, a sequence of career-themed courses (pathway), and a career academy, all of which prepare students for both college and career.

Our school offers courses in the following industry sectors:

- Arts, Media, and Entertainment
  - Multimedia Contemporary Design 1
  - Visual Imagery
  - Studio Art: 2-D Design AP
  - Intro to Film and Video Theory
  - Digital Video Prod and Broadcasting
  - Adv Art of TV and Video Production
  
- Engineering & Architecture
  - Intro to Engineering Honors
  - Principles of Engineering Honors
  - Aerospace Engineering Honors
  
- Information and Communication Technologies
  - Computer Science Principles (AP)
  - Computer Science A - AP

The QHHS Television and Video Academy (QHTV) offers a small learning community where students are cohorted within their CTE and academic courses. Students learn through the lens of film and television that integrates the academic and technical content within this relevant career theme. Field trips, guest speakers, working with industry-grade equipment, work-based learning opportunities, real-world projects, and after-school activities aid in connecting students to all aspects of the industry.

To meet the regional labor market demand, our school offers a four-course sequenced Project Lead the Way (PLTW) pathway in engineering, culminating with a course in aerospace. Students learn STEM content within a state-of-the-art lab environment that replicates the aerospace industry.

Each industry sector has an advisory committee that includes members representing the local/regional workforce, and K-16 partners specific to the content area.

The district's CTE division supports QHHS in the development and implementation of high-quality career pathways and academies that address regional labor market needs. They work in conjunction with school sites, industry, and the community college to ensure students in the CTE programs at QHHS can transition successfully after graduation, to post-secondary and the workforce.

## 2021-22 Career Technical Education (CTE) Participation

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2022-23 Opportunities for Parental Involvement

Parent involvement and participation continues to be an important part of the Quartz Hill High School (QHHS) community. Parents are afforded multiple avenues of communicating their thoughts and concerns with the school. For example, parents have an anonymous tip line, the District app (for mobile phones), the annual District Survey, and direct access to administrators and teachers. Parents willingly volunteer their time and expertise to support our educational program. Parent volunteers perform a variety of tasks, including but not limited to clerical assistance, classroom support, student registration, and many other opportunities when needed. During the 19/20 school year, QHHS parents volunteered a total of 1,500 hours. Several of our academic and athletic teams have booster clubs composed of spirited and enthusiastic parents who help raise money to support our academic and athletic programs. Parents are also actively involved in site decision making through their participation in the Principal's Parent Advisory Committee, the School Site Council, English Learner Advisory Committee, and a variety of other committees. Parents that are interested in participating in these advisory committees should contact the Principal's office at ext. 711.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	1.69	5.43	2.45
Expulsions	0.09	0.12	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

School safety is a top priority at Quartz Hill High School (QHHS). Antelope Valley Union High School District (AVUHSD) has hired a full-time Director of School Safety to oversee our district's safety program. QHHS has nine campus supervisors whose primary role is to provide a safe and secure learning environment for students and staff. AVUHSD requires that every staff member and student on our campus have a picture identification card presented upon entry to the campus. QHHS is a closed campus requiring all visitors to check in to the switchboard with current picture identification. A visitor background search system is in place to provide identification of adults attempting to enter the campus.

QHHS has installed a camera/video surveillance system and fencing to keep non-students off the campus during school hours. The school has limited the number of entry points to 4 and stations an administrator and security staff at each entry point before the school day. Also, QHHS has developed and implemented a Safe School Plan per Senate Bill 187. The following goals can be found in our safety plan:

- Goal #1: All students and staff members are provided a safe teaching and learning environment.
- Goal #2: All students are safe and secure while at school, when traveling to and from school, and when traveling to and from school-related activities.

The Site Safety Plan was last updated and reviewed in January 2022. A complete copy of QHHS's School Safety plan can be obtained at the AVUHSD website (<https://www.avdistrict.org>) or the QHHS website (<https://www.quartzhillhs.org>).

QHHS has both administration and security on campus during 0 period. To assist with the security in less visible areas, QHHS has closed a previous entry point, relocated teacher parking, and rerouted a neighboring school's entrance point to secure our Village and PE areas. A full upgrade to our phone and intercom systems was performed during the 19/20 school year. AVUHSD wants our community to be aware of our continued commitment to safety, including multiple, proactive approaches to fortifying security throughout our schools.

