

Course Bulletin 2023-2024

Mission Statement

At Our Lady of Good Counsel, a Catholic high school sponsored by the Xaverian Brothers, we inspire our students to excel, serve, and love.

Statement of Beliefs

Our Lady of Good Counsel High School believes:

- 1. Each person is uniquely created by God and possesses special abilities and interests that must be recognized, respected, and developed.*
- 2. It is the school's responsibility to provide an opportunity to develop in each student a personal relationship with God and the Church, an understanding of Catholic religious tradition and doctrine, an active participation in the Community of Faith, and an understanding and appreciation of the Xaverian values of humility, trust, zeal, compassion, and simplicity.*
- 3. The education of all students should be challenging and goal oriented in an inclusive educational community that promotes academic success, academic integrity, and physical and psychological health.*
- 4. Lifelong learning is fundamental for constructive and responsible participation in a diverse and changing society.*
- 5. It is important for the school community to reach out and support the larger community in which it resides.*
- 6. Members of the community should, according to the fundamental principles of Theodore Ryken, "fall in love with the service of God" by providing for the poor and marginalized.*

Graduate Profile

Upon completion of a rigorous education rooted in the principles and ideals of the Catholic Church and the Xaverian Brothers, the Good Counsel graduate will:

- Grow in personal faith and wisdom.*
- Be prepared for higher education and understand the importance of life-long learning.*
- Embody the Xaverian values of humility, trust, zeal, compassion, and simplicity.*
- Continue the Xaverian commitment to serve the poor and marginalized, promote human dignity, and pursue justice and peace.*
- Respect the diversity and uniqueness of others.*
- Seek solutions to life's challenges.*

Criteria for Admission:

Our Lady of Good Counsel looks at the whole student for admission. The student must have completed the Good Counsel Application. The student must have a demonstrated ability to be academically successful in a college preparatory curriculum. The school considers a candidate's 7th and 8th grade academic records, scores on standardized testing, and recommendations. Catholic elementary school students are recommended by their principal. Students from non-Catholic schools must have two letters of recommendation from their current teachers.

**Our Lady of Good Counsel High School
General Graduation Requirements 2023-2024**

Department	Credits Required	Notes/Exceptions
Religion	4	*select rising seniors may take summer service learning to exempt religion (invitation only)
English	4	
World Language	3 (of same language)	*Ryken students may take LCC followed by 2 years of Ryken Spanish
Math	4	
Science	3	*Must take Biology, Chemistry, and Physics *STEM students can opt for only 2 years of science beyond STEM *IB Students are exempt from Physics
Social Studies	3	*Must take World History and US History
Fine Art	1	
PE	1.5	*Only 1.0 credit required if student participates in a full season sport during 10 th or 11 th grade. *Must have 0.5 credit of health. GC Fitness and Health covers the health credit.
Computer Studies	1	

*Students must take a minimum of 7 credits per year and a minimum of 28 credits for graduation. Seniors enrolled in 3 or more AP/IB level classes can enroll in 6 credits if they will still meet the 28 credit graduation requirement.

Religion

1010 - Freshman Religion/R

1.00 Credit

The study and practice of religion is introduced by learning the ideas upon which Roman Catholicism is based through a general knowledge and appreciation of the Sacred Scriptures. Through their study of the Bible, students will encounter the living Word of God, Jesus Christ. In the course, they will learn about the Bible, authored by God through Inspiration, and its value to people throughout the world. They will learn how to read the Bible, study the "theology of the human person", and study the liturgy as the main ritual of Roman Catholicism. Placement Considerations:

- *Ryken Program Director approval*

1011 - Freshman Religion

1.00 Credit

The study and practice of religion is introduced by learning the ideas upon which Roman Catholicism is based through a general knowledge and appreciation of the Sacred Scriptures. Through their study of the Bible, students will encounter the living Word of God, Jesus Christ. In the course, they will learn about the Bible, authored by God through Inspiration, and its value to people throughout the world. They will learn how to read the Bible, study the "theology of the human person", and study the liturgy as the main ritual of Roman Catholicism. Placement Considerations:

- *Standard 9th grade course of study*

1012 - H. Pre-AP/IB Freshman Religion

1.00 Credit

The study and practice of religion is introduced by learning the ideas upon which Roman Catholicism is based through a general knowledge and appreciation of the Sacred Scriptures. Through their study of the Bible, students will encounter the living Word of God, Jesus Christ. In the course, they will learn about the Bible, authored by God through Inspiration, and its value to people throughout the world. They will learn how to read the Bible, study the "theology of the human person", and study the liturgy as the main ritual of Roman Catholicism. Honors students will be asked to demonstrate reading comprehension, writing skills, and organizational abilities appropriate for advanced study. Placement Considerations:

- *Advanced 9th grade course of study*
- *Studies Office and Religion department placement*

1020 - Sophomore Religion/R

1.00 Credit

This course introduces students to the concept and belief that Jesus of Nazareth is the Christ of faith. Students are immersed in the world of the New Testament to discover how the Gospels and Epistles form the core of Christian life. Students will examine the identity of the Church, and will study a variety of sources investigating the way in which the Church interacts with society, both historically and in modern times. Placement Considerations:

- *Ryken Program Director approval*

1021 - Sophomore Religion

1.00 Credit

This course introduces students to the concept and belief that Jesus of Nazareth is the Christ of faith. Students are immersed in the world of the New Testament to discover how the Gospels and Epistles form the core of Christian life. Students will examine the identity of the Church, and will study a variety of sources investigating the way in which the Church interacts with society, both historically and in modern times. Placement Considerations:

- *Standard 10th grade course of study*

1022 - H.Pre-AP/IB Sophomore Religion

1.00 Credit

This course introduces students to the concept and belief that Jesus of Nazareth is the Christ of faith. Students are immersed in the world of the New Testament to discover how the Gospels and Epistles form the core of Christian life. Students will examine the identity of the Church, and will study a variety of sources investigating the way in which the Church interacts with society, both historically and in modern times. Honors students will be asked to demonstrate reading comprehension, writing skills, and organizational abilities appropriate for advanced study and use of primary sources in lieu of a textbook.

Placement Considerations:

- *Advanced 10th grade course of study*
- *Religion department approval*

1031 - Junior Religion

1.00 Credit

This course defines religion as a distinctly human experience that has specific characteristics. Students will study the occurrence of revelation and faith responses within different cultures. Hinduism, Buddhism, Taoism, Confucianism, Judaism, and Islam are studied in the spirit of inter-religious dialogue. Christianity, with a special emphasis on Sacraments, completes this study of major world religions. Placement Considerations:

- *Standard 11th grade course of study*

1034 - IB World Religions I

1.00 Credit

This course explores the basic characteristics of religion across traditions and cultures. Placing each tradition in dialogue with Catholic Christianity, students explore religious ritual and practice, historical perspectives, scriptural narratives, spirituality, communal organization, and central concepts of humanity and divinity. The course entails intensive independent work, including homework, reading, writing, and vocabulary assignments. Students will be asked to demonstrate reading comprehension, writing skills, and organizational abilities appropriate for advanced study and use of primary sources in lieu of a textbook. Placement Considerations:

- *Advanced 11th grade course of study*
- *Religion department approval*

1044 - IB World Religions II

1.00 Credit

This course builds upon the concepts explored in Part I. Students will explore two religious traditions in depth with a central focus on the basic principles governing contemporary religious belief and ethical practice. Five religious traditions will be reviewed in preparation for the IB exam. Students must sit for the IB exam or complete a course based final exam. Placement Considerations:

- *Successful completion of IB World Religions I*
- *Religion department approval*

1101 - Catholic Social Teaching

0.50 Credit

This course is an application of Catholicism's social teaching regarding specific issues encountered in the world. Students focus on Christian morality in the context of the human person as an individual moral agent living according to the Gospel. Treating issues of human relationships, the peaceful transformation of human attitudes and social justice, the course informs students' minds, challenges their attitudes, and attempts to provide them with a framework for encountering the world beyond high school in a faith-filled, meaningful way. Placement Considerations:

- *Required for standard 12th grade course of study*

1111 - Bioethics

0.50 Credit

This course will introduce the students to major bioethical issues in our world today. As technology continues to change our world, students will learn how this technology has impacted medical research and practice on both human & non-human life. Through a case-study approach, students will consider the central topics. Students will gain a deeper understanding of ethical models used to grapple with the question "what ought I do" when faced with technologies that can change the very nature of the human person when and if these technologies are made available in the near and not-to-distant future. At the end of the semester students will look at current legislation and legal issues that surround the use of various biotechnology in the USA (and world). Placement Considerations:

- ***One of three senior semester options to be taken along with Catholic Social Teaching***

1121 - Prayer, Meditation, and You

0.50 Credit

As a culmination of four years of religious study and in keeping with the Xaverian charism of developing a personal "contemplative stance in the world" seniors will develop skills and practices to draw upon as they prepare to leave OLGCHS. Utilizing the wisdom from the Catholic mystics through modern contemplatives, students will learn the value of "unplugging" and deepening their connection to God. By delving more deeply into the contemplative traditions and their diverse spiritualities, students will discover ways to develop a personal practice of prayer and build resilience amid the many challenges of their lives. In this course, students will explore prayer and meditation through a combination of readings, guided meditations, and reflection. By the end of the course, students will have identified and developed a personal practice of prayer, meditation, and reflection in order to live more fully in their life. Placement Considerations:

- ***One of three senior semester options to be taken along with Catholic Social Teaching***

1141 - God and the Problem of Evil

0.50 Credit

The purpose of this course is to analyze the problem of evil, particularly as it relates to theodicy. Is the traditional affirmation of God as omnipotent, omniscient, and benevolent, compatible with a world humans experience as full of evil, injustice, and unmerited suffering? Through examining major theological and philosophical figures, students will grapple with the problem of evil. Students will consider the various approaches of these thinkers from a range of biblical, theological, and philosophical perspectives. Placement Considerations:

- ***One of the three senior semester options to be taken along with Catholic Social Teaching***

English

2010 - English 9/R

1.00 Credit

Freshmen will actively participate in this class by writing about a wide variety of subjects that are presented in the different genres of fiction and non-fiction. Students will practice and refine their skills in the language arts by discussing and revising their compositions. As part of this process, students will interact with mentor texts that include both classic and contemporary literature. Placement Considerations:

- *Ryken Program Director approval*

2011 - English 9

1.00 Credit

The English 9 course at all levels is designed to introduce students to foundational principles of written and oral communication, the conceptual framework used to study literature at Good Counsel, and the types of assessments used to evaluate that study. Students will work towards mastery of sentence and paragraph structure as they develop the necessary skills to analyze language as both a utility and an art form. The works of literature studied encourage students to consider the methods by which authors reveal truths about the human experience. Each unit emphasizes the development of writing skills. Grammar and vocabulary study include preparation for the PSAT. Placement Considerations:

- *Standard 9th grade course of study*

2012 - H. Pre-AP/IB English 9

1.00 Credit

This course presents a selection of major authors and literary selections from a range of genres and cultures. Dramas, poetry, and novels are studied. Additional readings supplement the literature program. Multiple writing projects, vocabulary and grammar study, and preparation for the PSAT are included in the syllabus. In addition, each student must complete a research project related to the works studied. The honors sections require additional readings and additional writing units, with an emphasis on more independent work and higher thinking skills in class exercises and written assignments. Placement Considerations:

- *Advanced 9th grade course of study*
- *Studies Office and English department placement*

2020 - English 10/R

1.00 Credit

This course focuses on the development of critical reading skills using selections from American literature. Basic writing skills are also emphasized, stressing the development of unified paragraphs and cohesive essays. The computer writing lab is used to develop writing skills. Each student must complete a research project using the media center resources. Vocabulary development includes preparation for the PSAT. Supplementary readings are required. Placement Considerations:

- *Ryken Program Director approval*

2021 - English 10

1.00 Credit

The English 10 course expands on and develops the basic principles established in English 9. Students will develop compositions with higher levels of complexity in language, structure, and analysis. The works of literature studied offer students the opportunity to study how authors construct patterns and make connections to the world. Vocabulary and grammar study include preparation for the PSAT. Placement Considerations:

