Title

SY2022-23 Proposed Attendance Area Map Correction

Requested Action

School Board Consideration of Superintendent's Recommendation for Approval of SY2022-23 Proposed Attendance Area Map Correction

Summary Explanation and Background

CCSD had no new school facility construction during SY2021-22 that required establishing an Attendance Area Focus Group and there were no schools that met the "Critical Overcrowding" criteria, as indicated on the SY2021-22 Cherokee County Inventory of School Housing. However, the Superintendent is recommending for School Board consideration and approval of a proposed Scrivener's map correction for SY2022-23.

This proposed correction will modify the attendance area of one new residential development that is in the early planning stages. The subdivision is located at the northeast corner of the North Arnold Mill Rd. and Arnold Mill Rd. intersection; south of the Jep Wheeler Rd. intersection with North Arnold Mill Rd. This new development contains within its proposed footprint elementary, middle and high school attendance areas currently in both the River Ridge Innovation Zone and the Sequoyah Innovation Zone. Through a Scrivener's map correction, the Superintendent is recommending slightly shifting the current attendance area boundary so that as the development emerges, its attendance area will be contained within one innovation zone, the Sequoyah Innovation Zone (thus, sending any students in this new development to Mountain Road ES, Dean Rusk MS and Sequoyah HS).

No current students would be affected by this proposed attendance area correction.
