

MATH PEER TUTORING APPLICATION

Name: _____

The position of math peer tutor is one of responsibility and confidentiality. Trust, confidentiality, and responsibility are very important in this class. I understand that I will be asked to be kind, helpful and understanding as I work with students in the classroom. I understand my grade will be determined from my attendance (on time and present) and my willingness to help.

For this class, you will receive a letter grade and have NO homework. This will help with scholarships/job applications and will help you deepen your math foundations, helping you in future math classes.

I would prefer to tutor for (circle one) **Mrs. Smith** **Mrs. Kershaw** **Either**

This class is one semester only. Please list 1 semester elective you are willing to drop if selected to be a math tutor:

(Your counselor will choose for you if you do not provide options.)

By signing below, you are indicating that you feel you are a good fit for peer tutoring and that you understand the expectations for this class (as outlined above).
