Superintendent's Budget Message

The proposed 2017 St. Mary's County Public Schools' (SMCPS) budget reflects the cost of operating a school system that serves almost 18,000 students in 29 educational sites, employing over 2,000 adults. It includes signature pathways for accelerated learners and intervention programs for those who struggle. We teach students as young as 3 in our preschool special education programs and Head Start and work with others until they turn 21. We watch them grow and learn and become our future. Because of the persistent work of our staff, the support of our parents, and our exceptional students - we have one of the highest graduation rates in the nation. This is our committed work.

Sustainability is the driving force behind this year's budget - as incremental increases are included to support our current programs and schools, to cover the increased costs of doing daily business, and finally to provide competitive wages for those working with and for our students. Just as we are committed to all students achieving their goals, we are also committed to the people working with them each day and funding for anticipated negotiated expenses for employee compensation.

We must maintain our investments, meet our commitments, and model transparency - this budget proposal does this.

St. Mary's County Public Schools (SMCPS) is large enough to offer a wide variety of academic programs and services and small enough to maintain an atmosphere of friendliness, helpfulness, and personalized services. As a school system, we are focused on student achievement and ensuring that our students meet rigorous standards; at SMCPS all children can and will learn. Our goal is to focus our efforts to create a total community committed to learning and safety for all children.

Budget Explanation

Current Expense Fund

The term "current expense" includes all funds from the unrestricted and designated sources that are used in support of educational programming.

Unrestricted Revenue is received from the state, the federal government, the local Commissioners of St. Mary's County (CSMC), and from other school system sources.

State: This level of state funding is determined by formula, incorporating factors for enrollment and county wealth. Funding for FY 2017 is based on enrollment as of September 30, 2015. As the state provides most of its unrestricted funding on a per pupil basis, any change in enrollment and/ or county wealth will impact state revenues. Most of these funds can be allocated by the Board of Education (Board) to any category in the budget, but remain in the category once the budget is approved. All categorical transfers must be approved by the Board and the CSMC. However, targeted funding sets the minimum level of expenditures. For example, the state funding for transportation must be spent only on transportation. The same is true of "designated" revenues received from the state for special education, limited English proficiency, and compensatory programs.

Federal: This revenue (Impact Aid) represents an appropriation provided to school systems impacted by federal facilities within their districts. Appropriation amounts are set as part of the federal budget process and allocated on the basis of enrollment and local cost factors.

Local: This funding consists primarily of tax revenues allocated by the CSMC for use by the Board. Another source to local revenues comes from the SMCPS prior year's fund balance, if available.

Restricted Program Fund: The restricted funds received from the state or federal agencies, as well as private grants, that are used to implement approved projects, principally instructional, instructional support, and student services. These projects and activities, which are detailed, are dependent on the grants that support them. If these grants are not received by the Board, the projects or activities for which the funds were requested are usually canceled.

However, where the services provided are required by state or federal statute, local funds must be allocated to continue the programs. These expenditures are included as part of the Restricted Program Fund. In addition to the Current Expense and Restricted Program Funds, this budget document includes expenditure and revenue budgets for:

Revolving Fund: The Revolving Fund includes the Food and Nutrition Services program, and any other programs that are operated independently of other school system funds. These programs are self-supported through federal and state aid, as well as student and adult purchases.

Capital Improvements Fund: The Capital Improvements Fund include current construction and major repairs for schools that are funded by state and county resources raised though financing, as well as designated county operating funds.

The Appendix section contains trend data and other reference information.

Description of Funds

The Board accounts for its financial activities through the use of "fund accounting." This is a principle wherein resources and expenditures for governmental operations are accounted for with a separate set of self-balancing accounts for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Activities of the funds and accounts group established by the Board are described below:

Unrestricted Fund: The unrestricted fund is the basic budgetary fund of the Board. It accounts for all operating revenues and expenditures for the educational and support programs including funding support of the Chesapeake Public Charter School.

Revolving Fund: The revolving fund accounts for all revenues and expenditures related to activities which rely heavily on payments from participants or other third parties. This includes the school food and nutrition services program.

Restricted Program Fund: The restricted program fund accounts for all revenues and expenditures which must be used in a categorical or for a specific purpose, as defined by the entity awarding the funds.

Budget Explanation

Capital Improvements Fund: The capital improvements fund is the capital project fund for the Board and accounts for all costs of acquisition and improvement of sites, the construction of additional schools, alterations, and additions to existing schools, and purchase of original equipment.