- *Standard 10th grade course of study*

2022 - H. Pre-AP/IB English 10

1.00 Credit

This course focuses on the major authors, forms, and movements in American literature. Each unit emphasizes the development of writing skills. In addition, each student must formulate a research topic, gather notes, and develop a paper based on the research. Strong emphasis will be given to usage and development of vocabulary and to preparation for the PSAT. The honors sections require additional readings and writing units, along with an emphasis on more independent work and higher-thinking skills in class exercises and written assignments. Placement Considerations:

- *Advanced 10th grade course of study*
- *English department approval*

2030 - English 11/R

1.00 Credit

In this course, students will engage with the fundamental question of what makes a literary work relevant on both personal and societal levels. Engagement with this question depends particularly on exploring the points of connection between individuals and their societies. In order to explore these concepts fully, students will examine various genres of literature, such as short fiction, poetry, the novel, drama, and non-fiction, concentrating on careful analysis of forms, styles, and thematic ideas. In addition to providing alternate methodologies and assignments, Ryken English 11 classes are particularly geared towards preparing students to transition into College Prep English 12. Vocabulary development includes preparation for the PSAT/SAT. Placement Considerations:

- *Ryken Program Director approval*

2031 - English 11

1.00 Credit

In this course, students will engage with the fundamental question of what makes a literary work relevant on both personal and societal levels. Engagement with this question depends particularly on exploring the points of connection between individuals and their societies. In order to explore these concepts fully, students will examine various genres of literature, such as short fiction, poetry, the novel, drama, and non-fiction, concentrating on careful analysis of forms, styles, and thematic ideas. Vocabulary development includes preparation for the PSAT/SAT. Placement Considerations:

- *Standard 11th grade course of study*

2036 - AP/IB World Literature & Composition I (HL)

1.00 Credit

This course is the first in a two-year sequence designed based on the central tenets of both the International Baccalaureate (IB) English Language A: Literature and Advanced Placement (AP) English Literature and Composition courses. Students will focus on developing mastery of critical thinking, reading, and writing through an intensive study of literature—both translated works and those originally written in English. Students will learn to read and write on the college level by examining how authorial choices shape literary meaning in a variety of texts. This course is the first half of a two-year-long preparation for the AP English Literature and Composition exam and the IB English Language A: Literature exam administered in May of the students' senior year; it also results in the completion of the first major assessment required for the IB Diploma (Internal Assessment—Individual Oral). Placement considerations: Placement Considerations:

- *Open to 11th grade students*
- *English department approval*

2041 - English 12

1.00 Credit

Students will continue to strengthen their critical thinking and analytical skills by examining different constructs of freedom in literature. Students will read a variety of literary genres, reflecting a diverse range of cultural and historical perspectives. Additionally, students will continue to develop and hone their communication skills through verbal and written expression. Placement Considerations:

- *Standard 12th grade course of study*

2043 - AP Language

1.00 Credit

The AP English Language and Composition course aligns with an introductory, college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate choices in grammar, structure, tone, and content. Additionally, students study non-fiction texts, including images, from a variety of disciplines and historical periods. Students are expected to take the AP English Language and Composition exam in May (examination fee required). Placement Considerations:

- ***Open to 12th grade students***
- ***English department approval***

2046 - AP/IB World Literature & Composition II (HL)

1.00 Credit

This course completes the two-year sequence of college-level English work in the International Baccalaureate Program and prepares students for the AP Literature and Composition exam in the spring. Students will engage in a detailed study of the novel, poetry, and drama, exploring the means by which authors convey truths about the human experience. Students will work to master the skills involved in critical analysis, logical organization, and precise writing. Placement considerations: Placement Considerations:

- ***Open to 12th grade students***
- ***English department approval***

2054 - IB Language & Literature SL

1.00 Credit

The IB Language and Literature course introduces students to the critical study and interpretation of language through a wide range of text types. Students will explore and reflect on the ways in which language is used in not only traditional literary texts (prose, poetry, nonfiction, drama) but also in non-literary texts (advertisements, blogs, film/television, websites, photographs, podcasts, and social media). With this dual focus, students learn about the complex and dynamic nature of language and how form, structure and style are used to achieve a particular effect. Additionally, students consider how historical, cultural, and social contexts influence how texts are written and received. Most importantly, this course requires students to develop and strengthen their verbal and written communication skills in preparation for the IB Language and Literature internal and external assessments. Placement Considerations:

- ***Open to 11th grade students***
- ***English department approval***

World Languages

3010 - Language Communication & Cultures

1.00 Credit

Students who are not in the Ryken Program may elect this course, with the understanding that they will need to complete three additional credits in one language to satisfy Good Counsel's graduation requirement. This course introduces students to several foreign languages and areas of the world. Through examination of the many manners in which people communicate and act worldwide, students will gain a greater appreciation of the dynamics involving Latin, Greek, French, Spanish, German, Italian, Hebrew, Esperanto, and Asian languages. Students will increase their knowledge of the structures and richness of their own English language, and learn how to study a foreign language in general. Oral reports, web-based resources, guest speakers, films, field trips to local restaurants, and small introductory units to sounds and basic vocabulary expressions will allow students in the Ryken Program to complete one level of Good Counsel's foreign language requirement before choosing a two-year sequence in French, Latin, or Spanish. Placement Considerations:

- ***Ryken Program Director approval***
- ***Open to students in all grade levels***
- ***Does not fulfill the language requirement for non-Ryken Program Students***

3110 - Spanish I/R

1.00 Credit

In the Spanish I (Ryken) class, students begin to learn to communicate orally and in written form about daily life. Emphasis is on vocabulary development, simple grammatical structures, and the basic culture of the people. Students are encouraged to use the language beyond the school setting and stay informed of current events in countries where the target language is spoken. Placement Considerations:

- ***Ryken Program Director approval***

3111 - Spanish I

1.00 Credit

This freshman course introduces the foundations of language learning and continues to build upon prior exposure to the target language. Placement Considerations:

- ***Standard introductory level course of study***

3112 - H. Pre-AP/IB Spanish I

1.00 Credit

This accelerated freshman course introduces the foundations of the language and continues to build upon prior exposure to language learning. Honors students are asked to demonstrate reading comprehension, writing, and organizational skills appropriate for advanced study. Placement Considerations:

- ***World Languages department approval***
- ***Placement Test required***

3120 - Spanish II/R

1.00 Credit

This second-year introductory course is designed to help students continue with their development of skills necessary to communicate orally and in writing, and to understand the written and spoken language that they began in Spanish I Ryken. The emphasis is on vocabulary development and the acquisition of additional simple grammatical structures. Students communicate about relevant, real-world topics that affect them on a daily basis in common settings and theme areas such as family, home, and community. The students will also explore various Hispanic cultures from different perspectives such as geography, history, cultural traditions, art, music, and daily life. Placement Considerations:

- ***Ryken Program Director approval***

3121 - Spanish II

1.00 Credit

This course builds upon the foundations of Spanish I. Students will also learn new grammar concepts and vocabulary related to various themes. In this course, students will be required to apply their knowledge of vocabulary and grammatical structures to improve listening and reading comprehension skills and to communicate in both oral and written formats. Placement Considerations:

- ***Successful completion of Spanish I***

3122 - H. Pre-AP/IB Spanish II

1.00 Credit

This accelerated course builds upon the foundations of H. Pre-AP/IB Spanish I and expands upon the grammar learned in the preceding course. In addition, this course focuses on building the students' knowledge of vocabulary related to various themes. Students will be required to apply their knowledge of vocabulary and grammatical forms to improve their listening and reading comprehension skills, and to communicate in both oral and written formats. Special emphasis is placed on communicating in the target language in writing and speaking. Honors students are asked to demonstrate reading comprehension, writing, and organizational skills appropriate for advanced study. Placement Considerations:

- ***Successful completion of H. Pre-AP/IB Spanish I***
- ***World Languages department approval***

3131 - Spanish III

1.00 Credit

This course builds upon the structures learned in Spanish II. Emphasis is on oral evaluation, written composition, reading and listening comprehension. Placement Considerations:

- ***Successful completion of Spanish II***

3134 - IB Spanish III

1.00 Credit

This accelerated course builds upon the structures learned in H. Pre-AP/IB Spanish II and is conducted almost exclusively in the target language. Emphasis is on oral evaluation, written composition, reading and listening comprehension. The students will engage with more complex verb constructions. This course is the culmination of the two-year requirement for IB Spanish Ab Initio SL and the first year of the two-year requirement for IB Spanish B SL. Eligible students may sit for the IB Spanish Ab Initio exam (examination fee required). Placement Considerations:

- ***Successful completion of H. Pre-AP/IB Spanish II***
- ***World Languages department approval***

3141 - Spanish IV

1.00 Credit

This course builds upon the structures learned in Spanish III and is conducted almost exclusively in the target language. Emphasis is on oral evaluation, written composition, reading and listening comprehension. Placement Considerations:

- ***Successful completion of Spanish III***

3144 - IB Spanish IV

1.00 Credit

This advanced course is for highly capable students and IB Candidates, and is taught predominantly in Spanish. Students read, analyze, and discuss topics of culture and the IB themes of identity, experience, social organizations, human ingenuity, and sharing the planet through various text types and media. Students will examine a wide range of grammatical structures and idioms. Evaluation will include oral reports, written compositions and exams, and grammatical exercises. This course fulfills the year-two requirement for IB Spanish B SL. Students must sit for the IB Exam or take a course-based final exam (examination fee required). Placement Considerations:

- ***Successful completion of IB Spanish III***
- ***World Languages department approval***

3153 - AP Spanish V

1.00 Credit

In preparation for the Advanced Placement Spanish Language and Culture exam, students will experience exercises in advanced structures, vocabulary, speaking and writing, as well as engage with and create authentic literary and media texts. In May, students will take the AP exam or a course-based final exam (examination fee required). Placement Considerations:

- ***Successful completion of IB Spanish IV***
- ***World Languages department approval***

3196 - IB Advanced Spanish Seminar

1.00 Credit

This course focuses on themes of identity, experience, aesthetics, human ingenuity, social organizations, and the environment. Studies include literary and non-literary texts from a variety of Spanish-speaking countries, including film, visual art, and nonfiction works on diverse topics. Students will process, analyze, and evaluate information from written and oral sources through their own writings, presentations, and projects. In May, students are expected to take the IB Spanish HL or SL exam or a course-based final exam (examination fee required). Placement Considerations:

- ***Successful completion of IB Spanish IV or above***
- ***World Languages department approval***

3211 - French I

1.00 Credit

This freshman course introduces the foundations of language learning and continues to build upon any prior exposure to the target language. Placement Considerations:

- ***Standard introductory level course of study***

3212 - H. Pre-AP/IB French I

1.00 Credit

This accelerated freshman course introduces the foundations of the language and continues to build upon prior exposure to language learning. Honors students are asked to demonstrate reading comprehension, writing and organizational skills appropriate for advanced study. Placement Considerations:

- ***World Languages department approval***
- ***Placement Test required***

3221 - French II

1.00 Credit

This course builds upon the foundations of French I. Students will also learn new grammar concepts and vocabulary related to various themes. In this course, students will be required to apply their knowledge of vocabulary and grammatical structures to improve listening and reading comprehension skills and to communicate in both oral and written formats. Placement Considerations:

- ***Successful completion of French I***

3222 - H. Pre-AP/IB French II

1.00 Credit

This accelerated course builds upon the foundations of H. Pre-AP/IB French I and expands upon the grammar learned in the preceding course. In addition, this course focuses on building the students' knowledge of vocabulary related to various themes. Students will be required to apply their knowledge of vocabulary and grammatical forms to improve their listening and reading comprehension skills, and to communicate in both oral and written formats. Special emphasis is placed on communicating in the target language in writing and speaking. Honors students are asked to demonstrate reading comprehension, writing, and organizational skills appropriate for advanced study. Placement Considerations:

- ***Successful Completion of H. Pre-AP/IB French I***
- ***World Languages department approval***

3231 - French III

1.00 Credit

This course builds upon the structures learned in French II. Emphasis is on oral evaluation, written composition, reading and listening comprehension. Placement Considerations:

- ***Successful completion of French II***

3234 - IB French III

1.00 Credit

This accelerated course builds upon the structures learned in H. Pre-AP/IB French II and is conducted almost exclusively in the target language. Emphasis is on oral evaluation, written composition, reading, and listening comprehension. The students will engage with more complex verb constructions. This course is the culmination of the two-year requirement for IB French Ab Initio SL and the first year of the two-year requirement for IB French B SL. Eligible students may sit for the IB French Ab Initio exam (examination fee required). Placement Considerations:

