Average Paid Lunch Price Calculation

- For SY 2012-2013, if a LEA's average price of paid lunches is \$2.51 or more, the LEA is in compliance and no further action is needed.
- To calculate the average paid lunch price:

Current paid lunch prices in SHSD:

- \$2.30 at the Primary & Elementary Schools
- \$2.55 at the Middle Schools & High School
- $\$2.30 + \$2.55 = \$4.85$
- $\$4.85$ divided by 2 = $\$2.425$ *average paid lunch price*

- Recommending a \$0.10 increase for all paid meals to achieve close to the \$2.51 mark.**
- Recommending a \$0.10 increase for all paid breakfast meals. Have not had a price increase for breakfast meals since SY 2008-2009.**

Recommended paid lunch prices in SHSD:

- **\$2.40 at the Primary & Elementary Schools**
- **\$2.65 at the Middle Schools & High School**
- **\$3.45 adult meals**

Recommended paid breakfast prices in SHSD:

- **\$1.40 at the Primary & Elementary Schools**

PROFESSIONAL, CIVIC AND SERVICE ORGANIZATION MEMBERSHIPS

Administrative staff are encouraged to be members of and participate in professional associations which have as their purposes the upgrading of school administration and the continued improvement of education in general.

Administrative staff are encouraged to be active participants in civic and service organizations in the community. The board of directors believes that the district will benefit from the participation of administrative staff in civic and service organizations in the community because of improved reciprocal understanding and communication between community leaders and district staff. This will lead to increased community support for the schools, school programs that are more responsive to the needs of the community and opportunities for cooperative support of school and community programs.

Membership fees, travel and meal costs attributable to an employee's participation in **any** the following civic and service organization(s), **as approved by the Superintendent**, will be paid by the district, subject to the restrictions of this and other district policies. **Payment of membership fees and related costs for is limited to positions approved by the Superintendent.**

~~The district will pay for participation in any given civic or service organization for no more than *insert the number of staff here* employees. (The number should be related to a considered judgment of the minimum number of memberships the district needs to pay for to receive benefit, not the maximum number of interested employees.) No district paid multiple memberships are permitted unless the superintendent finds in writing that specific employees have a difference in perspective that will provide benefit to the district through their participation in the same organization. For instance, principals that represent various schools and attendance areas might all provide benefit to the district by belonging to one community wide service organization.~~

~~District payment of membership fees and related costs for participation in civic and service organizations is limited to staff in the following positions:~~

~~The district recognizes that there will be indirect costs attributable to participation in civic and service organizations for employee time. The district encourages full participation in organizations for which it is paying costs, although no employee may act as an officer or take a leadership role in more than one organization for which the district is paying the membership costs. With prior written approval of the superintendent, the district will pay costs related to attendance at meetings related to membership in civic and service organizations covered by this policy, including conventions.~~

~~The district shall pay no more than *insert dollar amount here* per employee per year for costs related to membership in a civic or service organization covered by this policy.~~

~~The superintendent shall approve in writing all requests for district-paid memberships in civic and service organizations covered by this policy. By June 1st of each year the superintendent shall submit a written report to the board of directors including the staff and organizations for which membership costs have been paid, the number and circumstances of multiple memberships, the costs attributable to related meetings and the total costs attributable to this policy. Staff may be reimbursed for travel, meal or other appropriate expenditures related to district-paid membership in civic and service organizations pursuant to Policy No. 6213, Reimbursement for Travel Expenses.~~

Employees for whom the district pays any membership costs in civic and service organizations may not exert influence on other employees to provide financial contributions or other support to the civic or service organization. Neither may they use the civic or service organization as a forum for lobbying in support of or opposition to political or legislative actions, or the promotion of endeavors in which they may have a direct or indirect financial interest or may acquire a personal benefit or gain.

Steilacoom Historical School District Board of Directors

REGULAR BOARD MEETING

Date: July 12, 2012

TO: Members, Steilacoom Historical School District Board of Directors

ISSUE: x **ACTION** _____ Second Reading of Policy 3515, Student Incentives
 INFORMATION _____

BACKGROUND INFORMATION:

This is a new policy to the district; it is a Priority policy as recommended by WSSDA. The purpose of this policy is to define and recognize that providing students with certain incentives or awards can be meaningful and purposeful for encouraging students to become responsible citizens, productive workers and lifelong learners.

All incentives will support individual student achievement and the district's curriculum, programs and academic goals.

Incentives can be provided if the activity relates to the primary mission and goal of the district. Limitations of such incentives are outlined thru the procedure process.

This policy & related procedures are necessary for outlining limitations placed on each incentive and creates a clean and effective way to recognize our students.

No changes have been proposed since the first reading.

FISCAL IMPLICATIONS:

Maximum value of \$15 per student prize as outlined in procedure 3515P

RECOMMENDED DECISION:

It is the recommendation of the Superintendent to adopt policy 3515 as presented.

Report prepared by:

Superintendent Fritz & Executive Director Finance/Operations Ball

STUDENT INCENTIVES

The Steilacoom Historical School District #1 Board of Directors recognizes that providing students with prizes or awards can serve as a meaningful incentive for increasing academic achievement, promoting civility, encouraging physical fitness and for encouraging students to become responsible citizens, productive workers and lifelong learners.

The Board supports awarding incentives to recognize a student's academic, social, leadership and athletic achievements.

All incentives will support individual student achievement and the districts' curriculum, programs, academic or attendance goals. Therefore, every student recipient will receive an incentive only if the activity relates to the primary mission and goal of the district to increase student academic achievement.

District funds may be used, within the limits provided in model procedure 3515, to provide student incentives that meet the Board's objective of increasing academic achievement.

The superintendent or designee will develop procedures to implement this policy.

Steilacoom Historical School District Board of Directors

SPECIAL BOARD MEETING

Date: July 12, 2012

TO: Members, Steilacoom Historical School District Board of Directors

ISSUE: X **ACTION** Approval of Amended Calendar – Brick and Mortar
 _____ **INFORMATION** _____

BACKGROUND INFORMATION:

The high school principal has requested a change to the bargained and approved conference schedule for the 2012-13 school-year, similar to the change that SEA agreed to and the Board approved in 2011. In essence, the change would mean having students attend school for the full day on October 15 16 and 17 (rather than half days, as originally planned and approved), and then having the high school students attend for a half day on February 13, 14 and 15 (which were originally scheduled as full days for high school students).

The purpose for the change was/is to conduct mid-year conferences to review student progress made at the conclusion of the first semester and to discuss how to move forward for the ensuing semester. It also would be used as a time to review the schedule needs and/or post-high-school plans for the upcoming school year. Informal parent feedback received by the high school regarding the conference schedule and student led conference initiative was favorable.

The high school principals (leaving and entering) have discussed this matter with the high school staff and with SEA leadership. We are awaiting a response from SEA as to their support.

There is no net loss of instructional time.

All parents who desire a conference in the fall will receive one.

This change is workable for transportation.

RECOMMENDED DECISION:

The Superintendent recommends that the Board of Directors amend the 2012-13 high school calendar to make October 15, 16, and 17 full days for high school students and to make February 13, 14, and 15 half-days for high school conferences, pending SEA agreement. The Board also authorizes the Superintendent to negotiate any applicable and necessary modifications to the Collective Bargaining Agreement with Steilacoom Education Association to make this calendar change possible.