Description of Revenues

Local Revenue: Money received from funds set aside by the CSMC. Commissioners and other local sources of funds, including use of fund balance, investment income, fees for services, and rental of facilities.

State Revenue: Revenue from the State of Maryland received as the state's share of the cost for K-12 education. Generally, these appropriations are based on enrollment and wealth.

Federal Revenue: Federal Aid received for unrestricted or restricted purposes, as defined by the Federal Government.

Incoming Transfer Maryland LEA: Revenue from other school systems for students from their jurisdiction who are attending St. Mary's County Public Schools.

Description of Expenditures

Administration: Activities associated with the general regulations, direction, and control of the SMCPS. Generally, this includes any expenditure made to formulate or to execute educational or financial policy, and which affects or benefits the system as a whole.

Mid-Level Administration: Activities which are designed to support district-wide, as well as school level instructional program activities. This includes the school-based Office of the Principal, as well as the Instructional Administration and Supervision, which along with the Deputy Superintendent includes the Departments for Career and Technology; Supplemental School Programs; Teaching, Learning, and Professional Development; Learning Management Systems, and Information Technology (Administration/Instructional).

Instructional Salaries and Wages: Activities which are school-based and are directly or supportively associated with teaching students. Staff included in this category are those who spend time in the classroom working direct-ly with students, as well as media specialists, guidance counselors, and psychologists. Staff development for instructional personnel is included in the Instruction category.

Instructional Textbooks and Supplies: Costs incurred to provide instructional materials and supplies to the student centered instructional program.

Other Instructional Costs: Costs of activities which are school-based and support the delivery of the instructional program, other than textbooks and supplies, which are a separate category.

Special Education: Activities which directly or supportively deal with providing educational opportunities to students with physical, emotional, intellectual, or other special needs. In addition to instruction and special needs staff, this includes office staff or special facilities.

Student Personnel Services: Activities designed to improve pupil attendance at school and prevent or solve pupil problems in the home, school, and the community.

Health Services: This category's activities provide students with appropriate physical and mental health services.

Student Transportation: Activities concerned with the conveyance of students between home and school and for school activities, including vehicle operation services, monitoring services, vehicle servicing, and maintenance services.

Operation of Plant: Activities concerned with keeping the physical plant open, comfortable, and safe for use.

Maintenance of Plant: Activities concerned with keeping the grounds, buildings, and equipment in their original condition of completeness or efficiency through repair or replacement of property.

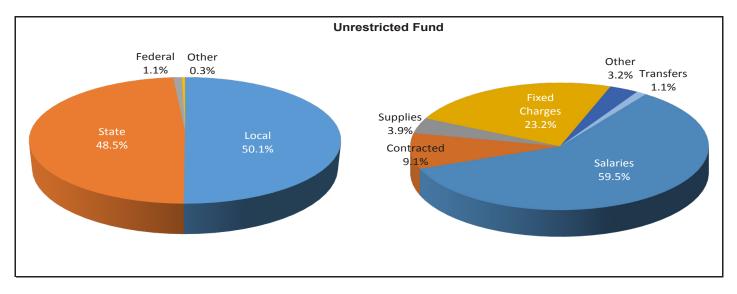

Fixed Charges: This category contains charges of a generally recurring nature which are not readily allocable to other categories, such as local school board contributions to employee retirement, social security, other employee benefits insurance (life, medical, dental, prescription drug, and vision), post-employment health/life, judgments, and tuition reimbursement.

Capital Outlay: Activities concerned with directing and managing the acquisition, construction, and renovation of land, buildings, and built-in equipment. Only current expense activities are included here. Expenditures funded through the capital program are reflected in the Capital Improvement Fund.

Fund Overview

This summary shows major grants and activities that the school system anticipates receiving from outside funding sources for FY 2017. The summary shows the estimated amount of each grant award, source of funding, number of positions funded by the grant (if applicable), and a brief description. Grant program funding periods may be different from the school system's fiscal year. Grant programs are subject to continued availability of funding and other restrictions.

General Grant Programs

Instructional Programs

Carl D. Perkins Career & Technical Education

FY17 Award: \$196,812 Source of funding: Federal FTEs: 0.0 Funds supplement school system career and technology program development.

