

About Englewood Schools

Englewood is a small urban community approximately 6.5 square miles in size located near the geographical center of the Denver, Colorado metropolitan area. In our new state-of-the-art facilities, we offer award-winning programming to 2,500 students. We have one early childhood center, four elementary schools, two middle schools and two high schools. Each school is unique yet shares the friendly community feel that is prevalent throughout our city. With access to outstanding programs and over 500 caring staff members, Englewood offers big opportunities in a small setting for our students.
