Note: The Counseling Office highly recommends students take at least 6 courses per semester (7 course maximum). The first thing that colleges evaluate when looking at a student's transcript is academic opportunities available to the students and the rigor of courses taken. We offer a variety of courses and educational opportunities to our students and we want them to feel empowered to take advantage of those that best suit them. Students taking less than 6 courses per semester should remember that to maintain athletic eligibility, one must be continuously in good standing in 5 courses. Incompletes count as F's for eligibility. Flex courses do not count in your total courses for eligibility.

Please sign this document as approval of the courses selected. I have read the information contained in this form.