Chesapeake Bay Watershed Education and Training

FY17 Award: \$137,965 Source of funding: Federal FTEs: 0.0

Develop and implement systemic curriculum-embedded Meaningful Watershed Environmental Experiences (MWEEs) that reach all high school students. Upgrade the environmental education field studies that we currently provide to every elementary student and every 7th grade student into full MWEE's. The experiences provided to our students will ensure that we will continue to fulfill our commitment to the Environmental Literacy goal of the Chesapeake Bay Watershed Agreement as well as the Maryland Environmental Literacy high school graduation requirement (COMAR 13A.03.02) and Maryland Environmental Literacy Program requirement (COMAR 13A.04.17).

Educating Homeless Children and Youth

FY17 Award: \$60,170 FY16 Carryover: \$25,510 Source of funding: Federal FTEs: 1.0

St. Mary's County Public Schools (SMCPS) seeks to expand the services and assistance to attract, engage, and retain homeless children and youth, as well as unaccompanied students, to ensure their educational success. The grant seeks to address two areas of concern. First, by implementing an evidenced-based intervention, *Check and Connect*, to close the gaps, in respect to increasing attendance and achievement, as well as decreasing suspensions, between students receiving services under McKinney-Vento and the total student population. Second, enhance the funding for transportation for students receiving services under McKinney-Vento to support increased attendance and participation.

Fine Arts Initiative

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Spring Ridge Middle School Renovation	PS-1303	St. Mary's County Public Schools

DESCRIPTION:

This project is for a renovation (limited), including the renovation/replacement of five major building systems: HVAC, roof, fire sprinkler, lighting, and security. In addition, public address and wireless data technology are also included. Renovation to the building will include bathroom modifications, ADA, replacement of the flooring, refurbishment of the lockers, modernization of the media center and fine arts areas, and modification to the kitchen and serving line. The HVAC replacement will include all 15 air handlers (direct expansion rooftops), 2 circulator pumps, 2 boilers, all associated ductwork, ceiling tiles, and light fixtures. There will be an addition of 5,159 s.f. to bring STEM in the building, which is currently housed in relocatables. Renovation includes changing the interior doors to lock from the inside, reorganizing the media center for instructional purposes, and reorganizing of the courtyard. As part of the project 77,714 s.f. of the building will be reconfigured and include instructional enhancements and 26,964 s.f. will receive system upgrades with associated work but will not be reconfigured.

	Date
Site Approval:	N/A
Planning Approval:	December 2013
Construction Start:	April 2014
Construction Completion:	December 2016

PLANNING JUSTIFICATION:

- A. This project is required to address the aging infrastructure of the facility.
- B. This project will provide for increased energy efficiency at the school.
- C. The HVAC manufacturer is out of business, requiring fabrication of any replacement parts.
- D. This is the original system built in 1974, which is 39 years old.
- E. The building experienced a fire in nine classrooms as a result of an air conditioning unit fire.

DISCUSSION OF OPERATING BUDGET IMPACT:

With opening planned for August 2020, it is anticipated that several administration and support staff would be added mid year in FY2019. Additional staff needed in FY2021 would likely be a combination of those already hired to meet the growing enrollment and new staff. The staffing plan will be updated based on completion of the Educational Specifications for the project.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Fairlead Academy - Relocatables	PS-1704	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

The Fairlead Academy is an intensive program embracing students and immersing them in a program with limited distractions so that academic pursuits can become their main focus. The Academy also infuses interpersonal components that develop students' confidence and self-esteem by offering off-site educational trips and leadership development activities. The planned expansion of the program would be located to serve the student population in the central and northern portions of the county. Fairlead Academy I on Great Mills Road serves students in 9th and 10th grades. The planned expansion of a central Fairlead Academy II at the Leonardtown educational campus would allow for the implementation of the program for all four grades, articulation of the program for college and career readiness, and expansion of capacity to meet the northern and central portions of the county. At full implementation in FY2018, the projected student enrollment is anticipated to be 454 students for both facilities.

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

Change in County funding: FY2017 The project was split into two separate projects. FY 2017 is the state eligible project for relocation of two (2) four (4) classroom state relocatables from Spring Ridge Middle School upon completion of the project and the FY 2018 separate project is for the multi-purpose space.

DISCUSSION OF OPERATING BUDGET IMPACT:

FY2017 includes eight (8) instructional staff positions. There is a decrease of \$10,876 to reflect the decrease in utility cost for the reduction of the multi-purpose portion of the project in FY 2017.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Piney Point Elementary School - Roof Replacement	PS-1606	St. Mary's County Public Schools

DESCRIPTION:

As part of the annual review and update of the Comprehensive Maintenance Plan for Educational Facilities, the roof replacement projects are reviewed. During the renovation/expansion of the facility the entire roof was not replaced since there was an estimated 10-year life on a large section of the roof. This project will replace approximately 55,255 s.f. of existing roof that is beginning to fail, based on brittle roof material. Maintenance monitors the roof and provides repairs on an as-needed basis, pending the roof replacement. The new roof will be a 4-ply built-up roof with a reflective cap sheet.

