Personalized support

Optum Specialty Pharmacy is always available by phone to answer any questions you may have about your medication, side effects and more. The personalized support doesn't stop there.

Virtual visits let you connect face-to-face with your care team. Ask for a real-time video chat with an expert in your condition. Your personal, confidential appointment gives you as much time as you need to ask questions from the privacy of your home. You can even record your session to review later or to share with your caregivers.

Video series can help you feel more connected to others with the same condition and give you a chance to learn more about your treatment. Hear from other patients with your condition about their treatment and how they are doing on it. Video libraries are currently only available for select conditions.

Working with your pharmacist or nurse

Tell your pharmacist or nurse about any changes or complications in your therapy, such as:

- Side effects
- Forgetting to take your medication

If you need help with any other health concerns, your pharmacist or nurse can help you find wellness management programs to help you stay on track.

Staying on track