- ***Successful completion of H. Pre-AP/IB French II***
- ***World Languages department approval***

3244 - IB French IV

1.00 Credit

This advanced course is for highly capable students and IB Candidates, and is taught predominantly in French. Students read, analyze, and discuss topics of culture and the IB themes of identity, experience, social organizations, human ingenuity, and sharing the planet through various text types and media. Students will examine a wide range of grammatical structures and idioms. Evaluation will include oral reports, written compositions and exams, and grammatical exercises. This course fulfills the year-two requirement for IB French B SL. Students must sit for the IB Exam or take a course-based final exam (examination fee required). Placement Considerations:

- ***Successful completion of IB French III***
- ***World Languages department approval***

3296 - IB Advanced French Seminar

1.00 Credit

This course focuses on themes of identity, experience, aesthetics, human ingenuity, social organizations, and the environment. Studies include literary and non-literary texts from a variety of French-speaking countries, including film, visual art, and nonfiction works on diverse topics. Students will process, analyze, and evaluate information from written and oral sources through their own writings, presentations, and projects. In May, students must take the IB French HL or SL exam, the AP French Language and Culture exam, or a course-based final exam (examination fee required). Placement Considerations:

- ***Successful completion of IB French IV or above***
- ***World Languages department approval***

3311 - Latin I

1.00 Credit

Students will develop a working Latin vocabulary. They will learn the forms and functions of the Latin cases for nouns of all five declensions. They will understand how adjectives agree with the nouns they modify. They will learn the forms and uses of personal and demonstrative pronouns. They will recognize, form, and translate regular verbs of all four conjugations in all six tenses of the indicative mood, active voice; so too, several irregular verbs. They will recognize, form, and translate verbs in the imperative mood as well. Finally, students will read and translate simple passages of Latin prose and develop some sense of Roman history and culture. Placement Considerations:

- ***Standard introductory level course of study***

3321 - Latin II

1.00 Credit

Students will continue to develop a working Latin vocabulary. They will understand the comparison of adjectives and adverbs. They will learn the forms and uses of relative, interrogative, and indefinite pronouns and adjectives. They will understand the concepts of verbal mood and voice and will recognize, form, and translate verbs of all four conjugations, including deponents, in all six tenses of the indicative and subjunctive mood, active and passive voice. They will also recognize, form, and translate the irregular verbs in the indicative and subjunctive mood. Students will learn to recognize and translate the more common uses of the subjunctive mood. They will understand the forms and functions of participles, including their use in the ablative absolute. They will identify and translate indirect statement. We will read stories, in Latin, about mythological characters such as Hercules, Jason and the Argonauts, and Ulysses. Finally, students will continue to develop their understanding of Roman history and culture. Placement Considerations:

- ***Successful completion of Latin I***

3322 - Honors Latin II

1.00 Credit

In addition to the objectives of the standard Latin 2 course, students will understand and translate more uses of the subjunctive in subordinate clauses. They will also encounter and understand an expanded array of constructions of the cases. In addition to mythological stories, we will also read selections, in Latin, from Eutropius's History, Cornelius Nepos's Biographies, or Julius Caesar's Gallic War. Students should take this course if they are interested in studying Latin in the IB program or taking AP Latin in their junior or senior year. Placement Considerations:

- ***World Languages department approval***
- ***Placement Test required***

3331 - Latin III

1.00 Credit

Students will develop and expand their working Latin vocabulary. They will complete their study of grammar and syntax, including examination of most uses of the subjunctive in subordinate clauses and understanding of periphrastic constructions. Mostly, students will exercise and improve their reading and translation skills. We will read stories, in Latin, about mythological characters. We will also read, in Latin, selections from Eutropius's History, Cornelius Nepos's Biographies, Catullus's poems, or Ovid's Metamorphoses. Finally, students will expand their understanding of Roman history and culture. Placement Considerations:

- ***Successful completion of Latin II***

3336 - AP/IB SL Latin III

1.00 Credit

These courses prepare students for the AP exam in Latin and the IB external assessments in Latin SL, to be taken at the end of the AP/IB SL Latin IV courses. Guided by the AP and IB curricula, we will read and analyze extensive selections, in Latin, from authors such as Julius Caesar, Sallust, Cicero, Vergil, Propertius, Tibullus, Ovid, Livy, Pliny the Younger, Juvenal, Martial, and Jerome. Students taking the IB course will research a topic of their choice in Roman history, literature, or culture and complete the internal assessment in Latin SL by the end of the year. Students in both the AP and IB courses will further develop their understanding of Roman history and culture. Placement Considerations:

- ***Successful completion of Honors Latin II***
- ***World Languages department approval***

3346 - AP/IB SL Latin IV

1.00 Credit

These courses complete the AP/IB SL sequence in Latin. Students taking the AP course will take the AP exam in Latin at the end of the year; students taking the IB course will take the external assessments in Latin SL at the end of the year. We will continue to read and analyze extensive selections, in Latin, from authors on the AP and IB reading lists. Students in both courses will read and analyze significant passages from Vergil's Aeneid. Portions of the Aeneid that we don't read in Latin we will read in English. We will explore what this epic tells us about Romans' understanding of their role as inheritors of the Greek tradition and civilizers of the uncivilized at the beginning of the long pax Romana. Students are expected to take the AP Latin Exam, the IB SL Exam, or take a course-based final exam (examination fee required). Placement Considerations:

- ***Successful completion of AP/IB Latin III***
- ***World Languages department approval***

13034 - IB Language B HL/SL Year 1

1.00 Credit

IB English B course focuses on language acquisition and the development of language skills. This course focuses on developing, enhancing, and practicing English skills. These language skills are developed through the study and use of a variety of written and spoken materials. These materials are chosen to enable students to increase language skills, develop self-awareness, value multicultural perspectives, and foster international mindedness. Placement Considerations:

- ***Open to International Students only with teacher approval***

13044 - IB Language B HL/SL Year 2

1.00 Credit

IB English B course continues to focus on language acquisition and the development of language skills. This course focuses on developing, enhancing, and practicing English skills. These language skills are developed through the study and use of a variety of written and spoken materials. These materials are chosen to enable students to increase language skills, develop self-awareness, value multicultural perspectives, and foster international mindedness and precise writing. Diploma Candidates in the IB Program will complete all required assessments. Students must sit for the IB Exam take a course based final exam. Placement Considerations:

- ***Open to International Students only with teacher approval***

Mathematics

4010 - Algebra I/R

1.50 Credit

This freshman course covers properties of real numbers, evaluating expressions with real numbers and variables, linear equations, simplifying and factoring polynomials, quadratic functions, data collection and probability, rules for exponents, simplifying rational and radical expressions, and solving simple inequalities. Mandatory enrollment in Summer Ryken math course included in 1.50 course credit value. Placement Considerations:

- ***Ryken Program Director approval***
- ***Course meets on BOTH Even and Odd Days (2nd day mix of small group instruction/supervised study hall)***
- ***Completion of OLGCHS's Ryken Basic Math Course (summer preceding enrollment)***

4011 - Algebra I

1.00 Credit

This freshman course covers evaluating expressions, data analysis and probability, properties of the real number system, operations with real numbers and variables, linear equations and inequalities, operations with polynomials, factoring polynomials, simplifying rational algebraic expressions, quadratic functions, and evaluating radical expressions. Problem-solving is emphasized throughout the course. Students in this course will be considered for the honors math program as sophomores. Placement Considerations:

- ***Standard 9th grade course of study***

4012 - H. Pre-AP/IB Algebra I

1.00 Credit

This is a rigorous Algebra I course designed for students pursuing the honors math program. Students study probability and statistics, linear equations and inequalities, absolute value functions, polynomial operations, quadratic functions, and operations with exponents and radicals. Emphasis is placed on applying algebraic skills to real-life problems and the development of problem solving and critical thinking skills. Placement Considerations:

- ***Math department approval***

4020 - Geometry/R

1.00 Credit

This course covers angle and line relationships, parallel lines and planes, congruent and similar polygons, right triangles, right triangle trigonometry, circles, interior and exterior angles in polygons, quadrilaterals, perimeter and area of plane figures, and area and volume of solids. Students demonstrate their knowledge through algebraic application of theorems and postulates. Students receive preparation for the PSAT, SAT and ACT exams. Placement Considerations:

- ***Ryken Program Director approval***

4021 - Geometry

1.00 Credit

Over the course of the year, students study angle and line relationships, parallel lines and planes, congruent and similar polygons, right triangles, right triangle trigonometry, circles, interior and exterior angles in polygons, quadrilaterals, perimeter and area of plane figures, and area and volume of solids. Students demonstrate mastery through algebraic application of theorems and postulates. Students receive preparation for the PSAT, SAT and ACT exams. Placement Considerations:

- ***Successful completion of Algebra I***

4022 - H. Pre-AP/IB Geometry

1.00 Credit

This is a rigorous course designed for students with superior mathematical ability. This course covers angle and line relationships, parallel lines and planes, congruent and similar polygons, classification of quadrilaterals, right triangles, right triangle trigonometry, analytic trigonometry, circles, perimeter and area of plane figures, area and volume of solids, logic, and sets. Students master these geometric concepts through extensive proof methods, algebraic applications, and geometric constructions. Students receive some preparation for the PSAT, SAT and ACT exams. Placement Considerations:

- ***Math department approval***

4030 - Algebra II/R

1.00 Credit

This course expands upon the topics studied in Algebra I. Function terminology and notation, along with polynomial functions, are covered with an emphasis on linear and quadratic functions, specifically. Students are introduced to exponential, logarithmic, rational, and radical functions, as well as both sequences and series. Placement Considerations:

- ***Ryken Program Director approval***

4031 - Algebra II

1.00 Credit

This course covers complex numbers and a variety of relations and functions to include quadratic, polynomial, exponential, logarithmic, rational, and radical functions. Students build upon and expand the knowledge gained in Algebra I. Problem solving and graphing are emphasized. Students also receive some preparation for the PSAT, SAT and ACT exams. Placement Considerations:

- ***Successful completion of Geometry***

4032 - H. Pre-AP/IB Algebra II

1.00 Credit

Students continue to approach mathematical concepts from a more theoretical perspective than in non-honors courses. This course covers relations and functions, solving equations and inequalities, quadratic functions, exponential and logarithmic functions, complex numbers, rational and irrational functions, polynomial functions, and matrices. Problem-solving and graphing processes are emphasized. Students receive preparation for the SAT and ACT exams. Placement Considerations:

- ***Math department approval***

4041 - Precalculus

1.00 Credit

This course introduces students to the topics and skills necessary for both their initial and ongoing studies of mathematics in college. This course focuses on the elements of polynomial, exponential, logarithmic, and trigonometric functions from algebraic and geometric perspectives. The course also exposes students to the initial concepts of probability. Placement Considerations:

- ***Successful completion of Algebra II***

4050 - Precalculus Concepts/R

1.00 Credit

This course is designed to introduce students to advanced concepts in precalculus, while reviewing concepts covered previously in the Ryken math track. The course includes probability and statistics, trigonometry, linear functions, quadratic functions and relations, exponents, rational functions, and polynomials. Placement Considerations:

- ***Ryken Program Director approval***

4063 - AP Calculus AB

1.00 Credit

This is a college-level course designed to prepare students to take the AP Calculus (AB level) examination in May. Students study limits of functions (including transcendental functions), continuity, the definition of the derivative, derivatives of functions, application of the derivative, the definite and indefinite integral, and applications of the integral. Since an emphasis will be placed on both algebraic and graphical analysis of functions, use of a graphing calculator is required. This is considered year one of the IB HL Math course. Placement Considerations:

- ***Math department approval***

4064 - IB Math SL

1.00 Credit

This course fulfills the requirements for IB Math Analysis and Approaches SL in the IB Diploma Program. It recognizes the need for analytical expertise in a world where innovation is increasingly dependent on a deep understanding of mathematics. This course includes topics that are both traditionally part of a pre-university mathematics course (for example, trigonometry and calculus) as well as topics that are amenable to investigation, conjecture and proof, for instance the study of statistics and probability. The course allows the use of technology, as fluency in relevant mathematical software and hand-held technology is important regardless of choice of course. However, Mathematics: Analysis and Approaches has a strong emphasis on the ability to construct, communicate and justify correct mathematical arguments. Students are required to sit for the IB Mathematics – Analysis and Approaches SL exam. Placement Considerations:

- ***Math department approval***

4073 - AP Calculus BC

1.00 Credit

This is a college-level course designed to prepare students to take the AP Calculus (BC level) examination in May. Topics covered include those from AP Calculus (AB) as well as polar coordinates, vectors, parametrically-defined functions, infinite series and elementary differential equations. Taylor polynomials and slope fields are also studied. This is a required portion of year two of the IB HL Math course. Placement Considerations:

- ***Math department approval***

4075 - IB Math HL

1.00 Credit

This course fulfills the requirements for IB Math Analysis and Approaches HL in the IB Diploma Program. It recognizes the need for analytical expertise in a world where innovation is increasingly dependent on a deep understanding of mathematics. The course includes topics that are both traditionally part of a pre-university mathematics course (for example, functions, trigonometry, calculus) as well as topics that are amenable to investigation, conjecture, and proof, for instance the study of sequences and series and proof by induction. The course allows the use of technology, as fluency in relevant mathematical software and hand-held technology is important regardless of choice of course. However, Analysis and Approaches has a strong emphasis in the ability to construct, communicate and justify correct mathematical arguments. This course requires a commitment to significant summer work (can be completed remotely). The school year portion of the course is taught in conjunction with AP Calculus BC. Students are welcome and encouraged to sit for the AP Calculus BC exam in addition to the required IB Math HL: Analysis and Approaches exam. Placement Considerations:

- ***Math department approval***

4101 - Financial Math

0.50 Credit

Students will examine a variety of financial topics including earning money, banking, credit and loans, housing, transportation, taxes, budgeting, investments and retirement, and travel and vacation cost calculation. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Does not fulfill the math requirement***

4103 - AP Statistics

1.00 Credit

This course is designed to offer a modern introduction to statistics that is equivalent to those introductory courses offered at the college level. Students explore patterns in data, analyze univariate and bivariate data, and produce models using probability theory and simulation. The principles of sampling and experimental design are essential elements of the course. Additional topics of study include probability distributions, random variables, normal and binomial distributions. These concepts underpin the use of observed and sampled data to perform statistical inference about a population at large. Students are expected to take the AP Statistics exam in May (examination fee required) or course based final exam. Placement Considerations:

- ***Math department approval***
- ***Must have specific department approval to fulfill the math requirement; recommended as a 2nd math course***

4111 - Introduction to Data Science

0.50 Credit

This course introduces students to data science, the use of data analytics to extract meaning and insight from the ever-growing volume of data that surrounds us. In the past decade, the principles of data science have grown beyond the fields of mathematics and computer science to almost every field imaginable. Data science courses at the collegiate level continue to expand with each passing year, and an introduction during the high school years offers many advantages. Students will see data science come to life through hands-on exercises using practical and real world examples. The course will rely upon the use of R Studio, one of the most popular data science platforms. The curriculum builds upon basic Algebra 1 mathematical skills and while it is helpful, no prior computer programming knowledge is required. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Does not fulfill the math requirement***

4133 - AP Precalculus

1.00 Credit

This course is designed to prepare students for their first course in analysis by developing procedural and symbolic fluency, assimilation of multiple representations, clear mathematical communication, and theoretical reasoning. Topics include polynomial, rational, exponential, logarithmic, trigonometric, and polar functions. Functions involving parameters, vectors, and matrices will also be included. Students are expected to take the AP Precalculus exam in May (examination fee required). Placement Considerations:

- ***Open to 10th and 11th grade students only***
- ***Math department approval***

Science

5010 - Biology/R

1.00 Credit

The Ryken Biology course begins with mastery of scientific investigation, where students learn how to analyze and evaluate experimental data. Major topics in the first semester involve studies of the cell, membrane transport, DNA structure, replication, and protein synthesis. The second semester shall include topics in cellular division, genetics, photosynthesis, cellular respiration, and chemistry for biology. This course will offer a hands-on approach to learning and involves a wide variety of laboratory experiences throughout the year. The unified goal of this course is for students to gain an understanding of current advances made in the field of biology, and to apply these concepts through their daily activities. Placement Considerations: Placement Considerations:

- *Ryken Program Director approval*

5011 - Biology

1.00 Credit

This course will begin by introducing students to the nature of scientific thinking and investigation. Further topics of study include: ecology, biochemistry, cell physiology, cellular energetics, cellular division, biodiversity, classification, and Human Anatomy and Physiology. Students will participate in a large variety of laboratory experiences and projects. Technology will be incorporated often to support learning. Current biological issues will be investigated and their implications on society will be discussed. The goal of this course is for students to gain an understanding of how biology plays a role in everyday life, in addition to all of the advances and current issues being discussed in the Biological sciences within and outside of the classroom. Placement Considerations:

- *Standard 9th grade course of study*

5012 - H. Pre-AP/IB Biology

1.00 Credit

This course is intended for incoming freshmen who are embarking on an honors-level, IB or AP course of study. It is designed to cover the IB SL Biology curriculum and supplemental units common to both IB Biology and AP Biology. Major topics include statistics, inorganic and organic chemistry, cellular/molecular biology, human physiology, biotechnology and cellular and molecular genetics. Extensive laboratory work with inquiry-based lab skills will be completed for each unit. Placement Considerations:

- *Advanced 9th grade course of study*
- *Studies Office and Science department placement*

5013 - AP Biology

1.00 Credit

The AP Biology curriculum is based upon major topics found in many entry-level collegiate biology programs, and covers the following topics: ecology, biochemistry, molecular genetics, classical genetics, evolution, population genetics, speciation, embryology, animal anatomy and physiology. This course also includes development of laboratory skills and lab experiences in all major content topics. Students will take the AP Biology exam in May (examination fee required) or sit for a course based final exam. Placement Considerations:

- *Science department approval*

5014 - IB Biology SL

1.00 Credit

The IB Standard Level (SL) Biology class is designed for students in the IB diploma program. IB diploma candidates taking this course for their SL science credit will take the IB SL Biology exam in May (examination fee required). IB diploma candidates can also take this as year 1 of IB HL Biology. This course will cover the IB SL curriculum covering topics including cellular and molecular biology, genetics, ecology, evolution, biodiversity, and human anatomy and physiology. A major component of this course includes the investigation of topics through inquiry-based labs with the expectation that lab reports are written in an AP/IB standardized format. Extensive lab work will lead to the skills necessary to complete an individualized research project. Students must sit for the IB Exam or take a course based final exam. Placement Considerations:

- ***Science department approval***

5015 - IB Biology HL

1.00 Credit

This course requires the successful completion of IB Biology SL as a junior. Topics are unique to the IB HL Biology curriculum and demand review and retention of the major concepts covered during the previous year in IB SL Biology. There is also an in-depth study of the major content areas including nucleic acids, cellular respiration, photosynthesis, plant biology, genetics, evolution, and human anatomy and physiology. Extensive lab work will be a topic of focus. Students must sit for the IB Exam or take a course based final exam. Placement Considerations:

- ***Successful completion of IB SL Biology***
- ***Science department approval***

5020 - Chemistry/R

1.00 Credit

This course provides an overview of the basic chemical concepts, atomic theory, acids and bases, periodic table, gas laws, stoichiometry, chemical reactions, and solutions. Lab experience is included. Placement Considerations:

- ***Ryken Program Director approval***

5021 - Chemistry

1.00 Credit

This course provides students with instruction on the basic concepts of chemistry and chemical problem-solving techniques. Topics include scientific measurement, experimental design, properties and changes of matter, atomic theory, electromagnetic radiation, the periodic table, chemical bonding, chemical reactions, the mole, and stoichiometry. Lab experience supplements the course, which emphasizes problem-solving techniques and the fundamental principles of chemistry. Placement Considerations: Placement Considerations:

- ***Standard 10th grade course of study***

5022 - H. Pre-AP/IB Chemistry

1.00 Credit

The Honors Pre-AP/IB Chemistry course examines the fundamentals of chemistry. It is intended to further prepare students for an IB or AP program of study in the sciences. Major topics include experimental design, measurement and data-processing, atomic structure, periodicity, chemical bonding, chemical reactions and equations, organic chemistry, and quantitative chemistry, including stoichiometry, thermochemistry, energetics and states of matter, solutions, kinetics, equilibrium, and acids and bases. A major component of this course includes the investigation of topics through inquiry-based labs with the expectation that lab reports are prepared in an AP/IB standardized format. Placement Considerations:

- ***Science department approval***

5023 - AP Chemistry

1.00 Credit

The AP Chemistry course is equivalent to a first year college general chemistry course. The students attain an in-depth understanding of the fundamentals of chemistry and competence in dealing with chemical problems. This course emphasizes chemical calculations, mathematical formulation of principles, and laboratory work designed to enhance the quantitative relationships within the course. Students are expected to take the nationally administered AP exam in May (examination fee required). Placement Considerations:

- ***Science department approval***

5024 - IB Chemistry SL

1.00 Credit

This course will cover the IB SL curriculum covering topics including stoichiometry, atomic structure, periodic table trends, energetics, thermochemistry, chemical bonding, kinetics, and equilibrium. A major component of this course includes the investigation of topics through inquiry-based labs with the expectation that lab reports are written in an AP/IB standardized format. Extensive lab work will lead to the skills necessary to complete an individualized research project. Students are expected to sit for the IB Chemistry SL exam [examination fee required] or take a course based final exam. Placement Considerations:

- ***Science department approval***

5030 - Physics/R

1.00 Credit

Students in Ryken Physics will study the fundamental laws of nature underlying all branches of science. The topics covered include kinematics (motion), dynamics (force, momentum, energy), gravity, electricity, magnetism, wave motion, sound, and light. A conceptual, hands-on approach will be emphasized. Students will be expected to apply and manipulate basic algebraic equations, master problem-solving skills, draw and interpret simple vector diagrams, and interpret graphs. Students will participate in hands-on science laboratory experiences where they will learn experimental measurement skills, data collection procedures, data analysis skills, and various laboratory techniques. Placement Considerations: Placement Considerations:

- ***Ryken Program Director approval required***

5031 - Physics

1.00 Credit

Students in Physics will study the fundamental laws of nature underlying all branches of science. Topics covered include kinematics (motion), dynamics (force, momentum, energy), circular motion, gravity, electricity, wave motion, and sound/light. A conceptual, hands-on approach will be employed where students will be expected to apply and manipulate algebraic equations, master problem-solving skills, construct and interpret graphs, draw and interpret vector diagrams, utilize basic trigonometry in solving problems, and learn experimental measurement and data collection procedures, as well as basic experimental design techniques. Placement Considerations:

- ***Standard course of study***

5032 - H. Pre-AP/IB Physics

1.00 Credit

Students will study the fundamental laws of nature underlying all branches of science. Topics covered include kinematics (motion), dynamics (force, momentum, energy), circular motion, gravity, electricity, wave motion, and sound/light. Students will be expected to apply and manipulate algebraic equations, master problem-solving skills, construct and interpret graphs, draw and interpret vector diagrams, utilize basic trigonometry in solving problems, and learn experimental measurement and data collection procedures, as well as basic experimental design techniques. Placement Considerations:

- ***Science department approval***

5035 - IB Physics HL (Year 2)

1.00 Credit

IB Physics HL (Year 2) is an extension of topics from AP/IB Physics (Year 1) and is designed as year TWO of upper level physics. Topics of study include waves, fields, electromagnetism, quantum/atomic/nuclear physics, thermal physics, and fluid dynamics. Students who take this class **MUST** have completed AP/IB Physics (Year 1). Extensive lab work will be conducted using IB Physics expectations and standards. Additionally, all students will design and conduct an independent research project as part of the class requirements. Previous enrollment in AP Calculus AB or higher required. IB Physics HL (Year 2) prepares students for either the IB HL or IB SL Physics Exam, as well as the AP Physics C: Electricity and Magnetism exam. Students are expected to take an IB or AP exam or sit for a course based final exam. AP/IB examination fees required. Placement Considerations:

- ***Successful completion of AP/IB Physics (Year 1)***
- ***Concurrent enrollment in AP Calculus BC or higher***
- ***Science department approval***

5036 - AP/IB Physics (Year 1)