	Date
Site Approval:	N/A
Planning Approval:	January 2016*
Construction Start:	June 2016
Construction Completion:	October 2016
* Based on discussions with the Public School Construction	Program, there is an effort to obtain early state approval so that the project can be started in July 2016. This would require a budget amendment for design.

PLANNING JUSTIFICATION:

A. This project is required to address the aging infrastructure of the facility.

B. This project will provide for increased energy efficiency at the school.

OTHER BACKGROUND INFORMATION/COMMENTS:

* The FY2017 funding is based on the actual FY2016 allocation of \$200,000. Funding approval for this project at the state level is subject to approval by the Board of Public Works in the spring of 2016. The federal government will not participate in design services for the projects, therefore; \$22,000 is being requested in local design funding to support the grant.

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

An additional year of funding was added based on an anticipated allocation similar to FY2016.

Aging School Program	PS-1506	St. Mary's County Public Schools

DESCRIPTION:

Maryland's Aging Schools Program (ASP) is a state grant program funded from proceeds from State general obligation bonds. Eligible projects are restricted to those having at least a 15-year anticipated lifespan. These grant funds are distributed at the beginning of each fiscal year for eligible projects and expenditures for capital improvements to public school buildings and sites that, when completed, would protect the school building from deterioration, improve the safety of students and staff, and enhance the delivery of educational programs. Projects are reviewed against the Capital Plan and the Comprehensive Maintenance Plan for Educational Facilities.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Relocatables for Various Sites	PS-1403	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

The inspection phase of the project includes soil and footer testing, as well as required building inspections. The utility phase of the project includes the connection to the water, sewer, electric, and phone as required. In addition, the school system needs to maintain the existing inventory of relocatables, including new carpeting, roofs, and heating/cooling units, which will be identified in the Comprehensive Maintenance Plan for Educational Facilities and added to future year relocatables funding requests.

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

Change in County funding: FY2017 Increase of \$175,000 is to cover replacement student furniture required for the units, which are beginning to deteriorate beyond repair, as well as the increased cost to relocate the units and an additional \$385,000 for adding FY 2022.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
DSS IT and Warehouse Facility	PS-1705	St. Mary's County Public Schools

DESCRIPTION:

This project is to add an additional 5,000 s.f. on the existing 4,200 s.f. warehouse at the Division of Supporting Services complex for additional dry food/goods storage space to accommodate Food and Nutrition Services and Operations receiving and the relocation of the Information and Technology Services Department from the Bethune Educational Center. Given rising fuel costs and tacked on delivery charges (fuel charge), a larger facility would allow the school system to purchase in bulk, taking advantage of the bulk rate, and minimizing deliveries and charges. In addition to supporting the school system's daily operations, this additional storage will also be used for storage of equipment for emergency events. Relocating the IT department will centralize services within the county and with the Division of Supporting Services operations. In addition, the Bethune facility requires a new roof, HVAC system, asbestos removal, and reconfiguration of existing spaces for warehousing. The cost of these repairs and modifications far exceeds the cost of the warehouse/expansion project. The planned \$2,179,000 HVAC replacement for Bethune in FY18 has been removed from the plan request.

PLANNING JUSTIFICATION:

A. To provide storage for current and projected needs for the school system, as well as meeting the school system needs for emergency sheltering situations and adequate space for Information Technology Services in a centralized location.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Fairlead Academy - Multi-purpose Building	PS-1508	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

The Fairlead Academy is an intensive program embracing students and immersing them in a program with limited distractions so that academic pursuits can become their main focus. The Academy also infuses interpersonal components that develop students' confidence and self-esteem by offering off-site educational trips and leadership development activities. The planned expansion of the program would be located to serve the student population in the central and northern portions of the county. The southern portion of the county is currently being served by the existing Fairlead Academy on Great Mills Road, which will serve students in 9th and 10th grades. The planned expansion of a central Fairlead Academy at the Leonardtown educational campus would allow for the implementation of the program for all four grades, articulation of the program for college and career readiness, and expansion of capacity to meet the northern and central portions of the county. At full implementation in FY2018, the projected student enrollment is anticipated to be 454 students for both facilities.

