REVISED:

912. RELATIONS WITH EDUCATIONAL INSTITUTIONS

1. Authority

The school in which students are in attendance has the responsibility and authority for them. In order for those students to receive maximum benefit from their program of studies, articulation between the career and technical school and the participating school districts is essential.

It is the policy of the Joint Operating Committee that lines of communication be maintained with institutions that provide programs, training or services available to students and with participating districts whose resident students are enrolled in the School's programs.

2. Delegation of Responsibility

Maintaining cordial and constructive relationships with other educational institutions shall be the responsibility of the Administrative Director or designees.
