

## PBIS Refresh! Virtual Tier II Booster Series

*PBIS Refresh!* is designed to provide Tier II PBIS Leadership Team members with a quick snapshot of the Tier II features to assist them with implementing the PBIS framework with fidelity in their schools. This series is not a replacement for the PBIS Tier II training, but an ideal option for: 1) team members who are new and have never received PBIS Tier II training or for, 2) existing team members who would like a refresher on various parts of the initial Tier II training.

This virtual PBIS Tier II Booster Series is made up of seven modules covering all thirteen features of Tier II. Each module is designed to stand independently of one another so individuals/teams can customize the training content based on need/TFI Tier II feature. However, it is strongly recommended that Tier II PBIS teams watch all the modules in chronological order to build a strong foundational knowledge of the PBIS Tier II systems framework.

To complete each module, watch the video recordings using the links below. The PowerPoints as well as any handouts can be accessed in the [corresponding training folder](#). During each module there are Quick Team Chats provided. Teams are encouraged to discuss the quick team chat questions together during the modules to assess their current level of Tier II implementation and record any next steps on their Tier II action plan. A [Refresh! Virtual Booster Handout](#) is also provided to capture any notes or questions that arise individually while viewing the recordings as there are suggested next steps for follow-through at the end of each module.

### Module 1: Introduction and Tier II Overview

- [Watch Video Recording](#) – 24 minutes
- PowerPoint
- TFI Action Plan Tier II
- Resources Folder
  - *A. Tier II Overview*

### Module 2: Teaming and Level of Use

- [Watch Video Recording](#) – 28 minutes
