In Webster...Kindness Matters,
Ruthann Petrino-Goguen

On Halloween, we had a ½ day of professional development for our teachers and staff which included on Studysync, Math, STEMscopes trainings; Curriculum mapping for Social Studies and Science, Safety Care Training, ELL Program Development, and Collaboration regarding the school wide Kids of Character behavior plan.

The Class of 2019's Trick 'R Treat Night was a huge success!

I had the pleasure of attending the WMS National Honor Society Induction on October 24th and the BHS National Honor Society Induction on October 30th. Both events were very well attended and it was wonderful to see our students leading the ceremonies. 33 new members were inducted at WMS and it is great to see this new tradition blooming! It was also very powerful to listen to the high school students share information about the people who have influenced them the most in their high school careers. The key note speaker was a BHS graduate, Kellie Duquette she gave our students valuable advice--- relax, learn, use your voice and actions to help others!

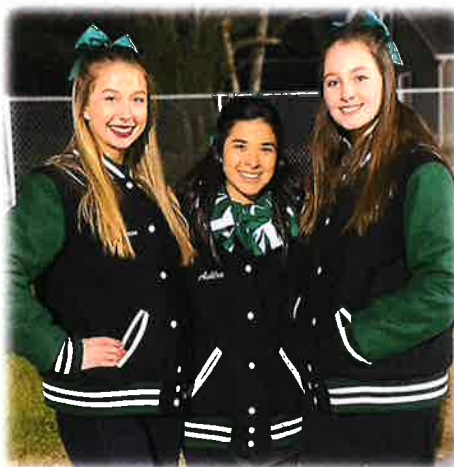

Through our new affiliation with the Blackstone Valley Educational Foundation, 20 WMS students were able to attend Water's Corporation with students from Douglas to learn more about sustainable scientific innovation.

Our Seniors were recognized at games last week!

Thursday, November 15th, 2018
