

Quality Schools International Ltd. Ardent Business Center, 1st Floor Triq I-Oratorju, Naxxar NXR 2504, Malta

## Dear Parents/Guardians,

QSI is making this change to protect the student's information and work, as well as all QSI accounts across the system.

MFA provides an extra layer of protection against unauthorized access to student accounts, helping to prevent hacking, phishing, and other cyber-attacks

## Choice 1:

A parent or legal guardian does provide consent to open student's Microsft account to send and receive email outside QSI domain.

\*\*\*\*

We are writing to inform you that we have recently updated our email policy for secondary student Microsoft 365 accounts to include an additional security measure called Multi-Factor Authentication (MFA)

## Choice 2 :

If a parent or legal guardian does not provide consent to use MFA, the students account will remain restricted to operating only within our QSI domain.

The change will **not affect** other programs within their Microsoft 365 account such as access to OneDrive, Teams, and other Office programs.

We understand that this may seem like an inconvenience, but we assure you that it is for the safety and security of your child's personal information and work.

If you have any questic or concerns, please do not hesitate to contact the school.
