

Addison Central School District

Policy: Student Possession and Use of Alcohol and Drugs

File Code: C2

Warned: November 8, 2016

Adopted: November 21, 2016

Policy

No student shall knowingly possess, use, sell, give or otherwise transmit, or be under the influence of any illegal drug, regulated substance, or alcohol on any school property, or at any school sponsored activity away from or within the school. It is further the policy of the district to make appropriate referrals in cases of substance abuse.

Definitions

Substance Abuse is the ingestion of drugs and or alcohol in such a way that it interferes with a person's ability to perform physically, intellectually, emotionally, or socially.

Drug means any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, or any other controlled substance as defined by state or federal regulation or statute.

Educational Program. The superintendent shall work with appropriate staff members to develop and conduct an alcohol and drug abuse educational program. The program shall be consistent with the Vermont Alcohol and Drug Education Curriculum Plan. If the school district is a recipient of federal Safe and Drug-Free Schools and Communities Act funds, the Act will be considered in the development of the alcohol and drug abuse educational program.

Support and Referral System. The superintendent or designee shall develop a support and referral system for screening students who refer themselves and students who are referred by staff for suspected drug and/or alcohol use and/or abuse problems. The support and referral system will include processes to determine the need for further screening, education, counseling, or referral for treatment in each referred case. In addition, the superintendent shall establish procedures for administering emergency first aid related to alcohol and drug abuse.

Cooperative Agreements. The superintendent shall annually designate an individual to be responsible for providing information to students and parents or guardians about outside agencies that provide substance abuse prevention services and to encourage the use of their services and programs when appropriate.

The Addison Central School District has entered into a cooperative agreement with the Counseling Service of Addison County (CSAC). CSAC will provide substance abuse treatment to students who are referred through the school's support and referral system, or who refer themselves for treatment.

Staff Training. The superintendent will work with appropriate staff to provide training for teachers and health and guidance personnel who teach or provide other services in the school's alcohol and drug abuse prevention education program. The training provided will meet the requirements of State Board Rules related to staff training.

Community Involvement. The superintendent will work with school staff and community members to implement a program to inform the community about substance abuse issues in accord with State Board of Education rules.

Annual Report. In a standard format provided by the Agency of Education, the superintendent will submit an annual report to the Secretary of Education describing substance abuse education programs and their effectiveness.

Notification. The superintendent shall ensure that parents and students are given copies of the standards of conduct and disciplinary sanctions contained in the procedures related to this policy, and are notified that compliance with the standards of conduct is mandatory. Notice to students will, at a minimum, be provided through inclusion of these standards and sanctions in the student handbook distributed to all students at the beginning of each school year or when a student enrolls in the school.
