Describe how your wellness policy compares to model wellness policies.

Meet standards.

Section 4. Compliance with the Wellness Policy and Progress towards Goals

At a minimum, local wellness policies are required to include:

- Specific goals for:
 - Nutrition promotion and education
 - Physical activity
 - Other school based activities that promote student wellness.
- Standards and nutrition guidelines for all foods and beverages sold to students on the school campus during the school day that are consistent with Federal regulations for school meal nutrition standards, and the Smart Snacks in School nutrition standards.
- Standards for all foods and beverages provided, but not sold, to students during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- Policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- Description of public involvement, public updates, policy leadership, and evaluation plan.

Using the tables below, indicate the language that is currently written in the district local wellness policy in relation to each topic area. Next, assess and discuss whether the district is meeting the goal, partially meeting the goal, or not meeting the goal. Finally, indicate the progress made for each goal and next steps that have been identified.
