

SHAPE THE FUTURE OF EDEN PRAIRIE SCHOOLS

Over the last five years, our **graduation rate has increased to 95%**, and **academic achievement has improved for all students**. State-of-the-art facilities support learning and welcome our community. And students have **more choices than ever before**.

This is the result of collaborative efforts across our community and a strong strategic plan guiding the district's work. Through May 2023, we will work with our community to update our strategic plan.
