INDEPENDENT AUDITOR'S REPORT

The Board of Education
Barre Unified Union School District #97

Report on the Audit of the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Barre Unified Union School District #97 (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and the Central Vermont Career Center Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules 1 and 2 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 9, 2023, on our consideration of the District's internal control over financial reporting; on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements; and on other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2022**

The management's discussion and analysis (MD&A) of Barre Unified Union School District #97 (the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the independent auditor's letter, the basic financial statements, the notes to the financial statements, and the supplementary information to enhance their understanding of the District's financial performance.

Please note that this is the third audit of the merged District. On November 30, 2018 the State Board of Education directed the Barre Supervisory Union, Barre City School District, Barre Town School District, and Spaulding Union High School District/Central Vermont Career Center to merge into this District under Act 46. This transition took place smoothly.

Unfortunately, due to failed votes in Barre Town, the District was not able to benefit from the incentives under Act 46 which would have assisted the transition and would have provided the tax payers with substantial savings over a 10 year period.

Financial Highlights

Key financial highlights for the year ended June 30, 2022, are as follows:

- The financial statements as of June 30, 2022 reflect the government-wide net position increase of approximately \$2,763,104. The net position of governmental activities increased \$2,747,724, the business-type activities increased \$6,350, and the component unit increased by \$9,030.
- Government-wide revenues totaled \$65.6 million. General revenues accounted for \$36.8 million or 56.1% of total revenues. Program revenues in the form of charges for services, grants, contributions, and other sources accounted for \$28.8 million or 43.9% of total revenues.
- The District had \$62.8 million in expenses related to governmental activities; \$28.8 million of these expenses were offset by program-specific charges for services, grants, contributions, and other sources. General revenues (primarily taxes and subsidies) of \$36.8 million were sufficient in funding the remaining cost of programs which increased governmental activities net position by \$2,747,724.
- Among the governmental funds, the General Fund and the Central Vermont Career Center Fund had \$57.1 million in revenues and \$55.2 million in expenditures. These two funds also had \$0.9 million in net other financing uses (consisting of transfers out, an insurance recovery, and proceeds from a lease). The General Fund's fund balance increased by \$820,815. The Central Vermont Career Center Fund's fund balance increased by \$192,981.

Using this Annual Report

The District's annual report consists of a series of financial statements and notes to those statements that show information for the District as a whole, its various funds, and its fiduciary responsibilities. The statements are organized in a manner so that the reader might understand the District. First, the statements show the District as a financial whole by presenting information on a government-wide basis. Then, the statements provide the reader with a detailed look at specific financial activities of the District.

The first two statements are the Government-Wide Statement of Net Position and the Government-Wide Statement of Activities. These statements provide information about the financial status and operations of the entire District.

Fund financial statements provide the next level of detail, showing the District's most significant funds in separate columns and non-major funds totaled in one column. For governmental funds, these statements tell how the services were financed in the short-term as well as what remains for future spending. Proprietary fund statements show the financial information for activities operated like a business: the Adult Education Fund, and Building Trades Fund. Fiduciary fund statements present information for relationships where the District acts solely as a trustee or agent of the party to whom the resources belong.

The notes to financial statements further explain the information presented in the financial statements and provide more detailed data. The notes are an integral part of the financial statements. The notes are followed by a section of supplementary information that further explains and supports the financial statements with additional post-employment benefits plan information.

Reporting the District as a Whole

The analysis of the District as a whole in the MD&A begins on page 6. While this report contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "Is the condition of the District better or worse as a result of the operations during the school year?" The government-wide statements, which begin on page 11, present information about the District as a whole in a way that helps to answer this question. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. Both statements are prepared on the accrual basis of accounting, which is similar to the method used by most private sector companies.

The government-wide statements report the District's net position. Assets plus deferred outflows of resources less liabilities and deferred inflows of resources, as reported in the Statement of Net Position, are one way to measure the District's financial health, or net position. Over time, increases or decreases in the District's net position, as reported in the statement of activities, are used as one indicator of whether the District's financial health is improving or deteriorating. The District exists to provide services, primarily educational, to its students so it does not have the profit-generation goal of private-sector companies. For this reason, the reader must also consider nonfinancial factors, such as the quality of the education provided, when assessing the *overall* health of the District.

In the government-wide financial statements, the District's activities are divided into three categories:

- *Governmental Activities* - Most of the District's programs and services are reported under this category including instruction, support services, operation and maintenance of plant services, pupil transportation, and extracurricular activities. These activities are primarily financed by property taxes, subsidies and grants from the federal and state governments.
- *Business-Type Activities* - The District operates an adult education program whereby it charges students, staff, and other users in order to cover the costs of the services provided. The District also operates a building trades program, which is funded by proceeds from house sales.
- *Component Unit* - The District has identified the Spaulding High School Foundation, LTD. (SHS Foundation) as a discretely presented component unit in accordance with GASB Statement No. 61, *The Financial Reporting Entity Omnibus*. Component units are legally separate entities that are included in the District's financial statements due to fiscal dependency or common management. In the case of the SHS

Foundation, it is a legally separate nonprofit entity. The relationship between the SHS Foundation and the District includes a financial benefit, as the intent of the SHS Foundation is to support the District. The SHS Foundation is reported in a separate column in the District’s government-wide financial statements.

