Investments

The Cherokee County Board of Education invests public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the School District conforming to all state and local statutes governing the investment of public funds.

Safety of principal is the foremost investment objective of the investment portfolio. Each investment transaction will first seek to ensure that capital losses are avoided, whether from securities defaults or erosion of market value.

The investment portfolio will be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account the investment risk and cash flow requirements.

The Superintendent may authorize the investment of surplus funds in any of the following instruments authorized under Georgia law (O.C.G.A 36-83-4):

- Obligations issued by the State of Georgia or by other states;
- Obligations issued by the United States government;
- Obligations fully insured or guaranteed by the United States government or a United States government agency;
- Obligations of any corporation of the United States government;
- Prime banker's acceptances;
- The local government investment pool established by O.C.G.A. 36-83-8;
- Repurchase Agreements;
- Obligations of other political subdivisions of the State of Georgia; and/or
- Certificates of Deposit

The Superintendent may authorize the investment of proceeds derived from the sale of general obligation bonds in any of the instruments authorized under Georgia law (O.C.G.A 36-82-7).

The Superintendent may authorize the investment of idle surplus funds through the competitive procurement process, which will include a formal request for quotes issued every three to five years. In selecting depositories, the credit worthiness of institutions must be considered.

Investments for all operating funds will be made in maturities of 12 months or less, unless a temporary extension of maturities is approved by the School Board.

Assets held in pooled funds and other investment funds will be diversified to eliminate the risk of loss resulting from concentration of assets in a specific maturity, a specific issuer or a specific class of securities.

The responsibility for authorizing investment transactions resides with the Superintendent or designee responsible for investment decisions and activities. Written administrative

procedures for the operation of the program will be developed, consistent with all investment policies. No person may engage in an investment transaction except upon written authorization from the Superintendent, or designee.

Investments will be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, considering the probable safety of their capital, as well as the probable revenue to be derived. The Superintendent will observe and apply this rule to the management of the School District's investment portfolio.

The School District will require business officials involved in the investment process to refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Business officials will be required to disclose to the Superintendent any material financial interests in financial institutions that conduct business with the School District, and they will further disclose any large personal financial/investment positions that could be related to the performance of the portfolio.

The Superintendent will establish a system of written internal controls for investments. The internal controls will be reviewed annually by an independent auditor. The controls will be designed to prevent losses of funds arising from fraud, employee error, misrepresentations by third parties, unanticipated changes in financial markets, or imprudent actions by employees.

All investment securities purchased by the School District will be held in third-party safekeeping by an institution designated as primary agent. The primary agent will issue a safekeeping receipt to the School District listing the specific instrument, rate, maturity and other pertinent information.

Georgia law (O.C.G.A 45-8-12) provides that there will not be on deposit at any time in any depository for a time longer than 10 days a sum of public-derived money which has not been secured by surety bond, by guarantee of insurance, or by collateral in an amount of not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance**.**

The Superintendent will submit to the School Board an annual investment report which summarizes recent market conditions, economic developments and anticipated investment conditions. The report will also include an activity of transactions, as well as the outstanding investment on the last day of the fiscal year. The report will contain sufficient information to permit an independent evaluation of the performance of the investment program, including but not limited to: average rates of return, comparison with applicable indices and average percentage of cash invested.

Cash Management

Cash management is the process of managing monies of the School District in order to ensure maximum cash availability and maximum yield on short-term investment of idle cash.

All funds will be maintained in a minimum number of accounts, except where legally required to be separate, in order to facilitate the investment of available resources in larger amounts to increase revenue. Interest revenue will be allocated according to fund of origination.

The Superintendent or designee will authorize the issuance of a request for quotes for banking services to all qualified financial institutions located within Cherokee County or within a reasonable distance of Cherokee County. The award of banking services will be made solely on the response to the request for such quotes. After a depository is chosen, a banking services contract will be negotiated.

The Superintendent will utilize the State approved and operated local government investment pool anytime the rate of return is higher than the rate determined through requests from banks.

Cameras in the Classroom

The Cherokee County Board of Education authorizes the installation and use of cameras which may include incorporated microphones and speakers ("Classroom Cameras") in classrooms in order to provide a professional development tool that will allow teachers to utilize features of the cameras to record, review and improve teacher's instructional delivery, as well as to promote and maintain a safe and secure learning environment.

A. Classroom Camera Recording Operations

1. The School District may place, operate and maintain Classroom Cameras in educational classroom settings. Once any such Classroom Cameras are installed, the School District will annually notify all students, parents, and employees that cameras have been placed in some classrooms within the School District.

