In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in terms does not affect your benefit coverage.

Medications are categorized by common therapeutic conditions in this PDL for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines coverage for these medications.

At UnitedHealthcare, we want to help you better understand your medication options.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the Prescription Drug List.

What is a PDL?

This document is a list of covered medications. Medications are listed by common categories and class. They are placed into cost levels known as tiers. It includes both brand and generic prescription medications approved by the Food and Drug Administration (FDA).

Please note: Where differences are noted between this PDL and your benefit plan documents, the benefit plan documents will rule. Please look at your benefit plan documents provided by your employer or health plan to see what medications are covered under your plan. You may also log in to the member website listed on your member ID card or call the toll-free phone number on your member ID card for more information.

How do I use my PDL?

Bring your PDL with you when you see your doctor. When choosing a medication, you and your doctor should consult this guide. It will help you and your doctor choose the most cost-effective prescription drugs. This guide will also help you know if a medication has special programs that apply to it.

When a prescription drug product is excluded from coverage, you or your representative may request an exception to gain access to the excluded prescription drug product. To make a request, contact us in writing or call the toll-free phone number on your member ID card. We will notify you of our determination within 72 hours.

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3, look to see if there is a Tier 1 option available. Please discuss these options with your doctor.

Check your benefit plan documents to find out your specific pharmacy plan costs.

\$	Drug Tier	Includes	Helpful Tips
\$	Tier 1 Your lowest cost	Some brands and generics.	Use Tier 1 drugs for the lowest out-of-pocket costs.
\$\$	Tier 2 Your mid-range cost	Mix of brands and generics.	Use Tier 2 drugs instead of Tier 3 to help reduce your out-of-pocket costs.
\$\$\$	Tier 3 Your highest cost	Mostly brand as well as select generic drugs.	Many Tier 3 drugs have lower-cost options in Tier 1 or 2. Ask your doctor if they could work for you.

Please note: Some plans may not have any tiers. If you have a high deductible plan, the tier cost levels may apply once you hit your deductible. Refer to your enrollment and plan materials on the member website listed on your member ID card, or call the toll-free phone number on your member ID card for more information about your benefit plan.

When does the PDL change?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when a generic becomes available.
- Medications may move to a higher tier or be excluded from coverage, most often on Jan. 1, May 1, or Sept. 1.

When a medication changes tiers, you may have to pay a different amount for that medication. For the most up-to-date list, call the toll-free phone number on your member ID card.

Programs and limits

Your benefit plan determines how these medications are covered and may differ than what is noted in the PDL. Call the toll-free phone number listed on your member ID card if you have any questions about your prescription drug coverage.

Health care reform preventive—This medication is part of a health care reform preventive benefit and may be available at no cost to you.

Prior authorization required¹—Your doctor is required to provide additional information to us to determine coverage.

Supply limit—Amount of medication covered per copayment or in a specific time period.

Step therapy—Trial of a different medication is required before another medication may be covered.

To learn more about a pharmacy program or to find out if it applies to you, please visit the member website listed on your member ID card or call the toll-free phone number on your member ID card.

Why are some medications excluded from coverage?

A medication may be excluded from coverage under your pharmacy benefit when it works the same or similar as another prescription medication or an over-the-counter (OTC) medication. Other medication options may be available.

Should I talk to my doctor about over-the-counter (OTC) medications?

An OTC medication may be the right treatment for some conditions. Talk to your doctor about available options.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. For some benefit plans, if a brand-name drug is prescribed and a generic equivalent is available, your cost share may be the copay PLUS the cost difference between the brand-name drug and generic equivalent. Visit the member website listed on your member ID card to make sure.

Are you taking a specialty medication?

Specialty medications are high-cost and are used to treat rare or complex conditions that require additional care and support. For most plans, these medications are managed through the Specialty Pharmacy Program. Take advantage of personalized support designed to help you get the most out of your treatment plan. Visit the member website listed on your member ID card or call the toll-free phone number on your member ID card to learn more.

¹Depending on your benefit, you may have notification or medical necessity requirements for select medications.

How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit the member website listed on your member ID card or call the toll-free phone number on your member ID card for more current information.

Log in to the member website listed on your member ID card for the following pharmacy information and tools:

- Pharmacy benefit and coverage information
- Possible lower-cost medication options
- Medication interactions and side effects
- Participating retail pharmacies by ZIP code
- Your prescription history

And, if home delivery services are included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set up reminders for refills
- Manage your account

How do I locate and fill a prescription through the mail order pharmacy?

UnitedHealthcare offers a Mail Order Pharmacy Program through OptumRx®. Here's how to fill prescriptions through the Mail Order Pharmacy Program.

1. Call your prescribing provider to obtain a new prescription for each medication. When you call, ask the Physician to write the prescription for a 90-day supply which represents 3 prescription units with up to 3 additional refills. The doctor will tell you when to pick up the written prescription. (Note: OptumRx must have a new prescription to process any new Mail Order request.)
2. After picking up the prescription, complete the Mail Order Form included in your enrollment materials. (To obtain additional forms or for assistance in completing the form, contact UnitedHealthcare's Customer Service Department by calling the telephone number on the back of your member ID card. You can also find the form at optumrx.com.)
3. Enclose the prescription and appropriate copayment via check, money order, or credit card. Your Pharmacy Schedule of Benefits will have the applicable copayment for the Mail Order Pharmacy Program. Make the check or money order payable to OptumRx. No cash please.

Important Tip: If you are starting a new Prescription Drug Product, please request 2 prescriptions from your physician. Have 1 filled immediately at a network pharmacy while mailing the second prescription to UnitedHealthcare's Mail Order Pharmacy. Once you receive your medication through the Mail Order Pharmacy Program, you should stop filling the prescription at the network pharmacy.