Reporting the District’s Most Significant Funds

The analysis of the District’s major funds begins on page 8. The fund financial statements, which provide detailed information about the most significant funds, not the District as a whole, begin on page 14. The District’s funds are divided into three broad types - governmental, proprietary and fiduciary. Each type of fund uses a different accounting approach.

- *Governmental Funds* - Most of the District’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental fund statements provide a detailed short-term view of the District’s general government operations and the basic services it provides. Governmental fund information is used to determine whether there are more or less financial resources that can be spent in the near future to finance District programs. The relationship (or differences) between governmental activities (as reported in the statement of net position and the statement of activities) and governmental funds is described in the financial statements on pages 16 and 19.
- *Proprietary Funds* - Proprietary funds (described on pages 23 through 25) consist solely of activities treated as business-type activities in the government-wide financial statements. Since the same basis of accounting is used by proprietary funds and business-type activities, the information presented in total is essentially the same. The fund financial statements do provide some additional detail and information, such as cash flows.
- *Fiduciary Funds* - The District acts as fiscal agent for certain student groups and other outside groups. This activity is reported separately by the District. All of the District’s fiduciary activities are reported in a separate statement on pages 26 and 27. These activities are excluded from the District’s other statements because the District cannot use these assets to finance its operations and does not control these assets.

Financial Analysis of the District as a Whole

Recall that the statement of net position provides the perspective of the District as a whole (primary government and component unit). The Table below provides the District’s net position at June 30, 2022 and June 30, 2021, respectively.

	<u>2022</u>		<u>2021</u>		<u>Net Change</u>
Assets					
Current assets	\$ 10,371,881	\$	8,938,209	\$	1,433,672

Total Net Position	\$ <u>18,379,290</u>	\$ <u>15,742,973</u>	\$ <u>2,636,317</u>

The District's net position consists of \$12.4 million invested in capital assets (such as buildings, and land). The restricted net position of \$4.1 million consists of the balances in capital projects funds that are voter committed for capital projects and tax stabilization, as well as restricted amounts for the Central Vermont Career Center Fund, restricted Grant Funds, restricted Food Service funds, and Other Special Revenue Fund restricted fund balances. The unrestricted net position of \$1.9 million is primarily made up of unassigned and assigned amounts in the General Fund and Capital Projects Fund.

The results of this year's operations as a whole are reported in the statement of activities on page 13. All expenses are reported in the first column. Specific charges, grants, revenues, and subsidies that directly relate to specific expense categories are listed as program revenues in the second, third, and fourth columns. The fifth and sixth columns show the amount of the District's governmental and business-type activities, respectively, that must be supported by general revenues and transfers. The eighth column shows amounts relating to the SHS Foundation component unit. The District's largest general revenue is the education spending grant. The table below takes the information from the statement of activities and rearranges the line items slightly to display total revenues for the year.

	<u>2022</u>	<u>2021</u>	<u>Net Change</u>

Change in Net Position	\$ <u>2,763,104</u>	\$ <u>3,246,428</u>	\$ <u>(483,324)</u>

The table above shows that total revenues were more than total expenses for the District as a whole by \$2,763,104 for the year ended June 30, 2022. It should be noted that although the District is required to present government-wide information using the accrual basis of accounting, as detailed above, the District must still prepare its budgets and report its operations under the modified accrual basis of accounting used in the fund financial statements. Operations in relation to the District's budget will be discussed later in this report under the "Financial Analysis of the District by Funds" section.

The statement of activities breaks the expenses of the District into functions or programs. These expenses are offset by related revenues (charges for services, grants, and contributions) before the general revenues of the District are applied.

The dependence upon local taxes for governmental activities is apparent. Program revenue provides only 52.3% of the funding needed for instruction, the major program area of the District. Even if all of the unrestricted grants, subsidies, and contributions are used toward instruction, there remains a need for more than \$26.2 million of the funding for instruction to come from local taxes and other general revenues.

Financial Analysis of the District by Funds

As previously noted, the District uses a number of funds to control and manage resources for particular purposes. Information about the District's major governmental funds starts on page 14. These funds are accounted for using the modified accrual basis of accounting. Combined, the governmental funds had total revenues of \$65.5 million, and expenditures of \$64.0 million. The net change in fund balance for the year was an increase of \$1,768,367. The increase in fund balance is primarily related to strong grant funding and reduced operating costs due to the COVID pandemic. In addition workforce shortages has also contributed to the fund balance.

The general fund increased its fund balance by \$820,815 to a balance of \$2,350,301. The District had budgeted to utilize \$600,000 in prior year fund balance. The positive variance is attributed to total expenditures falling significantly below estimates.

