NATATORIUM LIGHTNING ANNOUNCEMENT

The following announcement should be read:

A. When inclement weather is approaching the natatorium.

Attention everyone:

There is a high probability of inclement weather and lightning in this area. Spring Branch ISD uses Perry Weather to continuously monitor the lightning strikes within a 10, 20 and 30 mile radius of this location. At this time, Perry Weather has detected a lightning strike _____ miles from the natatorium. If Perry Weather detects a lightning strike within a 10 miles radius of the natatorium, then the match will be suspended for 30 minutes after the last strike is detected.

The following announcement should be read when teams are required to leave the pool:

Attention everyone:

The match has been suspended due to lightning strikes within 10 miles of the natatorium. We will have to suspend all swimming at the natatorium for at least 30 minutes after the last lightning strike is detected. The game administrators will continue to monitor Perry Weather and determine when it is safe to resume activity. Thank you for your cooperation.

Inspiring minds. Shaping lives.

Dr. Jennifer Blaine, Superintendent of Schools