2. Classroom Cameras will not be placed in areas where students, employees and the public have a reasonable expectation of privacy.

3. Except for staff's legitimate authorized use of the professional development recordings, staff and students are prohibited from unauthorized use of, tampering with, or otherwise interfering with Classroom Cameras and/or video records.

4. Classroom Cameras will be used in accordance with all other School District policies.

B. Professional Development Recordings

1. Ensure professional development recordings are designated as educational records. As educational records, the Superintendent will ensure professional development recordings are used by the classroom teacher and professional staff for professional development only, with due regard to all School District policies as well as state and Federal laws respecting student privacy and confidentiality.

2. Ensure professional development recordings containing student images and/or voices will become a part of that student's educational record if the image and/or voice is maintained by School District employees who are not in the School Police Department.

3. Ensure that administrators, classroom teachers and staff are aware that professional development recordings are educational records protected from dissemination pursuant to the provisions of the Family Educational Rights and Privacy Act ("FERPA") (20 U.S.C. § 1232g; 34 CFR Part 99) through the distribution of this policy to all certified employees as a "Critical Issue" policy.

4. Ensure that professional development recordings are not shared, viewed, posted or otherwise disseminated with others if the video feed contains the image or voice of student(s) unless the viewer has a legitimate educational interest in the student(s) whose voice or image is contained in the video recording or the student's parent/legal guardian has provided written permission for viewing.

5. Ensure that professional development recordings are stored for no more than 30 days in a secure encrypted location free from "cyber-attack" and unintended dissemination to others.

C. Security Recordings

1. If the School District elects to purchase and install Classroom Cameras that allow for separate security recordings and professional development recordings, the Superintendent will ensure that the security recordings from the Classroom Cameras are maintained on school premises by the School District Police Department in a secure location for no more than three months. Security recordings will not be considered as an educational record.

2. If security recordings become evidence in any kind of disciplinary proceeding, litigation or the subject of a litigation hold (spoliation of evidence notice); or, if the security recording otherwise takes a status that would require a longer retention period according to the applicable retention schedule, it must be retained for the amount of time specified by the School District's records retention schedule, or until all actions have been resolved, whichever time period is greater.

3. Staff, students or parents/legal guardians alleging that a classroom incident has occurred requiring review of the security recording will file a written request on the form provided by the School District with the Principal or designee as soon as possible after the person suspects the alleged incident may be captured by the security recording. Upon notification from the Principal, the School District Police will review the appropriate security recording and determine if the alleged incident is recorded. If recorded, the security recording will be reviewed by and released within the discretion of the School District Police consistent with this policy as well as state and Federal law.

Cherokee County Board of Education prohibits discrimination and harassment based upon "Constitutionally-Protected Differences" and other legally protected statuses (e.g., race, age, gender, gender identity, genetic status, past or present protected military service, pregnancy, color, religion, national origin~~,~~ or disability~~, or any other constitutionally protected class or status~~). As such, it is the policy of the School District to address such complaints at the lowest level of administration in order to quickly and efficiently resolve all such matters.

All employees are responsible for prevention of harassment and discrimination against students/employees, including the responsibility to report any conduct which they believe to be in violation of this policy. No person will be subject to retaliation or reprisal for making a good faith complaint under this policy or for participating in an investigation.

The Superintendent will develop administrative guidelines regarding the role and responsibility of the applicable Title Coordinator(s) ("Coordinator") and the role of the Deputy Superintendent ("DS") in action steps, and the collection and analysis of reporting data in this regard.

I. DEFINITION

Harassment and discrimination may include any conduct which has the effect of unreasonably interfering with an employee's work based upon a protected characteristic, including conduct by school employees, students or others. Examples may include offensive jokes, slurs or comments; offensive touching or requests for dates or favors; different treatment of employees based upon Constitutionally-Protected Differences; display or communication of offensive photographs, writing or materials; or conditioning employment benefits on an employee's participation in, or reaction to, such conduct.

II. COMPLAINT PROCEDURES

In the event that a Coordinator or CHRO receives verbal or informal notice of a possible complaint, the Coordinator or CHRO will assist the complainant in making a written complaint so that the matter may be investigated. The complainant need not be the victim of the discrimination/harassment, but may be any person aware of the conduct. Complaints

received by any employee will be forwarded to the appropriate work location supervisor or Coordinator.