Nonspendable fund balance in the amount of \$8,910 corresponds with the inventory amount included in assets. Restricted fund balance in the amount of \$2,160,129 is the fund balance for the Central Vermont Career Center Fund, Grant Funds, Food Service Fund, and Other Special Revenue Fund. The District's voters have committed \$317,605 for future capital projects and \$1,557,962 for tax stabilization. Remaining Board assigned fund balance of \$700,000 related to budgeted utilization during the year ending June 30, 2023, and \$537,132

was assigned for future capital projects. The District reported a remaining General Fund unassigned fund balance of \$1,650,301.

Long-term Debt

As of June 30, 2022, the District had an obligation to repay debt of \$4,663,821. The District is indebted to the Vermont Municipal Bond Bank for a 2021 series 1 bond which matures in December 2036. The two other notes mature in August 2028, and July 2026.

Financial Highlights

The District's budget is prepared according to Vermont law and is based on the modified accrual basis of accounting. The funds with a formally adopted budget are the General Fund, and the Central Vermont Career Center Fund. General Fund and Central Vermont Career Center Fund budget to actual statements can be found on pages 20 through 22 of this report.

Total General Fund revenue from all sources was \$709,866 lower than budgeted. Expenditures were \$2,668,929 lower than budgeted. The end result is that the District added \$820,815 to its fund balance.

Relative to the budget, the following significant variations occurred during the fiscal year:

- The District budgeted to utilize \$600,000 of excess fund balance from prior years to cover expenditures and those funds did not need to be utilized in the current year. They will be carried over to future years.
- State grant revenues were lower than anticipated but were offset by savings in expenditures.
- Federal grant revenues were higher than anticipated but were offset by related expenditures.
- Tuition revenue exceeded the anticipated budget by \$67,436. This resulted from a higher number of students from sending districts than was anticipated.
- Direct instruction and special education expenditures were less than anticipated due to a decrease in anticipated salaries, wages and benefits due to staffing shortages. In spite of advertising consistently, finding special education professionals and support staff has been difficult.

The Central Vermont Career Center Fund's expenditures were less than revenues in fiscal year 2022 and caused an increase in fund balance for the year of \$192,981. Revenues and expenditures vary from the operating budget, as shown on the Statement of Revenues and Expenditures - Budget and Actual - Central Vermont Career Center Fund. Management has reviewed and reported these variances to the District's Board and finds them to be acceptable. Certain budget to actual variances are described below:

- Revenues:

The Central Vermont Career Center Fund's revenue was below budget by \$27,390 due to a decrease in state grant revenue compared to what was budgeted. Certain programs did not operate in a complete manner due to COVID-19 therefore, this resulted in a decrease in revenue.

Intergovernmental - State: This was \$67,787 lower than the budget due to decreased activity in the program overall.

- Expenditures:

Vocational education: This area shows the largest variance of \$134,079. The majority of the difference was due to fewer students attending outside vocational programs.

The District's combined fund balance for the General Fund and Central Vermont Career Center Fund at June 30, 2022 was \$2,702,036.

The District's Future

The District has one of the lowest per pupil spending compared to other schools in Vermont. The District will likely not be able to continue to sustain this low spending in future years because of collective bargaining agreement increases as well as the double-digit health insurance increases over the past 3 years. The unfunded legislative, associations, and agency of education mandates continue to present a financial hardship to this District. One example is 16 V.S.A. 19444d, Employer Annual Charge for Teacher Health Care. This is an annual assessment paid to the State of Vermont Office of the State Treasurer for teachers new to the retirement system on July 1, 2015. The District paid \$182,082 in fiscal year 2022 and this number will continue to increase exponentially each year. In addition, Act 11 of 2018 resulted in the arbitrator choosing the Vermont NEA's proposal which has had significant impact, increasing the cost of health insurance benefits to the District. Student enrollment continues to decline as well, causing equalized pupil counts to decrease year over year.

The COVID-19 pandemic has challenged districts across Vermont. Barre received Coronavirus Relief Funds and ESSER funding which helped to supply our staff and students with PPE as well as resources to learn remotely. The District remains committed to providing students and staff with the resources that will provide them a quality education.

The Board Chair advocated for the development of a Vision, Mission, and Strategic Plan for the District. A Design Team was convened and worked with many stakeholders to create this plan with the focus on students, staff, and community. "Our strategic plan guides the work of every member of our community."

