Ms. Trevino introduced the new courses needing to be approved to add to the course catalog since they are part of the course sequences.

- WS AND SA agree/disagree add the offering of that course.

Actionable Item: Motion to accept: Mr. Romero and Mr. Acevedo

Ms. Trevino introduced the rollout of the District Needs Assessment Committees.

She gave out the assignments and schedule. We broke out into groups facilitated by L. Frausto, A. Odom, and N. Trevino

What are the purpose and outcomes that we want with the committees?

What is the Needs Assessment? There are multiple types of data to review and reflect upon within each committee. Thoughts to consider as we go through the process: What are the needs of the district that we need to focus on more? What are we doing to improve that? In each committee, we will brainstorm ideas to support student achievement. What are we doing to improve and retain our teachers? We want to make sure that we are providing the best quality of instruction for students. We will be meeting on March 31 and April 7th to complete the District Needs Assessment. We will be meeting at 5:30 p.m. Dinner will be provided. Meetings will be held in different sections of the BLA. These two meeting dates are **NON-EIC** meeting dates. These meetings are separate.

Motions to adjourn the meeting: Mr. Acevedo and Ms. Camarena
