

Addison Central School District

Policy: Community Use of School Facilities
File Code: E20
Warned: June 8, 2017
Adopted: June 19, 2017

Policy

The School Board, recognizing school facilities as a community asset, encourages community groups to request use school facilities for civic, educational, cultural, or recreational purposes.

It is the policy of the School Board to make school facilities and certain equipment available for use by the public, provided that such use is in the best interests of the District. Due consideration will be given to efficient, economical and appropriate use of the facilities and equipment, provided such use does not interfere with school activities.

Use of ACSD facilities must conform to all ACSD policies and procedures. No use that conflicts with the ACSD vision or mission shall be approved.

The requirements for scheduling, responsibilities of the user, and schedule of fees are outlined in Procedure E20: Community Use of School Facilities.
