

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](https://www.psaydn.org/)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The Upper Adams School District will implement a summer program designed for special education students and elementary students who need additional support in the areas of English Language Arts (ELA) & Mathematics supports. Students will be identified for the

program by receiving a basic or below-basic score on the Pennsylvania State System of Assessment (PSSA). In addition, students will be considered for the program based on their benchmark scores at the end of the school year through local and curriculum-based assessments. Students who did not score at the proficiency level on these assessments will be identified as well. Assessments will include benchmark assessments from the Singapore Math Program, Math in Focus, Wonders Reading Benchmark Assessments, diagnostic assessments through D.I.B.E.L.S. and Fountas & Pinnell, and locally developed assessments for specific grade level/curriculum purposes. The needs assessment identified above will be utilized during the additional school years as well as the Upper Adams School District plans to continue the summer program in the future.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
			The Upper Adams School District will implement a summer program designed for special education students and elementary students who need additional support in the areas of English Language Arts (ELA) & Mathematics supports. Students will be identified for the program by receiving a basic or below-basic score on the Pennsylvania State System of Assessment (PSSA). In addition, students will be considered for the program based on their benchmark scores at the end of the school year through local universal screenings, and curriculum-based assessments. Students who did not

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	50	score at the proficiency level on these assessments will be identified as well. Assessments will include benchmark assessments from the Wonders Reading Benchmark Assessments, diagnostic assessments through Dynamic Indicator of Basic Literacy Skills (D.I.B.E.L.S.) and Fountas & Pinnell, and locally developed assessments for specific grade level/curriculum purposes. The Pennsylvania Value-Added Assessment (PVAAS) was also analyzed, as needed, to determine the level of growth in reading proficiency. This analysis was targeted to students of low-income, students with disabilities, and English Learners. The findings indicated a significant gap of reading proficiency and in many cases a large decrease from previous data points from the most recent assessments.

			Added Assessment (PVAAS) was also analyzed, as needed, to determine the level of growth in reading proficiency. This analysis was targeted to students of low-income, students with disabilities, and English Learners. The findings indicated a significant gap of reading proficiency and in many cases a large decrease from previous data points from the most recent assessments.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

The Upper Adams School District will utilize small group instruction to develop foundational reading/literacy skills using the Dynamic Indicators of Basic Early Literacy Skills (D.I.B.E.L.S.) as the targeted indicators for phonics. Graphic organizers, retelling, and summarizing will be utilized to grow comprehension strategies with the students. In Mathematics, the concrete-pictorial-abstract framework will be utilized for foundational mathematics skills as well as simple numeracy strategies such as number identification, number fluency, and general automaticity with mathematic computation. A scaffolding learning style approach will be the center of the program/lesson design with an emphasis on foundational components to replace inaccurate or missing educational experiences in these content areas. Digital tools will be integrated as appropriate into lesson development. Collaboration with families to sustain the anticipated progress will occur so repetition and consistency of the knowledge acquisition can continue.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
8	Internal Provider	Instructor
1	Internal Provider	Instructional Provider
1	Outside Provider	Contracted Support Services

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Dynamic Indicator of Basic Literacy Skills (D.I.B.E.L.S.)	Minimum Twice A Year	Progressive Increase Across All Indicators
Benchmark Assessments	Minimum Twice A Year	Progressive Increase Between Assessments

6. How will the LEA engage families in the summer school program?

The Upper Adams School District will communicate with families through newsletters in the student's native language, parent-teacher conferences with interpreters provided as needed, phone calls, family activity days, and sharing/explaining any available assessment results. In addition, the Upper Adams School District will provide families, as appropriate, hands-on activities they can do together to support their students with sustaining reading/literacy proficiency.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$19,120.00

Allocation

\$19,120.00

Budget Over(Under) Allocation

\$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$11,000.00	Salary for those working the summer enrichment program
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	200 - Benefits	\$1,880.00	Benefits for those working the summer enrichment program
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	500 - Other Purchased Services	\$3,000.00	Transportation for students during summer enrichment program
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	300 - Purchased Professional and Technical Services	\$2,240.00	Contracted support services for those working the summer enrichment program
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	600 - Supplies	\$1,000.00	Supplies the summer enrichment program
		\$19,120.00