In April and June 2018, we conducted safety reviews of our campuses that resulted in enhanced safety measures. These measures vary by school and include enhanced fencing, additional security and counseling personnel, updated surveillance cameras, front entrance modifications, and door locking devices. We also incorporated additional training with the Lancaster Sheriff's Station and revised student, staff, and visitor identification processes.

Up to and including the 19/20 school year, we had a dedicated school deputy on campus each day. We continue to focus on our students' social-emotional needs through various programs and counseling outreach, provide safety training to our students and staff, and underscore the importance of vigilance through "See Something, Say Something." Our district and site websites have links to confidential student referral forms, where students and parents can submit safety concerns for administration to address.

## 2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Percent Difference - School Site and State	N/A	N/A	-109.4	26.6

## 2021-22 Types of Services Funded

One measure contributing to the academic strength is the amount of money the district spends for each student enrolled. The Antelope Valley Union High School District (AVUHSD) spent an average of \$7,328 per registered pupil during the 2007-2008 school year. In the 2012-2013 school year, the per-pupil spending average raised to \$9,042. Additionally, Quartz Hill High School (QHHS) receives allocations over \$500,000, including categorical monies such as Title 1 and Targeted funds along with additional Principal Allocations. Categorical money is additional support provided to schools with specific guidelines for its use; examples of categorical monies include Title I and Targeted. Funds are used to support Quartz Hill High School's School Plan for Student Achievement, along with the District's Local Control and Accountability Plan. Examples of the programs provided include English Learner programs, Special Education programs, Work Experience, Section 504 program, after school tutoring, online, live tutoring, socio-emotional support staff, and ROP/CTE programs.

## 2020-21 Teacher and Administrative Salaries

This table displays the 2020-21 Teacher and Administrative salaries. For detailed information on salaries, see the CDE Certification Salaries & Benefits web page at <http://www.cde.ca.gov/ds/fd/cs/>.

## Professional Development

Quartz Hill High School (QHHS) uses a variety of categorical monies to support staff development opportunities. The district provides ample opportunity for staff to become involved in staff development, including workshops, seminars, and conferences, and established a Professional Resource Center with material and resources to improve learning in the classroom and support the shift to Common Core.

The Antelope Valley Union High School District (AVUHSD) encourages the teaching staff to participate in in-service days that address a variety of educational topics, including but not limited to: implementation of curricular standards, test-taking strategies, technology training, racial and cultural diversity awareness training, sexual harassment training, college and career preparation, 21st-century learning, positive school culture, along with personal/professional growth topics, and requires teachers to attend California curriculum standards workshops. Federal categorical funding allows teachers and administrators to attend various conferences and workshops relating to the curriculum and student improvement. Due to COVID-19, in-person PD was greatly reduced. However, it was replaced by several virtual options that have continued after our return to school. As part of their professional development, teachers regularly collaborate in planning lessons and analyzing student achievement data.

With the start of 22/23 school hours were adjusted to a later start by the state. The school schedule was adjusted and most Tuesdays are a "flex" day ending an hour early. Students were dismissed early so that teachers could participate in professional development. On these Tuesdays, QHHS conducts staff meetings, department meetings, and subject teacher collaborative meetings. Over the last three years, core area teachers have met on average once per month as part of their ongoing professional development. Additionally, teachers have been giving training opportunities through research-based best practices such as AVID strategies and Lesson Studies. Teachers have the opportunity both departmentally and in cross-curricular settings to teach common lessons and/or thematic elements. After the lesson(s), students were given a common assessment to measure concept mastery, which mirrored the new SBA testing model. Science and History teachers have had the professional development opportunity provided by "Catapult," called Literacy First. This specialized professional development was centered around Common Core and literacy strategies while breaking down the Anatomies of a Lesson. AP teachers also began a district-wide cadre where they received specialized AP professional development. Also, science teachers have participated in Next Generation Science Standards training and professional collaborations over the last three years.

This table displays the number of school days dedicated to staff development and continuous improvement.
