

2020 Highlights

Completion and opening of FutureForward at Washington Square, the district's second career and technical education campus.

Kitchen renovation and modernization at Vantage Point High campus.

Critical plumbing repair projects at six of the district's older schools (Malley Drive, Leroy, Hillcrest, McElwain and Rocky Mountain elementary schools, The Studio School and Hulstrom K-8).

Turf replacement project at North Stadium and new artificial surfaces at Horizon and Mountain Range high schools and Pathways Futures Center.

Start of roof replacement/restoration projects including BEST Grant-funded roof replacement at Thornton Middle School.

Completion of two-year renovation of district's original career and technical education campus, FutureForward at Bollman.

What's Still Ahead: Summer 2021

Final round of school interior renovation projections and safety upgrades (Coronado Hills, Meridian, Prairie Hills, Silver Creek and Stellar elementary schools, Silver Hills and Rocky Top middle schools, Mountain Range High School and Pathways Futures Center).

Completion of \$20 million, 100-mile district fiber network. Project will connect district schools and facilities on a district-managed network and meet the internet connectivity needs of the district for years to come.

Playground improvement projects (Eagleview and Coyote Ridge elementary schools).

Roof replacement/restoration projects at 10 district schools and facilities including a full roof replacement at Northglenn High School funded with a matching \$1.7M state BEST Grant.

Phase 1 of a \$6 million renovation of Five Star Stadium including new bleachers, upgrades to stadium facilities and new front entry.

Community Driven New Master Planning Process

Even as the 2016 Bond Program begins to reach its final phases, work has started on a plan to address the next generation of district programming and facility needs.

In Spring 2021, the district launched work to develop a new programming and facility master plan. The plan will serve as a road map for the district to include, not only the maintenance and upkeep of existing schools and facilities, but also the need for new facilities to meet the educational needs of students.

Creating a longer-term vision for our district schools and facilities through this plan will allow us to continue to address existing needs and provide educational space to support an ever-changing academic environment.

- Pat Hamilton, Chief Operations Officer
Adams 12 Five Star Schools

A completed master plan is tentatively scheduled to be finished in early 2022. The finished plan could be used as a foundation for the Five Star Schools Board of Education to consider presenting future bond funding proposals to district voters.

Want to be part of the Master Plan creation process?

Five Star Schools is looking for district parents and community members interested in joining its Long Range Planning and Advisory Committee (LRPAC).

As a parent with kids in three different Adams 12 schools, I thought a district-wide committee would be the best use of my limited time to be involved with and contribute towards the future success for all students across the district.

Having been on LRPAC for three years, I have seen many projects evolve from a need, to a plan, to an executed and positive result. The upcoming planning work for the next round of facility and infrastructure needs will be just as important.

- Kim Schafer, LRPAC Member

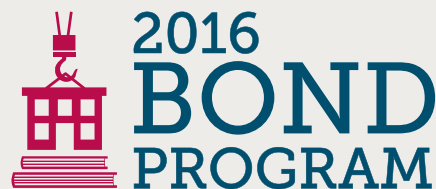

**Promises
Kept**

Bond work will complete in Summer 2022 with a final round of school roof replacement projects and any remaining bond-funded facility maintenance work. All projects outlined as part of the original bond plan will be completed as originally promised.

COMMUNITY UPDATE

SPRING 2021

Find out what we've been up to this last year and what's to come as we near the completion of our 2016 Bond Program projects.

Investing in every student, every school, every community