Upon receipt of a discrimination/harassment complaint the Coordinator or designee will (a) facilitate a prompt investigation of the complaint, (b) take any interim action necessary to protect students, staff or operations pending the result of the investigation, and (c) make any necessary reporting of the allegations. Said investigation will consist at a minimum of interviewing the complainant, accused person(s), and persons with direct knowledge of the alleged events. Said investigation will be concluded as soon as practicable, and generally within fifteen (15) business days (defined as days when the School District central office is open for business) of receipt of the complaint. Upon completion of the investigation the Coordinator will initiate such remedial actions as are necessary to prevent any further harassment. Such steps may include: counseling, suspension, termination, or any other remedial action deemed appropriate to address and eliminate further discrimination/harassment. Upon completion of the investigation the CHRO will notify appropriate parties (which may include the alleged victim(s) and accused) in writing of the substance of the investigation and remedial measures to be taken pending any appeal. The Coordinator will retain, review and analyze the investigative file of each complaint and will report the results of the review and analysis annually to the Superintendent.

3. The complainant may seek a review of the initial decision by written request received by the Coordinator within five (5) business days of the date of the decision.

4. Upon timely written request, the Coordinator will forward a copy of the investigative file to the DS. The DS or designee will have up to fifteen (15) business days to review the appeal, investigative file and the previous decision and determine, if additional investigation is warranted, any change in the remedial action recommended. The DS or designee will promptly notify appropriate parties of the appeal decision.

5. The decision of the DS or his/her designee will be the final decision under this policy. Additional due process will be provided for any disciplinary measures as required by law.

The complainant retains at all times the right to contact the Office of Civil Rights or the Equal Employment Opportunity Commission with regard to any allegations that the School District has violated any law.

The weighted ~~numeric grade average~~ NGA summarizes each student's academic performance in high school credit courses. The weighted ~~numeric grade average~~ NGA is used in determining eligibility for numerous awards, activities and college applications.

For the purpose of computing class rank, a student's final course grade (if student receives a passing grade in the course) will be weighted with the following quality points for the purpose of calculating a weighted ~~numeric grade average~~ NGA:

Quality Points:

The graduating senior with the highest class ranking, as determined by weighted ~~numeric grade average~~ NGA, will be recognized as Valedictorian. The student with the second highest class ranking, as determined by weighted ~~numeric grade average~~ NGA, will be recognized as Salutatorian. The weighted ~~numeric grade average~~ NGA will be calculated to four decimal places or more until a tie is resolved.

Students participating in the ~~MOWR~~ Dual Enrollment program are also eligible for Valedictorian or Salutatorian recognition per statutory requirements. A ~~MOWR~~ Dual Enrollment student who moves into the local school system after his or her sophomore year and has not taken any courses on site at the participating eligible high school will not be eligible for Valedictorian or Salutatorian recognition. Transfer credit used for Valedictorian or Salutatorian will be accepted only from an Accredited School in accordance with Board Policy on Awarding Units of Credit and Acceptance of Transfer Credit and/or Grades (JBC(4)).

Cherokee County Board of Education

AWARDING UNITS OF CREDIT AND ACCEPTANCE OF TRANSFER CREDIT AND/OR GRADES

To assist transfer students in progression toward graduation, Cherokee County Board of Education's secondary schools will accept student course credit from other accredited educational agencies in a manner consistent with State Board Rule JBC(4).

Further, the School District will utilize administrative protocols to validate credit for courses taken at non-accredited schools, home study programs and non-traditional educational centers.

The principal is responsible for validating credit for courses taken at a non-accredited school, home study program, or non-traditional educational center. The principal may require and review evidence of work, materials, course description guide, and standards used in the instructional program. The procedures for validation ~~shall~~ will include at least one of the following:

- Probationary placement based on records of prior school(s), home study programs, and/or non-traditional educational centers and satisfactory performance of the student for one or more grading periods.
- Tests and acceptable scores. These tests may be standardized or locally developed and should focus on group placement, subject area and/or grade level and state and local standards for the course. For courses that require an End of Course (EOC) test the student must validate the course by earning a passing score on the appropriate EOC test; in which case, the equivalent grade score on the EOC test will be posted to the transcript. Students will only be allowed one attempt to validate credit for a course through testing.
- A student who transfers to a Cherokee County high school from a school which awards credit on the quarter system will be given credit for completed work. For each 15 quarter hours the student has earned, he/she will be given one Carnegie unit credit (5 quarter hours = 1/3 Carnegie unit). A student who transfers from a school which awards credit on some other basis will be given comparable credit.
- If a transcript from another school shows letter grades, accompanied by a numerical scale, each letter grade is transferred as the midpoint of the scale. (Exception – F will be converted to 60). However, if no numerical scale is on the transcript, the midpoint\of the Cherokee County scale is used.
- If a transcript shows the awarding of credit for a grade below 70 (the lowest passing grade at Cherokee County high schools), the grade is recorded as 70 and credit is awarded. The same procedure would apply for grades transferred while a semester is in progress.
- Transfer credit used for Valedictorian or Salutatorian will be accepted only from an Accredited School in accordance with this Policy and as noted in Class Rankings Policy (IHC).

