Keeneyville EL Program

Keeneyville EL Program

What is an EL program?

The EL program is an English language development program using content for the development of Speaking, Listening, Reading and Writing skills for non-English proficient or English Learners

- EL Pull-Out: Your student leaves the regular classroom for a short time to receive concentrated instruction in English from an EL teacher. This type of instruction is generally limited to non-English and very limited English proficient students.
- EL Push-In: Your student receives additional support in the regular classroom from an EL teacher.

EL Eligibility

Students identified as eligible for the district's EL program are those whose parents have indicated a language other than English on any of the following questions on the Home Language Survey:

1. What was the first language spoken by the student?
2. What is the language most often spoken in the home?
3. What is the language most often spoken by the student with friends?

How is English proficiency determined?

Within 30 days of the beginning of each school year, all new eligible students are given an initial English proficiency assessment.

Eligible students who enter after the first 30 days of the school year are assessed within 2 weeks of starting school.

The initial assessment results determine if a student is an EL.

All ELs are given an English proficiency assessment each school year, typically in January/February, whether they receive EL instruction or not, until the student meets state and district criteria of English proficiency. This is mandated by federal law.

Typically, oral proficiency takes 3-5 years and academic proficiency takes 4-7 years.

The Latino Policy Form

- The Latino Policy Forum has created an in depth guide covering basic housing rights and policies for immigrant tenants living in Illinois, regardless of immigration status. It includes tenant protections, landlord responsibilities and obligations, and free housing resources. It also offers descriptions of legal processes and the right to interpreters/translators in legal proceedings, as well as other means for immigrant tenants to defend their rights and report unequal treatment.