While focusing on educational advancement, the District has also emphasized the need to have appropriate facilities because the District believes that the school environment also impacts good education. The District continues to maintain all buildings and grounds with safety and aesthetically pleasing environment in mind. In addition, the District reached out to voters on March 6, 2020 seeking approval to acquire property and to build an alternative school. The current program was in a leased building during the year ended June 30, 2021. This new facility named Spaulding Educational Alternatives (SEA) had an enrollment of 40-45 students in FY22 and increased that number currently to 45-50. The overall goal is to serve 60 students. With the program in its 2nd year, administration and staff are looking at creative ways, including staggered schedules, to serve this higher number of students which will hopefully incorporate middle school students. This program is a huge success for the District as it increases opportunities for students, and reduces the cost of sending students out of our community to expensive independent programs. In addition, in FY23 the District was awarded approval by the AOE to utilize ARP ESSER funds to upgrade the HVAC system and install a sprinkler system in the remaining areas of the Spaulding High School. These projects along with a lighting upgrade is taking place during FY23 and FY24. The District is being proactive as it prepares for the mandated discontinued use of fluorescent light bulbs.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS
FOR THE YEAR ENDED JUNE 30, 2022

(Page 3 of 3)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES:

Net change in fund balances - total governmental funds	\$ 1,768,367
Amounts reported for governmental activities in the Government-wide Statement of Activities are different because -	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation or amortization expense.	
Additions to capital assets, net of dispositions	2,075,606
Depreciation	(1,374,441)
Additions to lease assets, net of dispositions	210,945
Amortization	(94,246)
The issuance of long-term debt (bonds, leases, etc.) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position.	
Proceeds from lease	(210,945)
Principal payments on long-term debt	289,040
(Increase)/decrease in accrued interest on long-term debt	6,181
Principal payments on lease	92,192
Changes in other post-employment benefits accumulated by employees will increase or decrease the liability reported in the government-wide statements, but are only recorded as an expenditure when paid in the governmental funds.	
(Increase)/decrease in accrued compensated absences	27,047
Changes in net pension asset or liability and related deferred outflows/inflows of resources will increase or decrease the amounts reported in the government-wide statements, but are only recorded as an expenditure when paid in the governmental funds.	
Net (increase) decrease in net pension obligation	<u>(42,022)</u>
Change in net position of governmental activities - Government-wide Statement of Activities	\$ <u>2,747,724</u>

BARRE UNIFIED UNION SCHOOL DISTRICT #97
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

1. Summary of significant accounting policies:

The Barre Unified Union School District #97 (the District) is organized according to State law under the governance of the Board of Education (the Board) to provide public education to preschool through 12th grade students across two communities: Barre City and Barre Town, Vermont. The District operates three schools serving approximately 2,500 students including the Central Vermont Career Center, Barre. Students from other districts attend the schools by tuition arrangements.

- A. Reporting entity - The District is a primary unit of government under reporting criteria established by the Governmental Accounting Standards Board (GASB). Those criteria include a separately elected governing body, separate legal standing, and fiscal independence from other state and local governmental entities.

Spaulding High School Foundation, LTD. - The District identified the Spaulding High School Foundation, Ltd. (SHS Foundation) as a discreetly presented component unit for the year ended June 30, 2022. The SHS Foundation is a legally separate nonprofit entity from the District. The relationship between the SHS Foundation and the District includes a financial benefit, as the intent of the SHS Foundation is to support the District. The SHS Foundation is reported in a separate column in the District's government-wide financial statements. The notes to the financial statements focus on the District as the primary government.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing *Governmental Accounting and Financial Reporting Standards* which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes U.S. GAAP for governmental units.

- B. Government-wide and fund financial statements - The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

In the government-wide Statement of Net Position, the financial position of the District is consolidated and incorporates capital assets as well as all long-term debt and obligations. The government-wide Statement of Activities reflects both the gross and net costs by category. Direct expenses that are clearly identifiable with the category are offset by program revenues of the category. Program revenues include charges for services provided by a particular function or program and grants that are restricted to meeting the operational or capital requirements of the particular segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds, if any, are summarized in a single column.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

1. Summary of significant accounting policies (continued):

- C. Basis of presentation - The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows/inflows of resources, fund balances or net position, revenues, and expenditures or expenses, as appropriate.

The District reports the following major governmental funds:

General Fund - The General Fund is the primary operating fund of the District. It is used to account for all financial resources, except those required to be accounted for in another fund.

Central Vermont Career Center Fund - This fund is the operating fund of the Central Vermont Career Center, Barre, which provides career focused programs for the District.

Grant Funds - This fund is used to account for the proceeds of specific revenue sources related to federal, state and local grants that are restricted to expenditures for specified services.

Food Service Fund - This fund is used to account for the operations of the food service program. The food service program provides lunches for the students of the District.

Other Special Revenue Fund - This fund is used to account for the specific revenue sources of the District's after school program and other restricted funds received by outside donors or certain grantors.

Capital Projects Fund - This fund is used to account for the acquisition or construction of major capital facilities.

Tax Stabilization Fund - This fund is used to account for resources that are voter committed for future use.

The District reports the following major proprietary funds:

Adult Education Fund - This fund is used to account for tuition received from adult graduates and other resources for further education.

Building Trades Fund - This fund is used to account for the construction and sale of homes built by students.

The District also reports fiduciary funds which are used to account for assets held in a custodial capacity (Custodial Funds) for the benefit of parties outside of the District. The District's fiduciary funds are the Custodial Funds.