1.00 Credit

In AP/IB Physics HL (Year 1), students study kinematics, dynamics, circular motion, rotation, waves, and electricity. Extensive lab work will be conducted using IB Physics expectations and standards. Course content is directed towards students who wish to study engineering, physics, or similar technical fields in college and who are comfortable with math and technical abstract reasoning. Concurrent enrollment in AP Calculus AB or higher is required. AP/IB Physics 1 prepares students for IB Physics HL (Year 2). Students are also prepared to take the AP Physics 1 or AP Physics C: Mechanics exams. An examination fee is required. Students are expected to take an IB or AP exam or sit for a course based final exam. Placement Considerations:

Placement Considerations:

- ***Science department approval***
- ***Concurrent enrollment in AP Calculus AB or higher***

5043 - AP Environmental Science

1.00 Credit

Environmental science is an interdisciplinary subject which embraces a wide variety of topics from different areas of study. The goal of this laboratory-based AP Environmental Science course is to provide students with the scientific principles and concepts required to understand the interrelationships of the natural world, to identify and analyze environmental problems, and to examine solutions for resolving and/or preventing them. Major topics discussed will be ecology, populations, agriculture, energy sources, pollution and climate change. Indoor and outdoor labs will supplement the content learned. Students are expected to take the AP exam [examination fee required] or sit for a course-based final exam. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Science department approval***

5064 - IB Sports Exercise Science

1.00 Credit

This IB course explores the underpinnings of physical performance and provides the opportunity to apply these principles. The course incorporates the traditional disciplines of Anatomy and Physiology, Biomechanics, Psychology, and Nutrition, which are studied in the context of sport, exercise, and health. Students will carry out practical (experimental) investigations in both laboratory and field settings. This will provide an opportunity to acquire the knowledge and understanding necessary to apply scientific principles and critically analyze human performance. Where relevant, the course will address issues of international dimension and ethics by considering sport, exercise and health relative to the individual and in a global context. Students are expected to take the IB exam or sit for a course based final exam. An examination fee is required. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Science department approval***

5071 - Anatomy and Physiology

1.00 Credit

This course will cover traditional topics in a first-year Anatomy and Physiology program. Emphasis will be placed on the relationships between structure and function at each organizational level from the cell through the organ systems. Major organ systems will be studied. In addition, the study of the cause, diagnosis, and treatment of disease will complement anatomical and physiological studies. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Completion of both Biology and Chemistry***

5081 - Forensic Science

0.50 Credit

This semester course includes the application of the scientific method to forensic analysis, procedures and principles of crime scene investigation with hands-on labs, and analysis of fictional crime scenarios. Case studies and current events will be explored. Emphasis will be placed on the methods that link suspect, victim, and crime scene. Laboratory exercises will include fingerprinting, handwriting analysis, blood typing, hair and fiber examination, and DNA analysis. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Completion of both Biology and Chemistry***

5091 - Zoology

0.50 Credit

Zoology is a semester course that provides the student with a survey of invertebrate and vertebrate animals. Zoology students will study the diversity of Kingdom Animalia by studying anatomy, physiology, interrelationships, distributions and habitats, taxonomic relationships, life processes and survival mechanisms. This course will expand beyond content to include tastings of various cuisines alongside a generous partnership with SAGE and the research of local and national economics connections with a specific focus on the State of Maryland's cultural and economic dependence on animals. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Completion of both Biology and Chemistry***

STEM

5110 - Intro to Engineering Design

1.00 Credit

This PLTW class is an elective course offered to pre-selected incoming freshmen. In this course, students use 3D-modeling design software to help them design solutions to proposed problems. Students will learn how to document their work and communicate solutions to peers and members of the professional community. The major focus of the IED course is to expose students to the design process, research and analysis, teamwork, communication methods, global and human impacts, engineering standards, and technical documentation. Placement Considerations:

- ***Acceptance to the PLTW engineering program***

5120 - Principles of Engineering

1.00 Credit

This PLTW class is a second-year STEM class offered to students who have successfully completed the IED class. This engineering survey course exposes students to some of the major concepts encountered in a post-secondary engineering course of study. Students have an opportunity to investigate engineering and high-tech careers, and to develop skills and understanding of course concepts. Students solve engineering design problems by employing engineering and scientific concepts. They develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges. Students also learn how to document their work and communicate their solutions to peers and members of the professional community. Placement Considerations:

- ***Students who have been accepted into the PLTW engineering program and have successfully completed the IED course***

5130 - Aerospace Engineering

1.00 Credit

This PLTW class is a third-year STEM class offered only to students who have successfully completed the POE and IED classes. Aerospace Engineering is the study of the engineering discipline which develops new technologies for use in aviation, defense systems, and space exploration. The course explores the evolution of flight, flight fundamentals, navigation and control, aerospace materials, propulsion, space travel, orbital mechanics, ergonomics, remotely operated systems, and related careers. In addition, the course presents alternative applications for aerospace engineering concepts. Utilizing the activity-project-problem-based (APPB) teaching and learning pedagogy, students will analyze, design, and build aerospace systems. While implementing these designs, students will hone their interpersonal skills, creativity, and application of the design process. Students apply knowledge gained throughout the course in a final multimedia project encompassing their vision for future professional accomplishments. Placement Considerations:

- ***Successful completion of the IED and POE engineering courses***
- ***Open to 11th and 12th grade students only***

5131 - Civil Engineering and Architecture

1.00 Credit

This PLTW class is a third-year STEM class offered only to students who have successfully completed the POE and IED classes. The major focus of this course is completing long-term projects that involve the development of property sites. As students learn about various aspects of civil engineering and architecture, they apply what they learn to the design and development of a property. The course provides teachers and students freedom to develop the property as a simulation or for students to model the experiences that civil engineers and architects face. Students work in teams, exploring hands-on activities and projects to learn the characteristics of civil engineering and architecture. In addition, students use 3D design software to help them design solutions to solve major course projects. Students learn about documenting their project, solving problems and communicating their solutions to their peers and members of the professional community of civil engineering and architecture. Placement Considerations:

- ***Successful completion of the IED and POE engineering courses***
- ***Open to 11th and 12th grade students***
- ***Open to 10th grade students who have successfully completed IED and POE***

5140 - Engineering Design and Development

1.00 Credit

The knowledge and skills students acquire throughout PLTW Engineering come together in EDD as they identify an issue and then research, design, and test a solution, ultimately presenting their solution to a panel of engineers. Students apply the professional skills they have developed to document a design process to standards, completing EDD ready to take on any post-secondary program or career. Placement Considerations:

- ***Successful completion of the IED, POE, and AE or CE engineering courses***

Social Studies

6010 - World History/R

1.00 Credit

This survey course uses a thematic approach to the study of Global History. Students will cover information from Asia, Africa, Europe and the Americas using the following themes: economic systems; social structures; cultural characteristics; diplomatic interactions; environment and geography; and politics, power and government structures. Students will also be exposed to some of the historical thinking skills emphasized in the AP and IB classes including: compare and contrast; document interpretation; contextualization, and finally, cause and effect. In addition, support is given to students in the development of note-taking, outlining, and other organizational skills through the use of traditional and technological resources. The course attempts to accommodate the needs of each student and his/her learning style while building on individual strengths. Attention is given to the skills necessary for success in higher-level courses and in college. Placement Considerations:

- *Ryken Program Director approval*

6011 - World History

1.00 Credit

This survey course uses a thematic approach to the study of Global History. Students will cover information from Asia, Africa, Europe and the Americas using the following themes: economic systems; social structures; cultural characteristics; diplomatic interactions; environment and geography; and politics, power and government structures. Students will also be exposed to some of the historical thinking skills emphasized in the AP and IB classes including: compare and contrast; document interpretation; contextualization; and finally, cause and effect. Placement Considerations:

- *Standard 9th grade course of study*

6012 - H. Pre-AP/IB World History

1.00 Credit

The nature of this World History course requires a more global approach to history and asks students to look for patterns in and between time periods and geographic regions. Students will cover content from Asia, Africa, Europe and the Americas using a thematic approach. Themes include: creation, expansion and interaction of economic systems; development of social structures; development of ideas, beliefs and cultures; interaction between regions, countries and continents; environment and geography; and politics, power and government. Students will also be exposed to the historical thinking skills emphasized in AP and IB classes including: compare and contrast; document interpretation; contextualization; continuities and changes; and finally, cause and effect. Placement Considerations:

- *Advanced 9th grade course of study*
- *Studies Office and Social Studies department placement*

6014 - IB 20th Century World History

1.00 Credit

This course deals with twentieth-century world history topics including causes of war, the rise and rule of authoritarian regimes, international organizations, nationalist and independence movements, and the state and its relationship with religion and minorities. There will be a detailed concentration on four topics: the causes of war; inter-war years and peacemakers; and single-party states. A mandatory requirement of this course is a guided course-work paper. Students will take the IB History exam in May or must sit for a course-based final exam. Placement Considerations:

- *Social Studies department approval*

6020 - U.S. History/R

1.00 Credit

This course, covering United States history from pre-Columbian times to the present, provides a comprehensive understanding of the major events, individuals, and ideas that have shaped the American identity. Students will use a variety of primary and secondary source materials to develop a thorough understanding of the American past and its impact on the 21st century. Students will also examine the history of the United States through the following themes: economic systems; social structures, cultural characteristics, diplomatic interactions, environment and geography, and politics, power and government structures. Moreover, students will use their historical knowledge to analyze and think critically about the evolution of today's most pressing political and social issues. In addition, support is given to students in the development of note-taking, outlining, and other organizational skills through the use of traditional and technological resources. The course attempts to accommodate the needs of each student and his/her learning style while building on individual strengths. Attention is given to skills necessary for success in higher-level courses and in college. Placement Considerations:

- ***Ryken Program Director approval***
- ***Successful completion of World History/R***

6021 - U.S. History

1.00 Credit

This course, covering United States history from pre-Columbian times to the present, provides a comprehensive understanding of the major events, individuals, and ideas that have shaped the American identity. Students will use a variety of primary and secondary source materials to develop a thorough understanding of the American past and its impact on the 21st century. Students will also examine the history of the United States through the following themes: economic systems; social structures; cultural characteristics; diplomatic interactions; environment and geography; and politics, power and government structures. Moreover, students will use their historical knowledge to analyze and think critically about the evolution of today's most pressing political and social issues. Students will be introduced to skills necessary for higher-level AP/IB. Attention is given to the refinement of note-taking and study skills necessary for success in higher-level courses at Good Counsel and in college. Placement Considerations:

- ***Standard 10th grade course of study***

6022 - H. Pre-AP/IB U.S. History

1.00 Credit

This course, covering United States history from pre-Columbian times to the present, provides a comprehensive understanding of the major events, individuals, and ideas that have shaped the American identity. Students will use a variety of primary and secondary source materials to develop a thorough understanding of the American past and its impact on the 21st century. Students will also examine the history of the United States through the following themes: economic systems; social structures; cultural characteristics; diplomatic interactions; environment and geography; and politics, power and government structures. Moreover, students will use their historical knowledge to analyze and think critically about the evolution of today's most pressing political and social issues. The Honors Pre-AP/IB level hones skills needed in the Advanced Placement and International Baccalaureate Programs. It emphasizes advanced higher level thinking skills, substantial depth of knowledge, and significant core reading. Placement Considerations:

- ***Social Studies department approval***

6023 - AP U.S. History

1.00 Credit

This college level course's primary goal is a comprehensive and critical understanding of the major events, individuals, and ideas that have shaped the American identity. The course's primary emphasis will be on the political, social, economic, diplomatic, geographic and cultural developments in the United States between the pre-Columbian era and the present. Skill based emphasis includes: primary and secondary source document/data analysis; interpretation and synthesis; chronological reasoning (including historical causation, patterns of continuity and change, and periodization); comparison and contextualization; advanced essay writing skills; and higher level historical investigation in historiography. A significant portion of the course will also be devoted to preparation for the Advanced Placement exam which students will be expected to take in May (examination fee required). Placement Considerations:

- ***Social Studies department approval***

6031 - U.S. Government & Politics

0.50 Credit

This standard course examines the basic ideas conveyed in the U.S. Constitution and how these principles have shaped the national government. Special emphasis is given to the protection of the basic liberties of individuals; the political process, especially elections, which determine who will hold power; the major powers of the legislative, executive and judicial branches; and the goals and methods of the civil rights movement. Students will be required to use the internet to analyze and interpret visual materials such as tables, charts, maps and editorial cartoons. Students will also engage in research projects on current issues. Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students***

