FOUNDER'S MESSAGE

Dear Parents,

I am delighted to welcome you to Network International School. This prospectus represents our vision and commitment to providing an outstanding education for students aged 2 – 18 years so they may become independent learners, develop their unique talents & self-confidence, and be ready to be active and responsible global citizens.

I am very proud to be the Founder of this rapidly growing International School and am committed to leading it through the next phase of development and beyond. I have high expectations and very much believe in close school/home partnerships in order to bring about the best in every student including those of exceptional ability and those who may have learning challenges. I am passionate about the provision of a strong and caring system of support and guidance, as it is absolutely crucial that young people are happy and secure in their learning environment.

We are very fortunate in having a team of extremely committed, highly qualified staff who are dedicated to serving the students of Network International School as it continues to develop year on year. I am proud to welcome you to our school.

Carole Kyaing

Founder

Our aim is that every student leaves the school as a highly qualified young adult, well prepared for the next stage of their education and with a wealth of experience in the wider world.

ABOUT NETWORK

Introducing Network International School where collaborative learning and achievement lead to university and career success.

Today's ever changing world is an exciting place for young people overflowing with fascinating opportunities and challenges. At Network International School we open a door to that world and with our support students from across the globe can create rewarding lives, successful careers and make their mark on society.

Network International School is Cambridge accredited and caters for over 900 students between the ages of 2 and 18 years.

The school vision is to provide an outstanding education for students from across the globe. Our International community is represented

by students from over fifty different countries. Our aim is that every student leaves the school as a highly qualified young adult, well prepared for the next stage of their education and with a wealth of experience in the wider world. We aim to achieve this by ensuring everyone associated with the school commits to achieving outstanding progress, enjoys and engages in their learning, whilst also being prepared to take on challenges they might meet.

Outstanding academic achievement is very important for future success, as is the need to develop an affinity with lifelong learning. Students

at Network International School make outstanding progress. Our curriculum is delivered through our student centred education with a positive climate for learning permeating every phase of the school. It provides high-quality inspirational learning from the Early Years Foundation Stage onwards to develop students' responsibility for their own learning in preparation for university and the world of work. The curriculum blends high-quality imaginative learning with small class sizes and a low student teacher ratio, to impact positively on student achievement.

TEACHING AND LEARNING

In every lesson we expect to:

We aim for the very best in classroom education enabling all pupils to achieve success and gain valuable knowledge and skills.

A wide range of techniques, tailored to meet the needs of all students are used in lessons and we strive to develop transferrable skills across the curriculum.

Inspire interest and curiosity

Develop reading, writing and mathematical skills

Build confidence, encourage students to take responsibility and expect students to push themselves to make the best progress

Provide opportunities to work in groups as well as developing independence and resilience

SUPPORTING OUR STUDENTS

Support for our students is based on our triangular partnership of students, parents and school.

Every member of our teaching staff is committed to supporting students so they can reach their full potential. We want everyone to feel part of the Network family. We employ a team of skilled and specialist staff whose role it is to ensure that all students progress and feel happy and secure in their surroundings.

We want parents to be involved in their child's education and hope they will attend the various events, performances, award ceremonies and sporting activities that take place throughout the year. Network International School hosts dedicated teacher/parent conferences and provides written reports in all phases, which gives parents information about their child's academic and personal progress.

This prospectus is designed to give a flavour of what Network International School offers its Myanmar and international students but there is far more than we are able to show in these pages. If you would like to see more, visit our website at www.networkinternationalschool.com or better still why not arrange a visit?

NETWORK INTERNATIONAL EARLY YEARS FOUNDATION STAGE

Children in the Early Years Foundation Stage learn by playing and exploring, being active, and through creative and critical thinking which takes place both in class and beyond. We aim to provide valuable and meaningful experiences that will set every child up for a successful learning career. We aim to do this in an environment, which is happy, constructive and nurturing.

Foundation 1

The aim of Network Foundation 1 is to give children between the ages of two and three years a safe and happy environment, where they can grow in confidence and independence in preparation not only for school but for life.

In Foundation 1 we believe that every child is an individual and that by nurturing their uniqueness through play and creative expression, they will continue to grow and blossom into confident and enthusiastic learners.

Foundation 2 & 3

In Foundation 2 and 3 the British Early Years Foundation Stage curriculum is followed. There are seven areas of learning and development. All areas of learning and development are important and interconnected.

Three prime areas are particularly crucial for igniting children's curiosity and enthusiasm for learning, and for building their capacity to learn, form relationships and thrive.

Communication & Language

Physical Development

Personal, Social & Emotional Development

Literacy

Mathematics

Knowledge & Understanding of the World

Expressive Arts & Design

We also support children in four specific areas, through which the three prime areas are strengthened and applied.

The Early Years Framework prepares children for the National Curriculum when they progress into our primary school.

NETWORK INTERNATIONAL PRIMARY SCHOOL

We believe that the primary years shape students futures.

As well as giving them the essential tools for learning, primary education is about students experiencing the joy of discovery, solving problems and being creative. Our aim is to provide an inspirational outward looking global curriculum that develops high standards of literacy and numeracy as well as stimulating students' creativity. English and Maths are taught every day to ensure clear progression;

Art, Computing, Music, Physical Education, PSHRE, Science and Topic complete our curriculum. This provides our primary students with the self-confidence and skills to become lifelong learners whilst also preparing them for the transition to secondary education.

