

Science and Technology Expo Organizational Afters Workshop

Offered: Monday March 20 and Tuesday, March 21

Time: 3:15-4:15pm.

Grades: Kindergarten-5th

Participation: Students may register for one day of their choice on a first-come, first-serve basis. Students in kindergarten through fifth grade may sign up.

Limit: 10 students per session in order to accommodate as many students as possible.

Teachers: Mrs. Attanasio and Mrs. Clisham

Cost: free

Students will have the opportunity to explore print and digital resources to choose a project to do for the Science and Technology Expo on March 29. In addition, students may begin to plan and organize their project and prepare a list of necessary materials. Students should leave the session with all the information (but not materials) they need to create their project at home. (NOTE: Students will not be creating their project at this session.) Tri-fold presentation boards will be available for students wishing to prepare one for their Expo project.

Online registration information will be emailed out to families sometime in early March through the PTA Afters program.
