

# BENEFITS OF ENROLLING

Part of financial health involves knowing how much you need in retirement. Your Public Employees' Retirement System of Mississippi (PERS) benefits may not be enough, so consider supplementing your future savings through the Mississippi Deferred Compensation Plan (MDC).

## Here are 10 reasons to start today:

- 1 It's automatic and controlled by you**  
You choose the amount you want to save, and contributions are automatically deducted from your paycheck, which makes it easier to plan, save, and budget. And you can change, stop, or restart your contributions at any time.
- 2 It probably costs less than you think**  
You can start saving with as little as \$25 per month. Since your contributions are deducted from your pay before taxes, whatever amount you decided to save may actually affect your take-home pay less than you think. See the chart below.

	Without MDC	With MDC
Gross monthly salary	\$2,500.00	\$2,500.00
MDC monthly plan contribution	\$0.00	(\$25.00)
Taxable salary	\$2,500.00	\$2,475.00
Federal income tax withholding	(\$210.31)	(\$206.56)
MS income tax withholding	(\$77.92)	(\$76.67)
FICA and Medicare	(\$191.25)	(\$191.25)
<b>Take-home pay</b>	<b>\$2,020.52</b>	<b>\$2,000.52</b>

**Difference in take-home pay = \$20**

FOR ILLUSTRATIVE PURPOSES ONLY. The above hypothetical example assumes a salary of \$30,000, a contribution of \$25 per month and federal/Mississippi tax withholding based on a filing status of single with one dependent.

- 3 Give yourself some credit**  
You may be eligible for an IRS Saver's Credit on the first \$2,000 you contribute to MDC, based on your adjusted gross income and tax filing status. This is a potential benefit at tax time!
- 4 Starting early makes a difference**  
Waiting could impact how much you'll have for retirement. Starting early and making a small change in the amount you contribute could make more of a difference at retirement, as you can see in the chart below.

Age at which you start	\$25 per month	\$50 per month
25	\$49,787	\$99,575
26	\$46,604	\$93,209
30	\$35,618	\$71,236
40	\$17,325	\$34,650

FOR ILLUSTRATIVE PURPOSES ONLY. This hypothetical example is not intended as a projection or prediction of future investment results. It is intended to show how the number of years invested in the Plan could affect participant account values. It assumes monthly contributions, an annual 6 percent hypothetical rate of return, reinvestment of earnings, retirement age of 65, and no withdrawals. The illustration does not reflect any charges, expenses or fees that may be associated with the Plan. The tax-deferred accumulation shown above would be reduced if these fees had been deducted. Rates of return may vary.

- 5 Lower expenses**  
With MDC, you may have the potential for lower investment management expenses. Lower fees mean more of your contributions can work for you.

### Investment assistance

MDC provides a variety of investment choices so you can build the right mix for your future. If you lack the time or interest in choosing your own investments, MDC offers target date funds that can help with your investment decisions. MDC also offers Online Advice, offered by Advised Assets Group, LLC, a registered investment adviser. This service can help you identify how much you should save, which investment options you should choose, and what your retirement income may look like. It is provided at no additional cost to you as a participant in MDC.

There is no guarantee provided by any party that participation in any of the advisory services will result in a profit.