Key Stage 1

In Key Stage 1 there is a strong focus on the transition to a more formal structure of the curriculum and children learn the necessities to build a solid foundation for their learning.

The curriculum is strongly based on learning through tangible activities giving students opportunities to settle into a more formalised classroom setting. Through the provision of a well-rounded curriculum children are able to build the necessary skills to allow them to progress and develop at their own rate. The children are also introduced to the culture and language studies of Myanmar to help build on their knowledge of the country they live in.

Key Stage 2

In Key Stage 2 students are further challenged; strengthening and developing the skills they have learnt in Key Stage 1, thus enabling them to perform well in all subjects. All students follow the National Curriculum and learn through experience and inquiry based learning. This helps them to become more independent learners, allows them to take ownership of

their learning and enables them to become secondary ready by the end of their primary education. During Key Stage 2 students gather the skills needed to become confident learners and show their creativity within their learning. Myanmar studies, due to the importance of the culture we live in, are further developed in lessons during this Key Stage.

“I enjoy Network International School because the teachers, who have taught in a range of locations around the world, bring new and exciting experiences to the classroom. The school has a wide range of places to explore such as our spacious rooftop, brilliant swimming pool and brand new basketball court.”

-Network Primary Student

NETWORK INTERNATIONAL SECONDARY SCHOOL

Our secondary students flourish at Network International School.

Each learner is valued and respected equally and enjoys the highest possible standard of education. Our secondary education promotes the highest standards of achievement in academic attainment enabling every student to leave Network International School academically well qualified through Cambridge IGCSE and Advanced level qualifications and well prepared for University life and their chosen careers.

Key Stage 3

In Key Stage 3 all students follow the revised 2014 National Curriculum adapted for an International context with a full range of subjects including *English, Maths, Science, Art, Drama, French, Geography, History, ICT, Music, Myanmar Studies, Personal, Social, Health and Religious Education, and Physical Education.*

Learning provides the foundation for study at Key Stage 4 and is enjoyable, meaningful and exciting. Students develop learning and thinking skills as part of their independent learning repertoire.

Key Stage 4

In Key Stage 4 students study for IGCSE qualifications awarded by the Cambridge Examinations Board.

The two-year IGCSE programme is academically challenging and Cambridge IGCSE is the world's most popular international qualification for Key Stage 4 students. It is recognised by leading universities and employer's world wide, and is an international passport to progression and success. All students study a core curriculum of English, Mathematics, Science, and Physical Education. Students then have access to a range of Cambridge IGCSE option courses where they will be able to make a guided and informed choice from subjects such as: Additional Mathematics; Art; Business Studies; Computer Science; French; Geography, Global Perspectives; History; ICT; Physical Education and the Sciences.

“As Network’s secondary students, we not only enjoy the academic challenges but take on leadership roles through the Student Council and House System. Students also get the opportunity to develop relationship skills by taking part in extra-curricular activities such as school drama productions and sporting pursuits.”

-Network Secondary Student

NETWORK INTERNATIONAL SCHOOL SIXTH FORM

Network International School seeks to provide a Sixth Form experience which promotes confidence, creativity, leadership and learning ensuring students leave the school academically qualified and with a breadth of experience in preparation for their University courses. The Sixth Form curriculum provides high-quality inspirational learning, enabling students to enter the University of their choice.

Key Stage 5

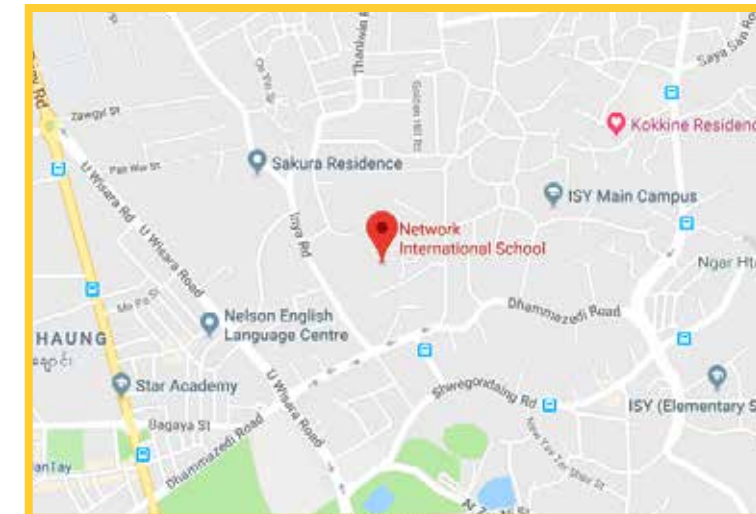

Cambridge Advanced Level Qualifications

In Key Stage 5 students study for Advanced Level qualifications awarded by the Cambridge Examinations board. Network International School offers a wide range of courses for students to choose from and the syllabi develop a deep understanding of each subject and independent thinking skills. Cambridge International Advanced Level qualifications are a 'gold standard' and a passport to success with students gaining places at the top universities all over the world including Cambridge, Oxford, Harvard and Yale.

Sixth Form is a transition from IGCSE to University with an increased emphasis on independent study and individual development. As a student in Network's Sixth Form you will have greater flexibility and more study time, which will provide you with a taste of the experience you can expect at University. From the very beginning of Year 12, students will have the opportunity to develop their leadership skills and full guidance is given on careers as well as University applications.

At Network International School we expect every student through our international community to achieve academic excellence, acquire lifelong learning skills and develop into global citizens.
