SCC meeting Notes Jan 25, 2023

Introductions
Dr. Kalina Potts
Christopher Porter
Salma’s Dad
Sandra Findling
Angela Bothwell
Antonia Silva-Yantas
Abubakar

Attendance
Dr. Potts stated that we want to increase attendance. We have a lot of important testing and we would like all students to be here to test and learn.

Parents are going to receive letters letting them know how many days their students have missed.

Dr. Potts asked parents why their students missed school and what can we do to help. Marco’s mom stated that she hasn’t had any issues.

Abubakar stated that he just wants to be notified if his kids have missed. Dr. Potts mentioned that it is important to call and excuse students and communicate with teachers so that they can help support learning.

Caught being a star
Students get tickets if they are caught following the rules. Drawing happen on Mondays and Wednesday and students can earn prizes.

We will be talking about our school improvement plan next time that we meet. We will look at student data, land trust, and our plan for next year. We may have to move the next meeting to Feb. 28 so that we can have the data available.

SIC Ms. Findling
Acadience testing is complete for mid-year.

PTO
We are looking into ways to increase attendance, some suggestions have been to have a more structured PTO, to have a craft or activity, school leadership is happy to accommodate ideas for events. The school is happy to provide materials for parents that want to engage with students.

Classrooms are getting LED lights, as part of the districts initiative to lower the carbon footprint of schools.
Meeting open for suggestions from parents.
Mr. Porter asked how drop off and pick up is going for the school.
Ms. Potts stating morning drop off is going well and happening in the gym. It is saving time as kids can get breakfast quickly. Dr. Potts asked how parents feel it is going.
Mr. Porter said he is noticing that pick up and drop off seem to be going well.
Dr. Potts is considering keeping morning drop off the same even when weather gets better as it is going well.

Parent teacher conferences will be Feb. 8 and 9, forms will be coming home along with a parent survey. Please fill out the survey, Dr. Potts read every comment and wants to hear what parents think.
