

## SHARED SERVICES AND STAFF

Code **LBA** Revised **4/13**

---

Purpose: To establish the board's vision for sharing services and staff with other schools and school districts.

When it is necessary to provide educational programs that require the use of highly specialized personnel and/or equipment or because the incidence of need in any given school population is low, the board may enter into a cooperative agreement with neighboring districts and/or other educational institutions to provide such services. The superintendent will act as the board's agent in making such agreements.

Adopted 10/5/98; Revised 4/15/13