- D. Measurement focus and basis of accounting - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

BARRE UNIFIED UNION SCHOOL DISTRICT #97
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

1. Summary of significant accounting policies (continued):

D. Measurement focus and basis of accounting (continued) -

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become both measurable and available. "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures generally are recorded when the fund liability is incurred, if measurable, as under accrual accounting. However, debt service expenditures are recorded only when payment is made.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

- E. Budgets and budgetary accounting - The District adopts annual budgets for the General Fund, and the Central Vermont Career Center Fund at an annual meeting. The accounting method used for the budget presentation varies from U.S. GAAP as described in note 9. Formal budgetary integration is employed as a management control during the year for the General Fund, and the Central Vermont Career Center Fund. The District does not legally adopt budgets for other governmental funds. All budgeted amounts lapse at year end.

Transfers of budgeted amounts between line items require approval of management. The budgets are presented in these financial statements. Board approval is required for interfund transfers and budget transfers between personnel and operating costs.

- F. Use of estimates - The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred outflows/inflows of resources as well as disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.
- G. Risk management - The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and others; environmental liability; and natural disasters. The District manages these risks through commercial insurance packages and participation in public entity risk pools covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. There were no settlements in excess of the insurance coverage in any of the past three fiscal years.
- H. Cash, cash equivalents and investments - The District considers all cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition to be cash and cash equivalents. Investments and unrealized gains and losses are reflected in the individual fund and government-wide financial statements. Investments of the District are reported at fair value using quoted prices in active markets for identical assets. This is considered a level 1 input valuation technique under the framework established by U.S. GAAP for measuring fair value. The

BARRE UNIFIED UNION SCHOOL DISTRICT #97
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

1. Summary of significant accounting policies (continued):

H. Cash, cash equivalents and investments (continued) -

District does not own investments valued with level 2 or level 3 inputs, which would use quoted prices for similar assets, or in inactive markets, or other methods for estimating fair value.

I. Inventory - Inventory is valued using the average cost method. Inventory is recorded as an expense when consumed rather than when purchased.

J. Prepaid items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

K. Capital assets - Capital assets, which include land, buildings, equipment, vehicles and infrastructure, are reported in the applicable governmental or business-type activities column of the government-wide financial statements and in the proprietary fund financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The District does not retroactively report infrastructure assets. There have been no infrastructure additions since the implementation of GASB Statement No. 34. Donated capital assets are recorded at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are constructed. Net interest costs are capitalized on projects during the construction period. Normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's life are not capitalized. Capital assets are depreciated using the straight-line method over the useful lives shown below.

Land improvements	5 - 50 years
Buildings and improvements	5 - 50 years
Equipment and fixtures	3 - 20 years
Vehicles	5 years
Software	3 - 5 years

L. Deferred outflows/inflows of resources - In addition to assets and liabilities, deferred outflows of resources and deferred inflows of resources are reported as separate sections in the applicable statement of net position or balance sheet. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources in the current period. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources in the current period.

M. Accrued compensated absences - The District allows employees to accrue sick leave benefits based on the terms of their employment contract. Teachers are eligible to receive \$15 per day of accrued sick leave up to 100 days at termination. Para-educators employed 15 years or more are eligible to receive \$20 per day for unused accumulated sick leave up to a maximum of 100 days. Accrued compensated absences at June 30, 2022 of \$149,230 have been recorded as a noncurrent liability in the Government-wide Statement of Net Position but not in the fund financial statements.

BARRE UNIFIED UNION SCHOOL DISTRICT #97
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

1. Summary of significant accounting policies (continued):

N. Long-term obligations - Governmental activities, business-type activities, and proprietary funds report long-term debt and other long-term obligations as liabilities in the applicable statement of net position. Governmental funds report the amount of debt issued as other financing sources and the repayment of debt as debt service expenditures.

O. Fund equity - In the fund financial statements, governmental funds may report five categories of fund balances: nonspendable, restricted, committed, assigned and unassigned.

Nonspendable fund balance includes amounts associated with inventory, prepaid expenditures, long-term loans or notes receivable, and trust fund principal to be held in perpetuity.

Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed fund balance includes amounts that can be used only for specific purposes determined by the District's highest level of decision making authority, the voters, as a result of articles passed at Annual or Special Meetings.

Assigned fund balance includes amounts that are intended to be used by the District for specific purposes as authorized by the Board.

Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in another classification. Deficits are also classified as unassigned.

The District's policy is to apply expenditures to fund balance in the order of restricted, committed, assigned and unassigned unless the Board specifies otherwise.

P. On-behalf payments - The State of Vermont makes payments on behalf of the District's teachers to the Vermont State Teachers' Retirement System (VSTRS) for pension and other postemployment benefits (OPEB). The District recognizes these on-behalf payments as intergovernmental grant revenues and education expenses or expenditures, as appropriate, in the government-wide financial statements and in the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds. The amounts are not budgeted and have been excluded from the budget basis statements; see note 9 for reconciling details.

