

In a "Nutshell"

School Breakfast Program (SBP)

Nutrition Standards & Meal Pattern Requirements

School Year 2017-2018

Age/Grade Groups: K-5, 6-8, K-8, 6-12, 9-12, K-12

Dietary Specifications*

Average Daily Calorie Ranges:

K-5: 350 - 500 kcal

6-8: 400 - 550 kcal

9-12: 450 - 600 kcal

K-8: 400 - 500 kcal

6-12: 450 - 550 kcal

K-12: 450 - 500 kcal

Average Daily Sodium Limits (Target 1):

K-5: ≤ 540 mg

6-8: ≤ 600 mg

9-12: ≤ 640 mg

K-8: ≤ 540 mg

6-12: ≤ 600 mg

K-12: ≤ 540 mg

*The dietary specifications are assessed as a daily average over the course of one five-day week.

- Average daily saturated fat limit: < 10% of total calories (current standard)
- Trans fat: 0 grams of trans fat per portion (< 0.5 grams/serving); excludes naturally-occurring trans fat.

Components

Milk

- Milk is credited by volume (fluid ounces).
- 1 cup milk must be offered daily.
- At least two varieties of low-fat (unflavored) or fat-free (flavored or unflavored) milk must be offered.

Fruits (or Vegetables)

- Fruits and vegetables are credited by volume (cups).
 - A minimum of $\frac{1}{8}$ cup fruit or vegetable per serving is needed to credit.
- 1 cup of fruit or vegetable must be offered to all grade groups daily.
- Creditable forms of fruit include: fresh, frozen with or without added sugar, canned in water, light syrup or juice, dried, and pasteurized, full-strength juice.
 - Dried fruit credits as twice the volume served (e.g. $\frac{1}{4}$ cup of raisins credits as $\frac{1}{2}$ cup of fruit).
- Creditable forms of vegetable include: fresh, frozen, canned, and pasteurized, full-strength juice.
- No more than half of weekly fruit and vegetable offerings can be in the form of juice.
- Vegetables may be offered in place of fruit, or a combination of fruit and vegetables may be provided to fulfill the 1 cup requirement.
 - If choosing to substitute vegetables for fruit, at least 2 cups of non-starchy vegetables from the dark green, red/orange, beans/peas or other subgroups must be offered during the week before a starchy vegetable can be counted towards the meal pattern.

Grains

- Grains are credited by weight (ounce equivalents, or oz eq).
 - A minimum of 0.25 oz eq per serving is needed to credit.
- Daily minimum of 1 oz eq must be offered for all age/grade groups.
- Weekly minimums vary based on age/grade group (K-5: 7 oz eq; 6-8: 8 oz eq; 9-12: 9 oz eq)*
- All grains credited towards the meal pattern must be whole grain-rich.
- Ounce equivalency standards must be used (16 grams = 1 oz eq).
 - Reference: Exhibit A (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/exa_fbg.pdf)

*Recommended Target Maximum for Grains: 10 oz eq per week for all age-grade groups.

Meat/Meat Alternate (M/MA)

- There is no requirement to offer M/MA at breakfast. Therefore, there are no daily or weekly minimums or maximums.
- SFAs have the discretion to credit M/MA items as a “grain” or an “extra” food.
 - SFAs must still serve the 1 oz eq daily minimum of a *true* grain.
- M/MA as a “grain”:
 - Counts towards weekly grain requirements
 - Counts as an item under Offer versus Serve
 - Included in dietary specifications (calories, saturated fat, trans fat)
- M/MA as an “extra”:
 - Does not count towards the weekly grain requirement
 - Does not count as an item under Offer versus Serve
 - Included in dietary specifications

Menu Planning

- Refer to the Meal Pattern Tables for Breakfast at <https://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning#meal-pattern-tables>.
- All meals must meet the daily minimum requirements for all three components at breakfast (milk, fruit, grain).
- Each serving line must meet the daily and weekly requirements independently.
- All foods and condiments that students have access to as part of a reimbursable meal must be included in the daily averages for dietary specifications.
- CN labels or manufacturer’s product formulation statements are needed to document compliance.

Offer versus Serve (OVS)

- OVS is optional for all age/grade groups.
- Students must be offered all 3 components at breakfast in portions planned to meet the daily minimum quantities for each age/grade group.
- If OVS is in place, the SFA must offer at least four food items and students must select at least three food items for a reimbursable meal.
- Items versus choices
 - Food items = a specific food offered within the food components in the daily required minimum amount that a child can take (1 cup milk, 1 oz eq grain, ½ cup fruit).
 - The menu planner has the discretion to count large grain items (ex. a 2 oz eq bagel) as either 1 food item or 2 food items.
 - Choices = offering a variety to give the students the ability to choose from different options.
 - Example: If offering fruit choices, ½ cup orange juice, ½ cup peaches and ½ cup applesauce may be offered.
 - It is up to the menu planner to decide how many of the offered choices students are able to take based on the planned menu (ex. 1 milk, 1 grain and 2 fruits).
- There is no requirement for a student to select milk under OVS.
- All students must select at least ½ cup fruit, vegetable or fruit/vegetable combination.

This institution is an equal opportunity provider.