Cherokee County Board of Education

A. Introduction

The Cherokee County Board of Education recognizes that, in order to receive maximum benefit from the instructional program, students are expected to attend school each day. It is understood that good attendance habits positively impact the learning process. While administrators and teachers are responsible for providing quality instruction in an environment where learning can flourish, parents/guardians and students must assume responsibility for being punctual and attending school regularly.

Although circumstances may necessitate that a student be absent from school, the ~~Cherokee County Board of Education~~ School District recognizes that optimal learning takes place when the student is present and involved in classroom activities. Accordingly, it is critically important that parents/guardians make every effort to have their children attend school.

B. Lawful/Authorized Absences from Class/School

A student will not be absent from class or school or other required school activity except for illness or other providential cause, unless with prior written permission of the principal or designee. No student ~~shall~~ will encourage, urge or counsel other students to violate this policy.

As permitted under state law and State Board of Education policies, a student's absence, tardy or early checkout may be excused for the following reasons:

a. personal illness and when attendance in school would endanger their health or the health of others;
b. serious illness or death of an immediate family member;
c. mandated by order of governmental agencies, including pre-induction physical examinations for service in the armed forces, or by a court order;
d. celebrating religious holidays;
e. conditions that render attendance impossible or hazardous to one's health or safety; and
f. registering to vote or voting, for a period not to exceed one day.

Additional Notes:

1. A student whose parent or legal guardian is in military service in the armed forces of the United States or the National Guard, and such parent or legal guardian provides documentation to the attention of the principal that he/she has been called to duty for or is on leave from overseas deployment to a combat zone or combat support posting, will be granted excused absences, up to a maximum of five school days per school year, for the day or days missed from school to visit with his or her parent or legal guardian prior to such parent's or legal guardian's deployment or during such parent's or legal guardian's leave or to attend military affairs sponsored events provided the student provides documentation prior to or immediately after the absence.

2. A student with an absence caused by an extraordinary hardship not defined under current policy, can provide to the attention of the principal a written excuse (as defined in the next subsection of this policy) for further consideration of the absence. In such cases, the Principal has the authority to deem such an absence as excused under current State Board Rule (160-5-1-.10).

For school attendance purposes, students will be counted present in the following circumstances:

a. attending school at least one-half of the instructional day;
b. serving as pages of the Georgia General Assembly;
c. serving as a poll worker on an election day; or
d. as a student in foster care, attending court proceedings related to that care.

C. Excuses

Excuses for absences will be provided by the parent/guardian in writing on the day the student returns to school, and will contain the student's name, date of the absence, reason for the absence, and the signature of the parent/guardian. All written excuses will be evaluated by the principal or designee to determine if the absence is excused or unexcused.

D. Requiring Medical Documentation for Absences

In the event that a student's personal illness or attendance at school endangers a student's health or the health of others, the school may require the student to present appropriate medical documentation upon return to school for the purpose of validating that the absence is an excused absence.

In the event that a student has excessive absences for health reasons, the school may require a physician's excuse in order to consider the absence as an excused absence. The school may ask for physician's excuses if one or more of the following conditions exist:

1. A persistent, systematic pattern of absences has been established (example – out every Monday).
2. Seven or more days of absences have been accumulated during the semester.
3. Twelve or more days of absences were recorded the prior school year.

Physician's notes must be specific as to the number of days the illness is to be excused or must state when the student is expected to return to school.

E. Qualifying for Hospital/Homebound Instruction

If major sickness or injury occurs and the absence is lengthy, the student may receive credit by instruction through application of the School District's hospital/homebound instructional process.

F. Make-Up Work

It is the expectation of the ~~Cherokee County Board of Education~~ School District that all work missed due to absence will be made-up. Some work, by its very nature, is impossible to make-up and may necessitate alternative assignments. The principal (or designee) is the final authority in determining alternative assignments.

