

Preschool Parents:

Thank you for your interest in our preschool program. We offer a continuum of services including a special education classroom, an integrated classroom and a general education classroom. Each classroom has a combination of peer models and students with a disability. Please see the following steps in order to begin the preschool process.

- 1). Your first step will be to complete the preschool application. This allows us to put you on the list. The applications are time stamped so please complete the application as soon as possible to ensure a spot for next school year.
- 2). Once you have your application completed, you will be called to schedule a preschool screening. Our first 2 screenings will be held on March 24 and 31st. This will take approximately 15 minutes.
- 3). After screening you will be instructed with the next steps to register your student for preschool.
- 4). At registration you **MUST** have the physical form, the dental form and the immunization forms completed and given to the registration department. If you do not have this documentation, your child cannot be registered until we receive these documents.
- 5). If you are opting out of providing your income verification, you must have this form signed and also given to the registration department.

If you have any questions during this process, please contact Michelle McJessy-Director of Student Services at 740-966-3277.
