Note:

1. Costs shown here are "Project Costs" and are conceptual in nature. Each Scope of Work needs to be further defined to develop actual costs.
2. Costs are adjusted each year to account for inflation, increase in construction materials and unknown construction market conditions.
3. GC overhead and profit have been included in the base estimate figures.
4. Soft Costs are: Estimated Conceptual Soft Costs (includes: A/E Fees, clerk of the works, environmental consult, testing, permitting, legal fees, printing, insurance)
5. Hazardous Materials Allowance needs to be adjusted once scope of work is determined and specific material is tested.