Totals	132	322	454

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

Change in County funding: FY2018 Increase of \$384,000 over the project requested in FY2016. The FY2018 state shared increased by \$700,000 over the project requested in FY2016. The project in FY2016 was for the relocation of two state relocatables and a 5,000 s.f. multi-purpose facility. The state requested that the projects be separated based on their funding categories. In addition, based on research the initial budget for the multi-purpose room was found to be insufficient based on current market prices and programmatic needs.

CONTINUATION SHEET

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Playground Equipment	PS-1602	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

The school system must maintain safe playground equipment for students and the community. As the school system has modernized and expanded existing elementary schools, the playgrounds at the individual schools were addressed. This project will address playgrounds at schools that have not or are not planned for modernization and expansion within the next several years. The phasing plan for the projects to be completed with this funding are based on an assessment of each playground, which were based on the standard developed as a result of the study completed in 2008. Projects are completed based on availability of other funding sources including Aging School and Qualified Zone Academy Bonds which have specific eligibility requirements that all schools on the list may not meet. Therefore, projects may be skipped in order of priority based on funding available. The remaining projects on the list include: Lettie Marshall Dent E.S., White Marsh E.S., Piney Point E.S., Benjamin Banneker E.S., Leonardtown E.S., Lexington Park E.S., Green Holly E.S., George Washington Carver E.S., Greenview Knolls E.S., Town Creek E.S., and Evergreen E.S. Each school has different components that need to be addressed. Playfields are used in collaboration with Recreation and Parks after hours and on weekends.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Hollywood Elementary School - Roof & HVAC Replacement	PS-2001	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

This project has been identified as part of the Comprehensive Maintenance Plan for Educational Facilities as a required replacement. The project was amended from the FY2016 roof replacement request to include the HVAC system to maximize the construction timeframe for roof penetrations as a result of the replacement of the HVAC, which was scheduled two years after the roof replacement. This project will also be subject to the Public School Construction Program requirements for installation of emergency power transfer switches.

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

Change in County funding: FY2020 Increase of \$3,665,000, based on the project scope change and the increase of local share resulting from the change of 64% to 58% state share participation and the new state construction cost per s.f. In addition, the state share increased by \$2,901,000 based on the state participation in this new project scope. The state construction cost per s.f. with site work increased by \$74.62 for a total of \$335.38. The state construction cost per s.f. only increased by \$49.00 for a total of \$282.00.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
New High School (1,200 capacity)	PS-2101	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

As of November 2015, a donated site is being considered. This project may open as a middle school population as the middle school project was deferred beyond the six-year capital plan in FY2014. During the design phase there will be coordination with the St. Mary's County Department of Parks and Recreation regarding the possibility of an additional 3,000 s.f. of community use space.

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

Change in County funding: FY2020 Increase of \$8,192,000, based on the increase of local share resulting from the change of 64% to 58% state share participation and the new state construction cost per s.f. In addition, the state share increased by \$5,568,000 based on the state participation in this new project scope. The state construction cost per s.f. with site work increased by \$74.62 for a total of \$335.38. The state construction cost per s.f. only increased by \$49.00 for a total of \$282.00.

The project was deferred by two years, as a result of current enrollment projections and capacity needs.

PROJECT TITLE	PROJ. NO.	PROJECT CLASSIFICATION
Evergreen Elementary School - Primary Building	PS-2104	St. Mary's County Public Schools

OTHER BACKGROUND INFORMATION/COMMENTS:

This facility will work in conjunction with the existing Evergreen Elementary School to meet the projected overcrowding based on continued growth within the existing school district. The primary building program will be developed as part of the educational specification for the project, but could serve students in Prekindergarten up to 2nd grade. The students attending the Evergreen Elementary Primary Building would be the same students who would normally attend Evergreen Elementary School, as currently planned. Students in the lower grades would attend the new Primary Building and then transfer to the existing school during the upper grades of 3rd - 5th, similar to the model that we have at Benjamin Banneker Elementary School.

DISCUSSION OF CHANGE FROM FY2016 APPROVED BUDGET/PLAN:

Change in County funding: FY2021 Increase of \$2,153,000, based on the increase of local share resulting from the change of 64% to 58% state share participation and the new state construction cost per s.f. In addition, the state share increased by \$1,402,000 based on the state participation in this new project scope. The state construction cost per s.f. with site work increased by \$74.62 for a total of \$335.38. The state construction cost per s.f. only increased by \$49.00 for a total of \$282.00.

This project was deferred two years based on current enrollment and capacity needs.