The responsibility for arranging to complete work missed due to absence is to be assumed by the student and parent/guardian, in conjunction with the teacher. Make-up work is to be completed at the time specified by the teacher/principal.

The time limit to complete missed work is not to exceed ten school days after the date the student resumes attendance. Exceptions will be decided by the parent/guardian, student, teacher and principal, with the principal having the final decision.

G. Incentives for Good Attendance

Each individual school is responsible for providing incentives for good and perfect attendance.

H. Truancy, Parent Notifications and Reporting Protocol

Truancy is the act of willful and/or continued unexcused absences, tardies and/or early checkouts from school. Absences, tardies and early checkouts of this nature are unlawful within the State's compulsory attendance law and can result in penalties under that law. Students and parents/guardians are notified of the State's compulsory attendance law on an annual basis through the School District's Student/Parent Handbook.

Parents/guardians of students with five unexcused absences will be notified by the school regarding the consequences of such absences. This notification will be accomplished through certified or first-class mail, if all other reasonable attempts to notify the parents/guardians have failed.

Students with seven or more unexcused absences in a class per semester will be referred to a school social worker for truancy. It is the role of the school social worker to work collaboratively with the school, student and parents/guardians to resolve truancy issues.

When all administrative actions taken to correct truancy have not had the desired effect, the school social worker may require families to attend the Cherokee County Truancy Panel and request them to sign a contract designed to help improve attendance, file proceedings in Cherokee County Juvenile Court for violation of the State's compulsory attendance law for students under sixteen years of age or refer families to the Cherokee County School Police if proceedings need to be filed against parents for failure to send their children to school.

Chronic truants will be referred each school year to the school social worker. School administrators will not assume that cases will be held over by the social worker for monitoring from one school year to the next. Some cases that have been referred to the Cherokee County Truancy Panel or to court may be held over; but an updated referral by the school may be requested.

I. Absence Notification Procedures

School personnel will monitor absences by following the steps below:

1. Student absentee phone calls are made to parents/guardians and documented in a log at each school.
2. The classroom teacher will invite the parents/guardians in for a conference immediately after the second unexcused absence has been recorded.
3. The school will notify the parent/guardian on the fifth unexcused absence that continued absences will result in a referral to the school social worker.
4. On the seventh unexcused absence in any class during a semester, a referral to the school social worker will be filed.
5. The school social worker will notify the proper authorities if unexcused absences continue.

J. Additional High School Absence Procedures

Any student having seven or more excused, approved or unexcused absences in a semester will receive no credit for that class unless a waiver is granted by the School Attendance Committee. However, students will not be denied credit for a course if they have seven or more excused absences in a semester when the following conditions are met: (1) the absences are validated by the School Attendance Committee as excused; (2) make-up work is satisfactorily completed; and, (3) a passing grade has been earned for course work during the semester. Eligibility for credit will be restored if recommended by the School Attendance Committee. The Principal has the final decision on this matter.

The Attendance Committee is a standing committee composed of five members appointed by the Principal and chaired by an administrator. The chair ~~shall~~ will vote only in case of a tie.

A high school student under the age of 16 who has seven or more unexcused absences in a semester or 14 or more unexcused absences in a year will be referred to the school social worker.

K. Student Withdrawals and Notification

Any student who is absent unlawfully either ten consecutive days or forty total days in a school year, is beyond the compulsory attendance age or is not receiving instructional services from the School District through hospital/homebound instruction or instructional services required by the Federal Individual with Disabilities Education Act (IDEA), may be withdrawn. The principal has the discretion of entering or re-entering in the present grading period any student 16 years old or older, who has failed to attend for unlawful reasons.

In the case of a school's plan to withdraw a student, the principal ~~shall~~ will use reasonable measures to notify the parents/guardians if the student is not eighteen years old.

L. Driver's License/Learner's Permit Denial

The School District will establish appropriate protocol relative to State law regarding the denial or suspension of driver's licenses/learner's permits for truant students.

ADOPTED: August 2, 2001
REVISED: July 19, 2018

Cherokee County Board of Education

The Cherokee County Board of Education herein establishes an educational accountability and school improvement system based upon the performance of its students and staff and the impact of its educational programs. The instructional program accountability system recognizes: the Georgia State Board of Education's Long-Term Strategic Plan; the Comprehensive Needs Assessment (CNA), District Improvement Plan (DIP), and Comprehensive Local Education Agency Improvement Plan (CLIP) as required annually by the Georgia Department of Education; and is based upon the Mission Beliefs and Major System Priorities of the School Board, as well as the School District's Five-Year Strategic Plan.