Q. New accounting standards - The District has implemented GASB Statement No. 87, *Leases*. This statement improves accounting and financial reporting for leases by state and local governments. The impact on these financial statements is the presentation of the District's leases for vehicles, and equipment which have been reported in accordance with GASB Statement No. 87.

2. Deposits:

Custodial credit risk - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk. As of June 30, 2022, \$116,667 of the District's deposits were uninsured and uncollateralized.

In the event of default by the District outstanding debt balances become immediately due. The District has committed to pay its debt obligations with future budgeted appropriations funded with education taxes or other resources that can be lawfully used to pay these expenditures. Additionally, in the event the District is in default on their payment obligations issued from the Vermont Municipal Bond Bank (VMBB), the State Treasurer has the ability to intercept State funding until the default is cured.

8. Leases:

The District has entered into agreements that meet the reporting criteria of a lease in accordance with GASB Statement No. 87, *Leases*. The restatement of the government-wide financial statements to report beginning balances of the lease asset and related lease liability, increased the beginning government-wide net position by \$356. Lease assets and lease liabilities activity for the year ended June 30, 2022 are as follows:

10. Pension plans:

Vermont State Teachers' Retirement System -

Plan description: The District participates in the Vermont State Teachers' Retirement System (VSTRS or the Plan), a cost-sharing multiple-employer defined benefit public employee retirement system with a special funding situation in which the State of Vermont contributes to the Plan on-behalf of the participating employers. The Plan was created in 1947, and is governed by Title 16, V.S.A. Chapter 55. It covers nearly all teachers and school administrators in schools supported by the State. The general administration and responsibility for the proper operation of VSTRS is vested in a Board of Trustees consisting of eight members. VSTRS issues annual financial information which is available and may be reviewed at the VSTRS' office, 109 State Street, Montpelier, Vermont, 05609-6200, by calling (802) 828-2305 or online at <http://www.vermonttreasurer.gov>.

Benefits provided: The Plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are based on the number of years of creditable service and are determined as a percentage of average final compensation in the three highest consecutive years of service. Eligibility for benefits requires five years of service.

10. Pension plans (continued):

Vermont State Teachers' Retirement System (continued) -

Contributions: Member teachers are required to contribute 5.5% (Group A); or 5.0% (Group C if the member has five or more years of service at July 1, 2014); otherwise 6.0% (Group C) of their annual covered salary and the State contributes the balance of an actuarially determined rate. The State is a nonemployer contributor to the Plan and is required by statute to make all actuarially determined employer contributions on-behalf of member employers. The District's teachers contributed \$1,077,353, \$1,044,552, and \$1,027,947 to the System in 2022, 2021 and 2020, respectively.

Pension liabilities and pension expense: The District does not contribute directly to the Plan; therefore, no net pension liability needs to be recorded by the District. However, the District is required to report the District's portion of the following items as calculated by the System:

District's share of		
VSTRS net pension liability	\$	43,787,742
VSTRS net pension expenditure	\$	5,864,011

Vermont Municipal Employees' Retirement System -

Plan description: The District contributes to the Vermont Municipal Employees' Retirement System (VMERS or the Plan) a cost-sharing multiple-employer public employee retirement system with defined benefit and defined contribution plans, administered by the State of Vermont. The State statutory provisions, found in Title 24, Chapter 125, of the V.S.A., govern eligibility for benefits, service requirements and benefit provisions. The general administration and responsibility for the proper operation of VMERS is vested in the Board of Trustees consisting of five members. VMERS issues annual financial information which is available and may be reviewed at the VMERS' office, 109 State Street, Montpelier, Vermont, 05609-6200, by calling (802) 828-2305, or online at <http://www.vermonttreasurer.gov>.

Benefits provided: VMERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits do vary between the groups included in the Plan, but are determined for the members of each group as a percentage of average compensation in certain number of the highest consecutive years of service. Eligibility for benefits requires five years of service.

Contributions: Defined benefit plan members are required to contribute 3.25% (Group A), 5.625% (Group B), 10.75% (Group C) or 12.1% (Group D) of their annual covered salary, and the District is required to contribute 4.75% (Group A), 6.25% (Group B), 8.0% (Group C) or 10.6% (Group D) of the employees' compensation. Defined contribution plan members are required to contribute 5.0% of their annual covered salary and the District is required to contribute an equal dollar amount. The contribution requirements of plan members and the District are established and may be amended by the Board of Trustees. The District's contributions to VMERS for the years ended June 30, 2022, 2021 and 2020 were \$139,458, \$120,570 and \$120,273, respectively. The amounts contributed were equal to the required contributions for each year.