6033 - AP U.S. Government

0.50 Credit

This semester course presents a critical perspective on the national political and governmental system of the United States. The institutions, beliefs, and significant groups that make up the political and governmental process receive special attention. Thus, the course examines how the political system has evolved and currently operates as well as the interplay among legislative, executive and judicial branches in making policy. Students will take and review previous AP exams before taking the AP exam in May. Starting in 2018, the AP exam will consist of 70 multiple choice questions (70 minutes) and five free response questions (100 minutes). Besides assessing mastery of the course content, this exam requires students to analyze and interpret material such as tables, charts, graphs and editorial cartoons. Any student not taking the AP Exam is required to take a teacher-generated final exam. (examination fee required). Placement Considerations:

- ***Social Studies department approval***
- ***Runs in ODD school years***

6041 - Contemporary American Politics

0.50 Credit

This semester course will explore current and recent historical trends in society and politics contained in the last half century. Students will apply and evaluate developments in law, politics, social trends, history, as well as international and foreign policy issues and conflicts. Substantive and verifiable evidence from multiple sources and perspectives will be utilized to take deeper dives into America's recent past and make connections to the present. Students who take this course will leave with relevant background knowledge which will allow them to better understand current political situations and challenges. Placement Considerations:

- ***Social Studies department approval***
- ***Open to 11th and 12th grade students***

6043 - AP European History

1.00 Credit

This is a comprehensive, in-depth, thematic study of European history from 1450 to the present within which students develop skills in analyzing historical sources and formulating arguments using contextualization, comparison, causation, and understanding of continuity and change over time. It requires college-level analysis of major themes in European history including interaction of Europe and the world, poverty and prosperity, objective knowledge and subjective visions, states and other institutions of power, the individual and society, and national and European identity. The course starts with the Renaissance, progresses with the changes brought by the Reformation, through the building of centralized nations and challenges to the authority of these due to the Enlightenment, focuses on the impacts of the Industrial Revolution on a new and participatory political landscape, ultimately culminating in the triumphs and tragedies of the 20th century and its lasting impact. This class serves as Year 1 of the History HL sequence within the IB Diploma Program. Students are expected to take the AP European History Exam in May (examination fee required). Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Social Studies department approval***

6053 - AP Human Geography

1.00 Credit

The purpose of the AP Human Geography course is to introduce students to the systematic study of the patterns and processes that have shaped human understanding as well as the use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine human social organization and its environmental consequences. This course will also focus on the methods and tools geographers use in their science and practice. Students are expected to take the AP exam in May (examination fee required). Placement Considerations:

- ***Studies Office and Social Studies department placement for 9th grade students***
- ***Open to 10th, 11th, and 12th grade students with Social Studies department approval***

6121 - American History at the Crossroads I

0.50 Credit

This course is an examination of the origins and evolution of popular music (predominantly Rock and Roll) and its impact on the social, political, intellectual, and cultural history of the United States. Music has been influenced by major events in American history and it has also fostered change at important moments in our history. Rock and Roll is an American invention that evolved from the different musical genres created in our country and it continues to impact generation after generation of listeners. We will explore the often-overlooked intersections of music and history. Part 1 will examine Early American musical influences up to the mid-1960s and the impact of the Beatles and Bob Dylan. Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students***

6131 - American History at the Crossroads II

0.50 Credit

This course is an examination of the origins and evolution of popular music (predominantly Rock and Roll) and its impact on the social, political, intellectual, and cultural history of the United States. Music has been influenced by major events in American history and it has also fostered change at important moments in our history. Rock and Roll is an American invention that evolved from the different musical genres created in our country and it continues to impact generation after generation of listeners. We will explore the often-overlooked intersections of music and history. Part 2 will examine the "British Invasion" and turbulence of the 1960s up to the year 2000 in music history. Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students***

6151 - Introduction to Economics

0.50 Credit

This course provides basic literacy in the fundamentals of economics. The course will concentrate on such topics as free enterprise, supply and demand, market structures, business organizations, money and banking, measures and theories of economic performance, taxes and government spending as well as basic accounting methods. Projects and assignments are based on knowledge of basic economic principles as well as the application of these principles to current issues and problems in the aforementioned areas. Placement Considerations:

- ***Open to 10th, 11th, & 12th grade students***

6155 - IB Economics HL (Year 2)

1.00 Credit

This course strictly follows the IB course requirements for Higher-Level IB Economics. The syllabus is a blend of both micro and macro-economic principals as they apply to a single country or to a particular economic system. The focus of the course is on the world economy. Emphasis is placed on a study of economic principles and an application of these principles through a mandated internal assessment activity of constructing four portfolio assignments during the year. International and generic economic problems and issues common to all nations are analyzed and discussed from global international perspectives. Placement Considerations:

- ***Open to 12th grade students***
- ***Social Studies department approval***
- ***Successful completion of AP Macroeconomics/IB Economics HL (Year 1)***

6156 - AP Macroeconomics/ IB Economics HL (Year 1)

1.00 Credit

This college level course will prepare students to take the AP Macroeconomics examination in May, and also introduces the base topics for the International Baccalaureate examination for Economics HL (Higher Level) to be taken by IB Candidates the following year. Following an introduction to the basic elements of economics, students will study supply and demand and market failure. Students will then study macroeconomics, which includes the study of national economic performance, such as gross domestic product (GDP), inflation, and unemployment. The course recognizes the global nature of economics, examining the impact of international trade and finance on national economies. Students are expected to take the AP exam in May (examination fee required). Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Social Studies department approval***

6161 - Introduction to Psychology

0.50 Credit

This course will cover topics traditionally considered essential for a basic foundation in psychology. The course will examine the history of psychology as well as the research methods utilized in the social sciences. After an examination of these concepts, students will utilize this knowledge when exploring the biological bases of behavior, learning principles and strategies, psychological disorders and their treatments, development from infancy through old age, states of consciousness, social psychology, socialization, deviance and conformity, social change, and social inequalities. Additionally, the course will utilize new psychological research from current periodicals. These studies, along with the application of these concepts, will allow for the application of social-scientific principles to real-life situations, allowing for students to better understand individual and group behaviors in their own lives. Placement Considerations:

- ***Open to 10th, 11th, & 12th grade students***

6165 - IB Psychology HL (Year 2)

1.00 Credit

The IB approach to teaching psychology includes the study of the history of psychology and its research methods, a study of the biological, cognitive and sociocultural perspectives in psychological theory and a review of abnormal psychology and human relationships. Students also participate in an experimental segment of study in which students demonstrate the acquisition of knowledge and skills required for experimental design, data collection, data analysis and interpretation. Students will undertake a replication of a published study, or a modified original study, presenting results systematically in a written lab report using descriptive and inferential statistics to support their research. Students will take the IB HL exam in May (Examination fee required). Placement Considerations:

- ***Open to 12th grade students***
- ***Social Studies department approval***
- ***Successful completion of AP/IB Psychology (Year 1)***

6166 - AP/IB Psychology HL (Year 1)

1.00 Credit

This course will cover topics traditionally considered essential to a comprehensive understanding of basic psychology. Emphases will include an examination of psychology's history, scope, perspectives and research methods, as well as an exploration of the biological bases of behavior, sensation and perception, states of consciousness, learning and cognition, motivation and emotion, developmental and social psychology, personality, testing and individual differences, as well as psychological disorders and their treatments/therapies. This course emphasizes psychology as a science as well as the application of these facts and principles to real life situations. This class will focus on methodology and experimental design while preparing students for the AP Psychology examination. It also serves as year one of IB Psychology (HL). Students are expected to take the AP exam in May and the IB HL exam the following year if seeking the IB Diploma (examination fee required). Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Social Studies department approval***

6171 - Introduction to Sociology

0.50 Credit

This course will cover topics traditionally considered essential for a basic foundation in sociology. The course will examine the history of sociology as well as the research methods utilized in the social sciences. After an examination of these concepts, students will utilize this knowledge when exploring the socialization of humans to their societies, the concepts of deviance and conformity, theories on collective behavior, forces that impact social change in society, as well as the issue of social inequalities. Additionally, the course will access new sociological research from current periodicals. These studies, along with the application of these concepts, will allow for the application of social scientific principles to real-life situations, allowing for students to better understand individual and group behaviors in their own lives. Placement Considerations:

- ***Open to 10th, 11th, & 12th grade students***

6183 - AP Comparative Government

1.00 Credit

This year-long course introduces students to the rich diversity of political life outside the United States. The comparative approach examines the governmental structures, policies, and political, economic, and social challenges of six selected countries: Great Britain, Russia, China, Iran, Mexico and Nigeria. Moreover, students examine how effectively these six governments react to similar problems and apply key concepts, such as legitimacy, sovereignty, political socialization, ideology, democracy, revolution, nation and state to the core countries. Reports include comparing and evaluating specific leaders and their policies. Finally, the course uses videos, recent news articles, and visuals such as editorial cartoons, maps, graphs and charts to enhance student understanding of course topics. Students will practice previous AP exams before taking the AP Exam in May. Any student not taking the AP Exam is required to take a teacher-generated final exam (examination fee required). Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Social Studies department approval***
- ***Runs in EVEN school years***

6311 - Latin American Studies

0.50 Credit

This course combines historical study of the five centuries of Latin American development with an exploration of today's important social, political, intellectual, cultural, and economic trends. Special attention is devoted to relations between the U.S. and Latin America, the phenomena of Globalization and Neoliberalism, the impact of the International Monetary Fund, World Bank, and World Trade Organization, and the migration of working people to the United States. Placement Considerations:

- ***Open to 10th, 11th, & 12th grade students***

6411 - African & African-American Studies

0.50 Credit

This course includes an examination of the history and cultures of Africa and the African Diaspora in Asia, Europe, the Caribbean, and North, South, and Central America. This class will include units on pre-Colonial civilizations, the slave trade, the institution of slavery, the nature of "African" and "Black Studies," identity and culture in the Diaspora, European Imperialism, the movement to independence and Civil Rights, and challenges facing the those affected by the Diaspora. Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students***

Fine Arts

7011 - Graphic Art

0.50 Credit

Students will study graphic art in order to develop solutions to two-dimensional problems. Basic skills in drawing and painting will be developed as the principles of design are investigated. Making use of traditional materials, projects will focus on the use of shape and color as they relate to the industries of branding, advertising, and illustration. Note: This course does not fulfill the prerequisites for upper level visual arts courses. Placement Considerations:

- ***Recommended for 9th and 10th grade students; open to all grade levels***

7021 - Art Fundamentals

1.00 Credit

Students investigate the basic elements of art and principles of design through a series of problem-solving processes. Students improve their technical skills while exploring a variety of media. Equal emphasis is given to both process and product. Basic components of each unit are: art history, studio production, art criticism, and aesthetics. Students are challenged to produce creative two and three-dimensional artworks which reflect critical thinking skills. Placement Considerations:

- ***Open to 9th and 10th grade students only***

7042 - H. Pre-AP/IB Drawing

1.00 Credit

Students develop creative solutions for two-dimensional problems, which incorporate a variety of techniques and materials directly related to the comprehensive study of drawing. Students are challenged to develop their aesthetic awareness through careful observation, extensive experimentation and creative presentation in a series of problem-solving processes. Specific emphasis is given to personal and group assessment of portfolio work in order to promote critical thinking. Students integrate artistic production with critical analyses as they relate the material to cultural, historical, and social contexts. Placement Considerations:

- ***Successful completion of Art Fundamentals***
- ***Fine Arts department approval***

7052 - H. Pre-AP/IB Painting

1.00 Credit

Students develop creative solutions for two-dimensional problems that incorporate a variety of techniques and materials directly related to the comprehensive study of painting. Students are challenged to develop their aesthetic awareness through careful observation, extensive experimentation and creative presentation in a series of problem-solving processes. Specific emphasis is given to personal and group assessment of portfolio work in order to promote critical thinking. Students integrate artistic production with critical analysis as they relate materials to cultural, historical, and social contexts. Placement Considerations:

- ***Successful completion of Art Fundamentals***
- ***Fine Arts department approval***
- ***Runs every ODD school year***