In order to address the challenges and fully implement the vision articulated in the School Board's Mission and Beliefs, each school within the School District will undergo a comprehensive school improvement planning and development process. This school improvement process will be completed on an annual basis, through a systematic and comprehensive evaluation of school data and practices.

I. INSTRUCTIONAL PROGRAM ACCOUNTABILITY SYSTEM PURPOSE, GOAL AND OBJECTIVES

a. The general purpose of the instructional program accountability system is to assess the success of the ~~s~~School ~~d~~District by measuring the individual progress of schools in achieving a broad range of student performance indicators and of the ~~s~~School ~~d~~District in providing services and resources to schools in an effective and efficient manner.

b. The overall goal of the instructional program accountability system is to promote schools' progress in achieving their educational mission as it relates to the School Board's Major System Priorities and the AdvancED Standards. The objectives of the instructional program accountability system are to: (1) monitor schools' progress by measuring a standardized set of school performance indicators; (2) determine which schools are meeting the ~~s~~School ~~d~~District's objectives and can serve as models for other schools; and (3) determine which schools are failing to meet the ~~s~~School ~~d~~District's objectives and require additional assistance, support and/or intervention.

II. INSTRUCTIONAL PROGRAM ACCOUNTABILITY SYSTEM ASSUMPTIONS

The following assumptions undergird the instructional program accountability system:

a. School performance is a product of the combined efforts of the School Board and its governance policies, the Superintendent, School ~~d~~District ~~level~~ administration, principals, teachers, support staff, students, parents, businesses and the community.

b. Performance is measured against the same high academic standards for all students. All schools are expected to perform at a level that reflects high expectations for students and staff. Mitigating factors will be taken into account [(e.g., extraordinary

mobility; critical overcrowding; increasing number enrollment of students living at or below the poverty level; increasing enrollment of non-English speaking students, some of whom have little or no experience in a formal education setting)] when determining school progress.

c. School progress is evaluated based on a combination of performance indicators including student achievement, attendance, dropout rates, and additional alternative assessment indicators (e.g., portfolios of student work, post graduation success, enrollment in and passing of advanced placement classes, proactive approach to safety and discipline, etc.).

d. Schools are evaluated on annual performance indicators, as well as two-three year trends in accountability documentation.

e. Schools with a history of poor performance are expected to make greater progress in improving student achievement, attendance and dropout rates than schools with higher performance on these measures. It may require unequal resources to meet unequal needs of students/schools.

f. A school determined by the Superintendent to demonstrate low levels of performance and/or low levels of progress is required to develop and implement a written corrective action or restructuring plan, depending on the length of time the school has not met expectations or the severity of a decline in student achievement in any particular area. This corrective action/restructuring plan will become a part of the School Improvement Plan (SIP).

III. INSTRUCTIONAL PROGRAM ACCOUNTABILITY SYSTEM INITIATIVES

As the instructional program accountability system is further developed, additional specific initiatives and guidelines will be formulated to:

a. Promote excellence and equity in student performance, as measured by a comprehensive set of valid assessments.

b. Provide accurate and timely information about student performance at the school and School ~~d~~District levels for full public disclosure.

c. Use a clearly defined set of analyses, including research on effective schools, to evaluate the efficiency and effectiveness of schools' progress.

d. Establish incentives for rewarding schools for innovation and significant improvement in student performance outcomes.

IV. SCHOOL IMPROVEMENT AND STRATEGIC PLANNING PROCESS

Each year, the Superintendent will develop for the School Board's review and approval a proposed School District Strategic Plan with short and long-term goals for the school School ~~d~~District.

Each school, on an annual basis, will participate in a school improvement process that results in the development and implementation of a comprehensive School Improvement Plan (SIP). The school improvement process and plan will be based upon the AdvancED Standards and indicators of school and student progress. Each SIP will include:

a. School Mission Beliefs;

b. Necessary baseline data to identify needs;

c. Specific, Measurable, Attainable, Realistic and Timely (SMART) Goals with aligned objectives focused on student learning outcomes; and

d. Strategies, Action Steps, Professional Learning Activities and Time frames for improvement.

e.