10. Pension plans (continued):

Vermont Municipal Employees' Retirement System (continued) -

Pension liabilities, deferred outflows of resources, deferred inflows of resources: These financial statements include the District's proportionate share of the VMERS net pension liability, deferred outflows of resources for pension expense, deferred inflows of resources from investment earnings and contributions, and the related effects on government-wide net position and activities. The State of Vermont has provided the following information to all employers participating in VMERS, which is based on its calculation of the District's 0.5403% proportionate share of VMERS.

Districts's share of VMERS net pension liability	\$ 795,230
Deferred outflows of resources - Deferred pension expense	\$ 1,011,935
Deferred inflows of resources - Deferred pension credits	\$ 1,059,828

Additional information: VMERS obtains an annual actuarial valuation for the pension plan. Detailed information is provided in that report for actuarial assumptions of inflation rates, salary increases, investment rates of return, mortality rates, discount rates, and the calculations used to develop annual contributions and the VMERS net position.

The District adopted GASB Statement No 68 in fiscal year 2015 and is developing the ten years of required supplementary information in schedules 1 and 2. This historical pension information includes the District's Proportionate Share of Net Pension Liability of VMERS and District's Contributions to VMERS.

403(b) Non-Teaching Employees' Retirement Plan -

Plan description: District employees who are at least 21 years old and not covered under the Vermont State Teachers' Retirement System or the Vermont Municipal Employees' Retirement System are eligible to be covered under a 403(b) pension plan administered through Empower Retirement. The District contributes at various rates for certain classes of employees. In addition, any employee of the District may voluntarily contribute to this Plan; however, the District will not match these contributions. All contributions are 100% vested to each employee. At June 30, 2022, there were 219 plan members from the District.

Funding policy: The District pays all costs accrued each year for the Plan. Total contributions for the year ended June 30, 2022 were \$6,123,961 by the employees and \$1,278,065 by the District.

11. Other postemployment benefit (OPEB) plan:

Retired Teachers' Health and Medical Benefit Fund -

Plan description: The District participates in the Retired Teachers' Health and Medical Benefit Fund of the Vermont State Teachers' Retirement System (VSTRS), which provides postemployment benefits to eligible retired employees through a cost-sharing, multiple-employer postemployment benefit plan (the Plan). The Plan covers nearly all public day school and nonsectarian private high school teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State that are controlled by the State Board of Education. Membership in the Plan for those covered classes is a condition of employment.

11. Other postemployment benefit (OPEB) plan (continued):

Retired Teachers' Health and Medical Benefit Fund (continued) -

Vermont Statute Title 16 Chapter 55 assigns the authority to VSTRS to establish and amend the benefit provisions of the Plan and to establish maximum obligations of the plan members to contribute to the Plan. Management of the Plan is vested in the Vermont State Teachers' Retirement System's Board of Trustees, consisting of eight members. The Plan issues annual financial information which is available and may be reviewed at the State Treasurer's office, 109 State Street, Montpelier, Vermont, 05609-6200, by calling (802) 828-2305 or online at <http://www.vermonttreasurer.gov>.

Benefits provided and eligibility: The Plan provides medical and prescription drug benefits for plan members and their spouses; retirees pay the full cost of dental benefits. Benefits are based on the number of years of creditable service. Eligibility requirements are summarized below:

Group A - Public school teachers employed within the State of Vermont prior to July 1, 1981 and elected to remain in Group A qualify for retirement at the attainment of 30 years of service or age 55.

Group C - Public school teachers employed within the State of Vermont on or after July 1, 1990. Teachers hired before July 1, 1990 and were Group B members in service on July 1, 1990 are now Group C members, and qualify for benefits at the age of 65, or age plus creditable service equal to 90, or age 55 with 5 years of creditable service. Grandfathered participants are Group C members who were within five years of normal retirement eligibility as defined prior to July 1, 2010, and qualify for benefits at the attainment of age 62, or 30 years of service, or age 55 with 5 years of service.

Vesting and Disability - Five years of creditable service. Participants who terminate with 5 years of service under the age of 55 may elect coverage upon receiving pension benefits.

Total OPEB liability: The State of Vermont is a nonemployer contributing entity and is presently the sole entity required to contribute to the Plan. The District does not contribute to the Plan; therefore, no net OPEB liability needs to be recorded by the District. However, the District is required to report the District's share of the Plan's net OPEB liability (\$35,215,681) and OPEB expense (\$2,527,417) as determined by an actuarial valuation. The liability was measured as of June 30, 2021 for the reporting period of June 30, 2022.

Sensitivity of the total OPEB liability: A change in assumptions can have a large effect on the estimated OPEB obligation. A decrease of 1% in the 2.20% discount rate used to calculate future costs would increase the District's share of OPEB liability to \$41,669,167, while an increase of 1% would reduce the District's share of OPEB liability to \$30,071,140. A decrease of 1% in the current healthcare cost trend rate would reduce the District's share of OPEB liability to \$29,174,707, while an increase of 1% would increase the District's share of OPEB liability to \$43,210,241.

Collective OPEB Plan liability and expense: The Plan's collective net OPEB liability is \$1,275,587,042 and total OPEB expense for the year is \$75,721,839.

