## **INTERSCHOLASTIC OFFICIALS L&I COVERAGE STATEWIDE**

Beginning July 1, 1988, interscholastic sports officials were covered by Washington State Labor and Industries via a common rate and payment system that eliminated game-by-game calculations and record keeping by school and/or district business offices. WIAA will guarantee payment of L&I premiums for WOA registered officials for all interscholastic activities under WIAA's jurisdiction and will assess WIAA member schools via classification rates at the same time service fees are billed. Officials L&I coverage is only in effect for activities authorized and offered by School Board approval and listed on the school's participation survey.

### **First Reading of Policy 3510 Associated Student Bodies**

Requires that the district establish a procedure to waive or reduce student fees for families who would have difficulty paying, by reason of their low income.

This aligns with current district practice where donations are used to cover ASB, athletics and club fees for families who request assistance and qualify for free and reduced price lunch.

## **RECOMMENDED ACTION:**

It is the recommendation of the Superintendent to move Policy 3510 to a second reading.

## ASSOCIATED STUDENT BODIES

An associated student body (ASB) will be formed in each school within the district whenever one or more students in that school engage in money-raising activities with the approval and at the direction or under the supervision of the district. An ~~associated student body~~ASB will be a formal organization of students, including sub-components or affiliated student groups. Each ~~as- sociated student body~~ASB will submit a constitution and bylaws to the board for approval. The constitution and bylaws will identify how student activities become approved as student body activities and establish standards for their supervision, governance and financing. Subject to such approval process, any lawful activity which promotes the educational, recreational or cultural growth of students as an optional extracurricular or co-curricular activity may be considered for recognition as an ~~associated student body~~ASB activity. Any lawful fund raising practices that are consistent with the goals of the district and which do not bring disrespect to the district or its students may be acceptable methods and means for raising funds for student body activities. The board of directors may act or delegate the authority to a staff member to act as the ~~associated student body~~ASB for any school which contains no grade higher than grade six.

The principal will designate a staff member as the primary advisor to the ASB and assure that all groups affiliated with the ASB have an advisor assigned to assist them. Advisors will have the authority and responsibility to intervene in any activities that are inconsistent with district policy, ASB standards, student safety or ordinarily accepted standards of behavior in the community. When in doubt, advisors will consult the principal regarding the propriety of proposed student activities. Student activities cannot include support or opposition to any political candidate or ballot measure.

Each ASB will prepare and submit annually a budget for the support of the ASB program to the board for approval. All property and money acquired by ASBs, except private nonassociated student body funds, will be district funds and will be deposited and disbursed from the district's ~~as- sociated student body~~ASB program fund.

Money acquired by ~~associated student body~~ASB groups through fundraising and donations for scholarships, student exchanges and charitable purposes will be private nonassociated student body fund moneys.

Solicitation of funds for nonassociated student body fund purposes must be voluntary and must be accompanied by notice of the intended use of the proceeds and the fact that the district will hold the funds in trust for their intended purpose. Nonassociated student body fund moneys will be disbursed as determined by the group raising the money. Private nonassociated student body funds will be held in trust by the district for the purposes indicated during the fund raising activities until the student group doing the fund raising requests disbursement of the funds and the accounts of the fundraising are complete and reconciled.

The board may establish and collect a fee from students and nonstudents as a condition to their attendance at any optional noncredit extracurricular district event of a cultural, social, recreation-

al, or athletic nature. If the board establishes such a fee or fees, the superintendent or designee will establish a procedure for waiving or reducing such fees in the cases of those students whose families, by reason of their low income, would have difficulty in paying the entire amount of such fees and may likewise waive or reduce such fees for nonstudents of the age of sixty-five or over who, by reason of their low income, would have difficulty in paying the entire amount of such fees. Fees collected pursuant to this paragraph shall be deposited in the ASB program fund of the district.

## 2019–20 Emergency School Closure Waivers

Washington state law (RCW 28A.150.220) provides the minimum requirements of the statewide instructional program of basic education that a local education agency (LEA) must offer. LEAs include public school districts, state-tribal education compact schools, and charter schools. Each school year must consist of a minimum of 180 school days. LEAs must also provide at least 1,000 annual instructional hours to students in kindergarten through 8th grade, and at least 1,080 annual instructional hours to students in grades 9–12 (a district-wide average of at least 1,027 hours in grades 1–12)., LEAs receive state funding based on the number of students who are enrolled in the district for an average of 1,027 instructional hours over 180 school days.

The Office of Superintendent of Public Instruction (OSPI) is authorized under RCW 28A.150.290(2) to waive the school day and average instructional hour requirements for LEAs in the event of unforeseen emergency events, including epidemics. On April 29, 2020, OSPI adopted temporary emergency rules (chapter 392-901 WAC) establishing the terms and conditions governing LEAs' entitlement to state funds during the 2019–20 school year due to school facilities closures caused by the novel coronavirus (COVID-19) pandemic and other unforeseen emergency events. LEAs that meet those terms and conditions will receive their full annual allocation of state basic education apportionment for the 2019–20 school year.

The governing board of an LEA seeking an emergency school closure waiver under chapter 392-901 WAC must adopt a resolution approving a continuous learning plan by May 29, 2020. An approved continuous learning plan must:

1. Offer educational engagement, planned by staff, as directed by the administration and governing board for all enrolled students;
2. Include the LEA's school year calendar, including a weekly schedule of staff and student engagement following March 17, 2020;
3. Provide a process for the LEA to determine which learning standards are most essential;
4. Establish an LEA- or school-based system of collecting student engagement information; and
5. Award academic grading as specified in WAC 392-901-030(4) and OSPI's guidance on grading during the COVID-19 pandemic.

If an LEA does not meet the statutory minimum 180 school day requirement, its school year must be extended by five additional school days (but is not required to extend beyond June 19, 2020).

**The Emergency School Closure Waiver Application (on the next page) must be submitted by all LEAs requesting a waiver of instructional hours or school days that the LEA was unable to offer due to the COVID-19 pandemic or other unforeseen emergency events.**