V. SCHOOL IMPROVEMENT SUPPORT TEAMS

As a part of monitoring initiatives approved through the School District's Strategic Waiver School System (SWSS) contract and in ~~In~~ an effort to support schools with school improvement initiatives and school progress, schools will be visited on a recurring basis by a School Improvement Support Team, consisting of School ~~d~~District ~~level~~ administration assigned by the Superintendent. The School Improvement Support Team will work collaboratively with the school principal to provide a comprehensive review of the school's practices that influence student achievement and progress. A report, with commendations and recommendations, of the School Improvement Support Team's school visit and review will be provided to the Superintendent at the conclusion of the Team's review. As a part of the review, the School Improvement Support Team will work with the principal and staff to:

a. Review the School Improvement Plan and Process;

b. Analyze multiple school data resources and trends;

c. Assess school initiatives and programs;

d. Observe instructional practices; and

e. Interview representative groups of school stakeholders (e.g., administration, certified and classified staff, parents and students.)

VI. WAIVER REQUESTS

Based on the School District's agreement with the State under the Strategic Waiver School System contract, the School Board will annually review requests submitted by principals and recommended by the Superintendent for waivers of School Board policy or State Board Rules for school and/or districtwide improvements in academic achievement.

a. A principal wishing to waive a School Board Policy, State Board Rule, designated Georgia law, or provision(s) in federal law must submit a written request to the Superintendent or designee for review.

b. Principal waiver requests must be directly related to the School Improvement Plan (SIP). They must clearly address laws/policies that create barriers to successful implementation of the SIP's objectives. The request must include: (a) citation of the specific Board policy, rule and/or statute; (b) how the statutory purpose/intent will be met; (c) how granting the waiver will assist the school in improving specific student performance outcomes; and (d) how progress in improving student achievement will be evaluated.

c. To be recommended by the Superintendent to the School Board, each waiver request must be (a) budget neutral (i.e., able to be funded through normal school budgeting and expenditures) and (b) receive stakeholder input based on the nature of the waiver.

d. Waivers will be reviewed and approved on an annual basis, but may reflect a multiyear project.

e. A request for continuation of a previously-approved waiver must include an evaluation (including relevant data), which substantiates that the waiver is resulting in improvement of the projected student performance outcomes.

f. A process for submission and review of waivers will be established.

g. The Superintendent or designee will conduct a final review of each waiver request and, if requesting a waiver of any rule not covered in the School District's Strategic Waiver System contract, submit it with a recommendation to the School Board. The Superintendent will ~~not~~ only support waivers which ~~do not~~ reflect support of the

school stakeholders, will positively impact school improvement efforts/student achievement and/or ~~those~~ which are ~~not~~ budget neutral.

h. The School Board will consider all waiver requests submitted by the Superintendent. The Superintendent may recommend that the School Board request a State waiver if it is required to implement school and/or districtwide improvements.

VII. ANNUAL REPORTS OF SCHOOL AND DISTRICT PROGRESS AND CUSTOMER SURVEYS

a. On an annual basis, an individual Annual Report of School Progress will be distributed to the parents of all pupils in the School ~~d~~District and to other interested community members. A core part of each report will consist of key local, state and national benchmarks/data elements and a report on the status of School Improvement Plan (SIP) objectives.

b. On an annual basis, an aggregation of all schools' results and progress will be published in an Annual Report of District Progress. The Annual Report of District Progress will highlight student achievement gains and increased school, department and school system effectiveness, as well as districtwide progress on the School Board's Major System Priorities.

c. Customer Surveys will be conducted periodically to provide feedback to schools, the Superintendent and the School Board on the perception of students, parents and members of the community regarding school and ~~s~~School ~~d~~District effectiveness.

7. Students enrolled in ~~MOWR~~ Dual Enrollment are exempt from required instructional time, as specified in State Board Rule 160-5-1-.02.

8. Except in instances where the post-secondary institution provides the student a numerical grade, the correlation of student's grades earned at the post-secondary institution and the secondary cumulative grade point average will be as follows:

A+ = 98 A = 95 A - = 92	B+ = 88 B = 85 B - = 82	C+ = 78 C = 75 C - = 72	D+ = 70 D = 70 D - = 70	F =60

The Cherokee County Board of Education will adhere to and promulgate guidelines relative to State Board of Education Rules for Scheduling for Instruction, School Day and School Year for Students and Employees and Middle School Program Criteria, which best fit the needs of its students while utilizing available resources.

Additionally, the School District recognizes the potential need to reorganize the traditional class day in order to meet new challenges presented to students in the twenty-first century and to support school improvement efforts aimed at increasing student performance. All alternative scheduling waiver requests will be submitted on an annual basis as part of the State's Strategic Waiver School System contractual guidelines during the School Improvement Process. Waivers will be reviewed by a committee of district-level personnel and submitted to the Superintendent or designee for approval.