7062 - H. Pre-AP/IB Ceramics & Sculpture

1.00 Credit

Students develop solutions for three-dimensional problems that incorporate a variety of techniques and materials directly related to the comprehensive study of ceramics and sculpture. Students are challenged to develop their aesthetic awareness through careful observation, extensive experimentation and creative presentation in a series of problem-solving processes. Students work with a broad range of materials in an effort to enhance skill development. Specific emphasis is given to personal and group assessment of portfolio work in order to promote critical thinking. Students integrate artistic production with critical analysis as they relate materials to cultural, historical, or social contexts. Placement Considerations:

- ***Successful completion of Art Fundamentals***
- ***Fine Arts department approval***
- ***Runs every EVEN school year***

7073 - AP Studio Art I

1.00 Credit

AP Studio Art is intended for the serious visual art student who is looking to develop a strong personal portfolio that demonstrates a variety of technical skills and ideas. Students will creatively and systematically investigate formal and conceptual issues. This course is recommended to be taken both junior and senior years. Students enrolled in AP Studio Art are expected to submit their portfolios to the AP Program during their senior year. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Fine Arts department approval***

7074 - IB Studio Art SL/HL

1.00 Credit

As a complement to, and an extension of, the current studio courses, this course focuses on the development of the Exhibition Portfolio and Visual Art Journal. On a formal level, emphasis is placed on a deeper understanding of the Elements of Art and the Principles of Design, as well as a wide range of personal research and experimentation relevant to the students' aesthetic interests and technical skills. A variety of media will be used. Creative problem-solving will be further enhanced by the development of critical thinking skills. The IB student who is studying art at the Standard Level (SL) will be expected to complete 4-7 Exhibition pieces, 10-15 screens (pages consisting of imagery and text) for a Comparative Study, and 9-18 screens for a Process Portfolio. IB students studying on the Higher Level (HL) will be expected to complete 8-11 Exhibition pieces, 13-20 screens (consisting of imagery and text) for a Comparative Study, and 13-25 screens for a Process Portfolio. All components will be submitted to an IB examiner for assessment. IB students who wish to study art at the Higher Level must enroll in this course for two years. All students enrolled in this course must complete the IB assessments. Placement Considerations:

- ***Open to 11th and 12th grade students***
- ***Fine Arts department approval***

7111 - How to Listen to Music

0.50 Credit

This course is designed to give students an understanding of the basic elements of music. This includes addressing listening skills, musical styles, music criticism, film music, music videos, and cultural aspects of music. Placement Considerations:

- ***Recommended for 9th and 10th grade students; open to all grade levels***

7131 - Pep Band

0.25 Credit

The Pep Band is an ensemble comprised of student-musicians that perform at various sporting events throughout January and February. Membership in Pep Band is open to all musicians. The unique nature of the course requires that all rehearsals and performances be scheduled outside of school time, which includes rehearsals before basketball season begins and up to ten games. This class is graded on a pass/fail basis and does not fulfill the Fine Arts requirement for graduation. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7141 - Marching Band

0.25 Credit

The Marching Band is an ensemble comprised of student-musicians who perform at varsity football games throughout the season. Membership in the Marching Band is open to all musicians as well as the dancers who comprise our majorette line. The unique nature of this course requires that all rehearsals and performances be scheduled outside of school time, which include rehearsals before the school year begins in August, after-school rehearsals during the football season, and all scheduled games. This class is graded on a pass/fail basis and does not fulfill the Fine Arts requirement for graduation. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7151 - Symphonic Band

1.00 Credit

This course is for students who are continuing to develop their skills as musicians and performers on a wind instrument. Novice level percussionists are included in this ensemble. Challenging materials will require members to devote time to practice on a daily basis. Active participation in all rehearsals and concerts will be included as a significant part of the grade for the course. Students should have a minimum of two years of experience to participate in this group and/or the approval of the director. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7161 - Wind Ensemble

1.00 Credit

The Wind Ensemble is comprised of Our Lady of Good Counsel's most accomplished instrumental musicians. Consisting of wind and percussion instruments, the group is open to students only through audition and/or the approval of the Director. Participants are expected to devote themselves to excellence in performance and a high degree of commitment to practice and personal musical growth. In addition to preparing for performing concerts, students will explore a broad collection of music-related topics that support the development of general musicianship. Active participation in all scheduled events is considered an essential part of the course content. Students who enroll in this course are required to participate in the annual music trip. Opportunities exist for fundraising to defer the cost. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7171 - Jazz Ensemble

1.00 Credit

Students will rehearse and perform a wide variety of jazz ensemble arrangements to develop skills unique to the jazz idiom. Improvisation and interpretation skills are studied. Students will be required to actively participate in performances scheduled outside of the regular school day. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7181 - String Ensemble

1.00 Credit

This course is for students who are continuing to develop their skills as musicians and performers on a string instrument. Challenging materials will require members to devote time to practice on a daily basis. Active participation in all rehearsals and concerts will be included as a significant part of the grade for the course. Students should have a minimum of two years of experience to participate in this group and/or the approval of the director. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7241 - Concert Choir

1.00 Credit

This course is a 'mixed ensemble' combining beginning male and female singers and will be grounded in the development of secure vocal technique and building a fundamental level of music literacy. Students study and perform music from the choral repertoire. The unique challenges faced by the adolescent singer will be addressed. Up to six rehearsals and/or performances may be scheduled each quarter outside of school time. Attendance is a component of the grade. Placement Considerations:

- ***Open to all grade levels***
- ***Interview and Fine Arts department approval***

7252 - H. Pre-AP/IB Choral Music

1.00 Credit

As the middle-level 'mixed ensemble' combining male and female singers in the school, this choir will sing SATB and SAB literature. Members are required to participate in all rehearsals and performances. Repertoire will include a variety of musical styles from Classical music and Spirituals to Pop and Gospel. Students will be expected to dedicate themselves to the development of musicianship and performing skills. Active participation in all scheduled events is considered an essential part of the course content. Students who enroll in this course are required to participate in the annual music trip. Opportunities exist for fundraising to defer the cost. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7262 - H. Pre-AP/IB Chamber Choir

1.00 Credit

As the premier choir in the school, this choir will perform advanced SATB literature. Chamber Choir participants are required to participate in more rehearsals and performances than students in other choirs. Repertoire will include a variety of musical styles from Classical Chamber music and Spirituals to Pop and Jazz. Students will be expected to dedicate themselves to the highest level of musicianship and performing skills. Membership will be open to a limited number of students based on the recommendation of the conductor. Juniors and Seniors who have previous experience in another ensemble will be encouraged to audition. Younger students may be allowed to audition at the director's discretion. Students who enroll in this course are required to participate in the annual music trip. Opportunities exist for fundraising to defer the cost. Placement Considerations:

- ***Audition and/or Fine Arts department approval***

7312 - Designing for the Stage

1.00 Credit

Students explore the elements of Theatrical Design (set, lights, sound, costume, and props) through play analysis. Students will learn the art of theatrical design building skills in rendering, model building and basic stage craft. Placement Considerations:

- ***Fine Arts department approval required***

7321 - Introduction to Theatre

0.50 Credit

This course is designed to provide students with a fast-paced introduction to the world of theatre. In addition to the basics of performance and design, students will understand theatre's importance throughout history and in our own time and culture. The class will also focus on theatre's many applicable skills, including self-awareness, personal reflection, confidence in public speaking, and collaboration. The course will culminate with students collaborating as an ensemble to write, design, and perform a short play. Placement Considerations:

- ***Open to all grade levels***

7334 - IB Theatre I

1.00 Credit

IB Theatre students experience the art of theatre by participating in all aspects of the theatrical experience in very personal ways. In this year of the course, students will research, read, and analyze plays, develop conceptual interpretations for a production, and envision and design technical elements. Additionally, students will explore and practice the knowledge and skills needed to collaboratively create a devised theatre piece. Placement Considerations:

- ***Fine Arts department approval***
- ***Runs every ODD school year***
- ***Open to 11th and 12th grade students***

7341 - Stage Craft

0.50 Credit

In this course, students will get first-hand experience in all aspects of technical theatre construction and creation. Topics covered include the construction of sets and scenic painting, sewing basics, building and creating a props, the purpose of sound in theatre and film, and the creation of lighting for stage. Placement Considerations:

- ***Open to all grade levels***

7344 - IB Theatre II

1.00 Credit

IB Theatre students experience the art of theatre by participating in all aspects of the theatrical experience in very personal ways. In this year of the course, students will research, practically explore and present on global cultural traditions. Additionally, they will create and perform a solo performance project based on the research and exploration of an important theatrical theorist. Placement Considerations:

- ***Fine Arts department approval***
- ***Runs every EVEN school year***
- ***Open to 11th and 12th grade students***

7362 - Advanced Theatre Topics A - Playwriting

1.00 Credit

This course provides students with the imaginative development and the practical skills necessary to write a play. Students will learn the process of the playwright, the structure of a play, method of writing quality materials, and the skills necessary to successfully write a one-act play. In addition to a strong focus on the development of new work, students will glean inspiration from reading plays from a variety of genres and time periods. The course covers methods and techniques of dramatic writing, script analysis, character development, and content choice. At the end of the course, students will have written multiple plays of varying lengths, culminating with the creation of their very own ten to twenty page one-act play. Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students***
- ***Fine Arts department approval required***
- ***Runs in the 2023-2024 school year***

7363 - Advanced Theatre Topics B - Directing and Devising

1.00 Credit

In this course, students will explore how to select a text, approach it, analyze it and prepare it for production. They will learn how to cast and work with actors and various acting styles in their work. Additionally, students will practice the collaborative art of devising, creating a new piece of theatre collaboratively. Other topics include production team collaboration, design cooperation, staging, and creating an environment in which the world of the play becomes alive for actors and audience alike. Placement Considerations:

- *Open to 10th, 11th, and 12th grade students*
- *Fine Arts department approval required*
- *Runs in the 2024-2025 school year*

7364 - Advanced Theatre Topics C - Acting for the Stage

1.00 Credit

This course is intended for students who want to focus on developing high-level acting skills that extend beyond those covered in Introduction to Theatre. Students will explore a variety of acting roles through monologue and scene work. The curriculum will cover both classical and contemporary theatre work as students explore physical movement, voice technique, and character development. Placement Considerations:

- *Open to 10th, 11th, and 12th grade students*
- *Fine Arts department approval required*
- *Runs in the 2025-2026 school year*

7421 - Dance 101: Agility Balance and Strength

0.50 Credit

This course is intended for any student who wants to focus on enhancing and refining athletic performance through techniques and training in dance. No dance experience is required. Agility, flexibility, footwork, balance, and endurance are all specifically addressed in this beginner course. A student taking this course will improve upon his or her ability to perform on the athletic field. Students will be expected to wear loose fitting athletic wear and will not be required to perform in dance performances. Assessments will include technique quizzes, choreography assessments, and collaborative projects. Pair with another fine arts half-credit course to complete the Fine Arts requirement. Can be used to fulfill the 0.5 credit PE requirement after 8011 - Fitness and Health. Can be used for Fine Arts OR PE credit, NOT both. Placement Considerations:

- *Open to students in all grade levels and levels of experience*

7451 - Classical Dance Technique

0.50 Credit

This Level 1 course expands on the knowledge explored in Dance 101: Agility, Balance, and Strength. Students in this course will be introduced to techniques integral to the foundations of ballet, jazz, tap and contemporary dance. Students will explore turnout, point and flex, eppaulement, port de bras, barre and centre work. Students will build a physical and literal vocabulary of essential dance steps and develop the ability to perform choreography as well as discuss it clearly and coherently. Assessments will include technique quizzes, choreography assessments, and collaborative projects. This course includes various performance opportunities and rehearsals throughout the school year. Placement Considerations:

- *Fine Arts department approval*

7471 - Advanced Jazz Dance

1.00 Credit

Advanced Jazz Dance is a level 2 dance course that builds upon the skills mastered in Dance 101: Agility, Balance, & Strength and Classical Dance Technique. The course includes an introductory experience in movement vocabulary that explores the evolution of jazz, both as a dance form and as an element of self-expression. Students will explore Contemporary, Broadway style, and Street jazz, focusing more intensely on travel steps, advanced turns, leaps, and floor work. Students will also learn several group pieces that will emphasize different styles of jazz, demonstrating the wide range of styles included in this genre. Assessments will include technique quizzes, choreography assessments, collaborative projects, and a solo piece. This course requires some after school rehearsals and participation in the dance concert and tech week rehearsals. Placement Considerations:

- ***Fine Arts department approval required***
- ***Runs every EVEN school year***

7481 - Advanced Modern Dance

1.00 Credit

Advanced Modern Dance is a Level 2 dance course that builds upon the skills learned in Dance 101: Agility, Balance, & Strength and Classical Dance Technique. Students will learn the fundamentals of modern dance technique and vocabulary through the exploration of methods by notable choreographers in this genre. Contract/release and fall/recovery will be explored to understand the full mobility of the spine, as well as the use of breath to initiate movement and expression. Assessments will include technique quizzes, choreography assessments, collaborative projects, and a solo piece. This course requires some after school rehearsals and participation in the dance concert and tech week rehearsals. Placement Considerations:

- ***Fine Arts department approval required***
- ***Runs every ODD school year***

Physical Education

8011 - Fitness & Health

1.00 Credit

This is a fitness-oriented course that incorporates the five components of fitness into the lessons. Course workouts focus upon muscular strength and endurance, cardiovascular endurance and flexibility through the practice of jogging, free weights, and static and dynamic stretching. Health is also part of this course and will review the fundamentals of fitness, nutrition, drugs, and infectious diseases in a traditional classroom environment. Placement Considerations:

- *Introductory course*
- *P.E. uniform required*

8022 - Yoga I

0.50 Credit

This course will teach specific practices of Yoga and their corresponding postures and sequences. Lessons will include the historical backgrounds of the different types of Yoga and their specific health benefits. Emphasis will be placed upon learning relaxation techniques, how to reduce stress, boost well-being, and finding balance, strength and focus in the body, mind, and spirit. Placement Considerations:

- *P.E. uniform required*
- *Open to 10th, 11th, and 12th grade students*

8023 - Yoga II

0.50 Credit

This course is a continuation of Yoga I to provide the opportunity for students to continue their wellness journey within the class day. The class would offer an increased intensity and consistency of practice while taking a more critical review of the many aspects of yoga and its benefits in the context of the Catholic faith. Curriculum would include a deeper dive into Chakras, nutrition, and stress management as well as some new material such as a Karma project, study of Patanjali's Sutras, and aromatherapy as they complement Catholic meditative prayer practices. Placement Considerations:

- *P.E. department approval*
- *P.E. uniform required*
- *Open to 10th, 11th, and 12th grade*

8031 - Team Sports

0.50 Credit

This course focuses on basketball, volleyball, soccer, Ultimate Frisbee, floor hockey, STXball, and flag football. Students will be expected to learn rules, participate in skill drills, demonstrate advanced knowledge of the game, participate in game competitions, and play using strong teamwork skills and positive sportsmanship. Placement Considerations:

- *P.E. uniform required*
- *Open to 10th, 11th and 12th grade students*

8041 - Strength & Conditioning I

0.50 Credit

This course is designed to improve athletic performance. It emphasizes proper warm-up and lifting/spotting techniques. A three-cycle program that focuses upon core lifts will be followed. Placement Considerations:

- *P.E. uniform required*

8042 - Strength & Conditioning II

0.50 Credit

This course is geared to student-athletes motivated to reach a high level of athletic performance. This class is designed to continue and advance the program initiated in Strength & Conditioning I. Placement Considerations:

- ***PE department approval***
- ***P.E. uniform required***

8043 - Strength & Conditioning III

0.50 Credit

This course is geared to junior and senior student-athletes motivated to reach a high level of athletic performance. This class is designed to continue and advance the program initiated in Strength & Conditioning II. Placement Considerations:

- ***PE department approval***
- ***P.E. uniform required***

8051 - Falcon Fit I

0.50 Credit

This course involves intense, high-level workouts designed following the principles of CrossFit. Focus of this course will be on enhancing functional physical fitness through the utilization of methods to improve students' overall strength, muscular endurance, flexibility, cardiovascular endurance, body composition, and weight training techniques. Placement Considerations:

- ***P.E. department approval***
- ***P.E. uniform required***

8052 - Falcon Fit II

0.50 Credit

This class is the second-level of an intense, high-level, physical education course designed using the principles of CrossFit. The focus of the course will be on enhancing functional physical fitness at high intensity. The class utilizes methods to improve students' overall strength, muscular endurance, flexibility, cardiovascular endurance, body composition, and weight training techniques. A Good Counsel P.E. uniform is required. Placement Considerations:

- ***P.E. department approval***
- ***P.E. uniform required***

8071 - Athletic Training

0.50 Credit

This course is designed as an introduction to the duties and functions of the certified athletic trainer and the relationship of the athletic trainer to other health care professionals. Class emphasis will focus on the prevention, recognition, immediate care, and rehabilitation of athletic injuries. Curriculum includes mandatory observation hours in the athletic training facility and hands-on learning during class time. Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students***

Computer Studies

9011 - Computer Concepts & Applications

1.00 Credit

This course explores today's ever-changing world of technology. Students learn about the latest machines, devices, applications and websites, as well as the companies and geniuses that created them. Students build on their technology skills through instruction of advanced features of Microsoft Office products and other internet-based emerging technologies and applications. Students also develop research techniques and skills so that they can take advantage of the 21st-century information flowing all around them. The course also introduces additional software programs (Photoshop, Dreamweaver, etc.) and technologies (digital cameras, video, etc.) to create interactive projects. Throughout the course, students will evaluate the impact of technology on society and identify the social and ethical issues that are required for responsible digital citizenship. Placement Considerations:

- *Open to all grade levels, but priority given to 9th and 10th grade students*

9051 - Video Design & Production

1.00 Credit

This course is a year-long, project-based course that develops career and communication skills in digital video production using Adobe tools. The course will focus on developing the following skills: video production, video editing, design, research, and communication. Students learn storytelling, capturing and editing video and audio, and finalizing content for DVD, web, or digital videotape. Students are required to supply their own external storage device. Placement Considerations:

- *Open to 10th, 11th, and 12th grade students, but priority given to 11th and 12th grade students*

9061 - Adobe Creative Cloud

1.00 Credit

This course will introduce students to the Adobe suite of products. Students will work with a variety of products including Photoshop, Dreamweaver, Illustrator, In Design and more. The purpose of this class is to show students the potential of working with different creative software applications and have some fun exploring their own creativity and imagination. Photoshop is a software program used to create and manipulate images and digital photographs. Dreamweaver is a software program that is used to create and build websites. InDesign allows creating layouts for print. Illustrator is a vector graphics editor for advanced design. This course will allow students the flexibility to customize their learning experience by product and develop specific skills that interest them. Placement Considerations:

- *Open to 10th, 11th, and 12th grade students, but priority given to upperclassmen*
- *Basic computer skills (Windows, Word, Powerpoint, etc.) required*

9071 - Intro to Website Design

0.50 Credit

This semester class will introduce the student to the HTML and CSS programming languages and their use in creating web-based applications. Students will learn the structure of an HTML page, how graphics and text are manipulated within a web page, and how style sheets influence the look and feel of a web page experience. The student is expected to construct a website of their own design as a course project over the semester. This is a first semester course. Placement Considerations:

- *Open to all grade levels*

9081 - Introduction to Databases

0.50 Credit

This semester class will introduce the student to the concepts of relational and physical databases. Using SQL, the student will learn to define a database and execute queries against it in order to return meaningful data. Topics will include data dictionaries, database management, and how data mining is performed. Work is performed using the Microsoft Access software package running on a Windows platform. The student is expected to construct a database as a course project over the semester. This is a second semester course. Placement Considerations:

- ***Open to all grade levels***

9112 - H. Pre-AP/IB Introduction to Programming

1.00 Credit

This class is for students interested in the design and creation of computer programs. Beginning with an introduction to the mathematics and logic of computer science, how math and logic are used in developing programming skills is discussed throughout the year. Actual programming projects using Java are a large part of the course. This course, although labelled introductory, presents challenging material to the high school student, and has an out-of-class commitment. This course is a prerequisite for AP Computer Science A (9113). Placement Considerations:

- ***Open to 10th, 11th, and 12th grade students (Ryken students with Ryken Director approval)***
- ***Computer Studies department approval***

9134 - IB Digital Society

1.00 Credit

This is a class that would appeal not just to someone interested in computers but also a student who is interested in the latest forms of technology and the impacts on society. The class is a mix of technology lessons along with discussions about current topics involving social media use, driverless cars, nation state cyber attacks, the use of deep fakes and more. Understanding how technology causes changes in, how people express themselves, how power is acquired or diminished, social and ethical questions are just a few ways this class will challenge you. We will look at the effects of technology on culture, the economy, the environment, health, politics and more. If you like to stay up on current events, this class is for you. This class must be taken as an elective 8th course. (Note: It will not be listed in confirmed course requests.) Placement Considerations:

- ***Open to 11th and 12th grade students (Ryken students with Ryken Director approval)***
- ***Computer Studies department approval***

9211 - Yearbook

1.00 Credit

The objective of this class is to publish a one-hundred eighty-four page yearbook and a twenty-four page supplement using online technology. The course utilizes numerous programs including Word, Adobe Indesign, Online Creation, Yeartech, and indexing software. Students will learn copy writing, caption writing, digital imaging and photography. Placement Considerations:

- ***Open to 11th and 12th grade students***

9212 - Honors Yearbook II

1.00 Credit

The Honors Yearbook class will be composed of experienced student-editors who have successfully completed the Yearbook I course. Students will build on the reporting, photography, graphic design, and writing skills learned in Yearbook I. Students are responsible for drafting the theme and templates for our upcoming publication. They will assign and manage staff pages. They will manage the selling of senior ads. Editors are also expected to attend at least one yearbook workshop or conference provided by our yearbook publishing company. Placement Considerations:

- ***Open to 12th grade students***
- ***Successful completion of Yearbook***
- ***Computer Studies department approval***

General Electives

10014 - IB Theory of Knowledge I

1.00 Credit

This two-year course considers knowledge from a multi-disciplinary perspective. The objectives of Theory of Knowledge (TOK) reflect the interdisciplinary nature of the IB Program by examining mathematics, language, logic, and methodologies of disciplines from the sciences and the humanities. Conducted as an extended conversation, TOK engages students to explore their own perceptions, reasoning skills, language skills, and intuition. After examining a series of coordinating questions and readings, students must think, write, present, and discuss Ways of Knowing and Areas of Knowledge from both an academic and a personal perspective. During year one, students are introduced to the Ways of Knowing (perception, language, reason, and emotion), and build their inquiry base by investigating the roles of language and thought in knowledge, and the requirements of logical rigor for knowledge. Significant time will be dedicated to guiding students through the externally-assessed Extended Essay (EE) on a research topic and Creativity-Action-Service (CAS), both central Diploma Program requirements. Placement Considerations:

- *Required of all juniors seeking the IB Diploma*

10024 - IB Theory of Knowledge II

1.00 Credit

Year two examines the origin of, and relationships between, Areas of Knowledge (mathematics, natural and human sciences, and history), and subsequently explores value judgments and knowledge, focusing on moral, political, and aesthetic judgments. The final topic investigates the differences among belief, certainty, opinion, faith, knowledge, culture, truth and evidence, and how they connect or link to the Ways of Knowing and the Areas (or disciplines) of Knowledge. The three major deliverables required for year two are: completion of the Extended Essay initiated in year one (an externally assessed 1200-1600 word essay on an IBO-prescribed title that demonstrates the student's TOK thinking skills by analyzing and linking cultural products of the Ways of Knowing), and a 10-minute individual (or 30 minute group) internally assessed in-class presentation that addresses a real-life situation or contemporary problem with a view to demonstrating the student's understanding of knowledge at work in the world. Students will also be afforded specified time to finalize their Extended Essays and document CAS hours initiated in year one. During both years students will also be guided through IB course selection, examination registration, internal assessments, and, when feasible, will be provided time to work together on assignments from other IB courses. Placement Considerations:

- *Required of all seniors seeking the IB Diploma*

14111 - Accounting

1.00 Credit

This course is designed to help students understand the basic principles of accounting. Emphasis is placed on analysis of and the recording of business transactions, journal entries, general ledger, worksheets, preparing and interpreting financial statements, accounting systems, banking and payroll activities, basic types of business ownership, and an accounting career-orientation. Special emphasis will be given to the ethics and responsibilities of Accountants. The course will also cover concepts in the area of personal finance. Placement Considerations:

- *Open to 12th grade students*