Actuarial assumptions and other inputs: The total OPEB liability used the actuarial assumptions detailed on the following page, applied to all periods included in the measurement, unless otherwise specified.

12. Restatements:

The District has restated beginning fund balance in the General Fund from \$1,814,807 to \$1,529,486 due to a \$48,365 overstatement of accounts receivable at June 30, 2021, a \$111,608 understatement of accounts payable at June 30, 2021, and a \$125,348 overstatement of a bank account due to an outstanding reconciling item that should have been cleared during a year prior to the year ended June 30, 2022.

The District has restated beginning fund balance in the Grant Funds from \$474,759 to \$340,365 due to a \$8,770 amount for restricted donations at June 30, 2021 that was moved to the Other Special Revenues Fund, and a \$125,624 amount relating to the Fresh Fruits & Vegetables grant balance at June 30, 2021 which was moved to the Food Service Fund.

The District has restated beginning fund balance in the Food Service Fund from \$403,772 to \$529,396 due to a \$125,624 amount relating to the Fresh Fruits & Vegetables grant balance at June 30, 2021 that was previously reported in the District's Grant Funds.

The District's Other Special Revenue Fund (formerly known as the Afterschool Program Fund) has been restated from \$75,108 to \$242,056 due to a \$8,770 amount relating to restricted donations at June 30, 2021 that was previously reported in the District's Grant Fund, and \$158,178 previously reported in the District's Custodial Funds (previously known as the Agency Funds) that are for the benefit of the District and made up of restricted donations and grant amounts.

The District's Custodial Funds (formerly known as the Agency Funds) have been restated from \$0 to \$181,310 to better conform with reporting as outlined in GASB Statement No. 84, Fiduciary Activities.

For the reasons outlined above, and the \$356 increase relating to leases discussed in note 8 previously, the District has restated beginning net position of the governmental activities from \$15,655,505 to \$15,528,718.

13. Fund balances:

The General Fund reported \$700,000 in assigned fund balance at June 30, 2022 to be carried forward and used to offset budgeted expenditures for the year ending June 30, 2023.

The Other Special Revenue Fund reported \$105,108 in restricted fund balance relating to the District's Afterschool Program, \$56,674 in restricted fund balance from donations and grants for the benefit of the Spaulding High School and related Spaulding High School Programs, \$30,963 in restricted fund balance from donations and grants for the benefit of the Barre Town Middle & Elementary School and related programs, and \$74,361 in restricted fund balance from donations and grants for the benefit of the Barre City Elementary and Middle School and related programs.

The Capital Projects Fund reported \$317,605 in voter committed fund balance for future capital projects and \$537,132 in board assigned fund balance for future capital projects.

14. Central Vermont Career Center School District:

On March 1, 2022, the 18 sending school towns (Barre City, Barre Town, Berlin, Cabot, Calais, Duxbury, East Montpelier, Fayston, Marshfield, Montpelier, Moretown, Plainfield, Roxbury, Rumney, Waitsfield, Warren, Waterbury, Worcester) voted in support of the creation of the Central Vermont Career Center School District (CVCCSD). This means that CVCCSD became independently run effective July 1, 2022. CVCCSD continues to lease the current space from the District and contracts for certain services offered by the District. The prior Central Vermont Career Center Director became the Superintendent of CVCCSD and the CVCCSD board is composed of appointed and elected members. The CVCCSD board establishes policies and procedures and provides oversight for the Central Vermont Career Center including programming and budgeting among other functions.

The District will see an increase in expenses that have previously been shared in an allocation of 18% Central Vermont Career Center and 82% for the District. These allocation areas include the Spaulding High School library, health office, and facilities. Effective July 1, 2022 the District will be paying 100% of these expenses that were previously allocated with the Career Center but will be receiving offsetting revenues from a monthly lease payment from the CVCCSD. In addition CVCCSD is continuing to contract for some central services from the District such as IT services.

During the year ended June 30, 2022 the District transferred an initial \$10,000 from the Central Vermont Career Center Fund to the CVCCSD.

15. Subsequent events:

The District has evaluated subsequent events through January 9, 2023, the date on which the financial statements were available to be issued.

The Board of Education
Barre Unified Union School District #97

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Barre Unified Union School District #97 (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 9, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of

our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER
COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE**

The Board of Education
Barre Unified Union School District #97

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Barre Unified Union School District #97's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with the auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we consider necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over

compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the District as of and for the year ended June 30, 2022, and have issued our report thereon dated January 9, 2023, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

BARRE UNIFIED UNION SCHOOL DISTRICT #97
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2022

1. Basis of presentation:

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in financial position, or cash flows of the District.

2. Summary of significant accounting policies:

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to use the 10 percent de minimis indirect cost rate as allowed in the Uniform Guidance.

3. Subrecipients:

The District provided federal awards totaling \$16,726 under CFDA No. 84.048 Career and Technical Education - Basic Grants to States.
