- There have been no changes in leadership or structure since the start of the school year.
Further, there have been no new partnerships, changes in goals, or media coverage.
- Regarding goal attainment, we set out to:
 - a. Advise local school districts on changes in the economy and job market and the area in which future jobs are most likely to be available;
 - b. Advocate for the employment skills most critical to business and industry and the development of curriculum to teach these skills;
 - c. Aid and support local school districts by offering suggestions for developing a working relationship among businesses, labor organizations and educators.

Progress on these goals has been steady and positive. We have made progress on all three and members are pleased with the working relationships that have developed.