Harassment

The Cherokee County Board of Education prohibits discrimination and harassment based upon "Constitutionally-Protected Differences" and other legally protected statuses (e.g., race, age, gender, gender identity, color, religion, national origin, disability~~,~~ or any other constitutionally protected class or status). As such, it is the policy of the School District to address such complaints at the lowest level of administration in order to quickly and efficiently resolve all such matters.

All employees are responsible for prevention of harassment and discrimination against students/employees, including the responsibility to report any conduct which they believe to be in violation of this policy. No person will be subject to retaliation or reprisal for making a good faith complaint under this policy or for participating in an investigation.

The Superintendent will develop administrative guidelines regarding the role and responsibility of the applicable Title Coordinator(s) ("Coordinator") and the role of the Deputy Superintendent ("DS") in action steps, and the collection and analysis of reporting data in this regard.

I. DEFINITION

Harassment and discrimination may include any conduct which has the effect of unreasonably interfering with a student's participation in an educational program or activity, including conduct by school employees, students or others. Examples may include offensive jokes, slurs or comments; offensive touching or requests for dates or favors; different treatment of students based upon Constitutionally-Protected Differences and/or other legally protected statuses; display or communication of offensive photographs, writing or materials; or conditioning educational benefits on a student's participation in, or reaction to, such conduct. Discipline may be imposed for such conduct without regard to whether it rises to the level of a violation of law.

II. COMPLAINT PROCEDURES

Complaints made to the School District regarding alleged discrimination, harassment or retaliation for complaints about, or opposition to discrimination or harassment will be processed in accordance with the following procedure:

1. Any student or other person with a complaint alleging a violation as described above will promptly notify the Coordinator, as annually appointed by the Superintendent, and/or principal of the school or work site location supervisor attended by the person believed to have suffered discrimination/harassment. If a report is made to a principal or work location supervisor, the principal or work location supervisor will forward the complaint to the Coordinator. The complainant need not be the victim of the discrimination/harassment, but may be any person aware of the conduct.

2. Upon receipt of a discrimination/harassment complaint, the Coordinator will (a) facilitate a prompt investigation of the complaint, (b) take any interim action necessary to protect students, staff or operations of the school or work location pending the result of the investigation, and (c) make any necessary reporting of the allegations. Said investigation will consist at a minimum of interviewing the complainant, accused person(s), and persons with direct knowledge of the alleged events. Said investigation will be concluded as soon as practicable, and generally within fifteen (15) business days (defined as days when the School District Central Office is open for business) of receipt of the complaint. Upon completion of the investigation the Coordinator will initiate such remedial actions as are necessary to prevent any further harassment. Such steps may include: counseling, suspension, expulsion, or any other remedial action deemed appropriate to address and eliminate further discrimination/harassment. Upon completion of the investigation the Coordinator will notify appropriate parties (which may include the alleged victim(s), accused, and/or their parents or legal guardians) in writing of the substance of the investigation and remedial measures to be taken pending any appeal. The Coordinator will retain, review and analyze the investigative file of each complaint and will report the results of the review and analysis annually to the Superintendent.

3. The complainant may seek a review of the initial decision by written request received by the Coordinator within five (5) business days of the date of the decision.

4. Upon timely written request, the Coordinator will forward a copy of the investigative file to the DS. The DS or designee will have up to fifteen (15) business days to review the appeal, investigative file and the previous decision and determine, if additional investigation is warranted, any change in the remedial action recommended. The DS or designee will promptly notify appropriate parties of the appeal decision.

School Board Consideration of Superintendent's Recommendation for Approval of FY2019 Budget

Summary Explanation and Background

The review and approval process for the FY2019 Budget began with the School Board and Superintendent Strategic Work Session on January 18, 2018, wherein the School Board's priorities and preliminary consideration of relevant revenue and expenditure data and information regarding major responsibilities and challenges to be addressed in next year's Budget were presented and discussed. Since January 2018, the Superintendent's Annual Ad Hoc Budget Committee has conducted its annual "zero sunset review" of all major current expenditures in light of the School Board's Major System Priorities, as set forth in School Board Policy. At its May 17, 2018 School Board Meeting, the School Board tabled the Superintendent's FY2019 Tentative Budget in order to receive public input and advertise, as required by Georgia Statute.

At the June 21, 2018 Board Meeting, after public input and advisement, it will receive final comments on the Recommended Tentative Budget, make revisions, if necessary, and will be requested to adopt a School District Budget for FY2019.
