Policy

Addison Central School District (ACSD) Board of Directors is elected by citizens living in the Addison County towns of Bridport, Cornwall, Middlebury, Ripton, Salisbury, Shoreham, and Weybridge. The Board assumes responsibility for ensuring the education and welfare of the children in its District schools. The ACSD School Board Vision that all students will reach their full academic potential and be prepared for success as engaged citizens requires the Board to engage with each other, administrators, teachers and staff, students, and community members in ways that promote the successful achievement of this task.

Vermont law requires that the Board be comprised of members from each District Town (see ACSD Charter). It is vital to remember that each member, regardless of where the member resides, shall consistently represent all seven towns and has a responsibility to make sure that resources focus on fulfilling the Vision.

The Board shall strive for equity for all, execute fiduciary responsibilities faithfully, steer the organization during challenging times and hone its mission: to provide an innovative, rigorous, and supportive educational community that inspires a passion for learning and cultivates empathy and responsibility. (See [ACSD Strategic Plan](#) for Vision and Mission details.)

Board members are committed to reducing and mitigating barriers to student success while increasing the capacity and power of all students. Student success should not be predicted nor predetermined by characteristics such as, but not limited to, race, national origin, religion, disability, geographic location, economic circumstance, mobility, native language, sexual orientation, gender identity, or level of proficiency upon entering our schools.

The Board will consider the impact of any proposed changes on underserved, diverse, and marginalized individuals and groups. The Board will adjust resource allocation as well as the design and implementation of policies and programs to promote opportunities for all.

The Board will review data provided by the Superintendent to determine if the expectations intended by policy have been met, especially as it relates to achievement of equitable outcomes.

The ACSD Strategic Plan reflects the priorities of the Board. Whenever the strategic plan is updated, the Board will seek community input. On an annual cycle the Board will be informed by data and research-based best practice provided by the Superintendent.

The Board will keep the Vision at the forefront of all decision making. The Board will assure that there are resources devoted to, and will regularly monitor reports on, the effective implementation of the strategic plan. On an annual cycle the Board will revisit the Vision, the Mission, and the strategic plan and make adjustments according to input from the Board, the Superintendent, and community members. The board will define a procedure defining the monitoring process.
