Parent members shared that they felt these changes were well-received and supported by the Ball Ground parent community. Parents are excited about the upcoming Fall Festival as it has been a long time since we've been able to come together like that. • Discussed the DL Program and how it fits in to our school community. • Reviewed school needs...more technology, continued support of teachers like we saw last year. • Mrs. Roulier asked for feedback on how the parents felt the year was going so far and what they thought about the weekly newsletter...too much, not enough, or just enough?
