Presentation by Dr. Leonard Sax

MJDS | 6401 N. Santa Monica Blvd.

## **New York Times bestselling author, Dr. Leonard Sax answers your questions...**

**01**

At what age is it ok for my child to be on an iPad? How much time is too much time?

**02**

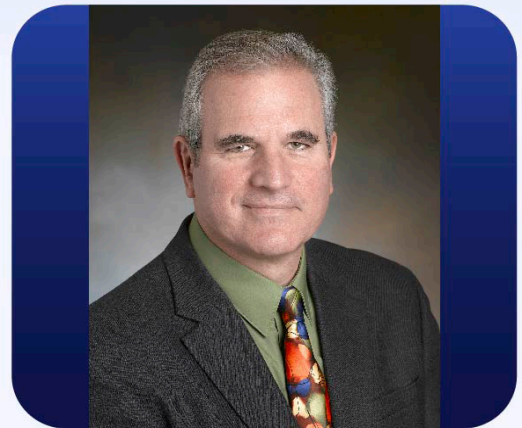

My 3-year old gets upset really easily, for example at the doctor's office. How can I help her relax?

**03**

I'm busy and when I pick up my child from school I can't spend hours playing, I have to make dinner. Is it okay if he watches Sesame Street?

**04**

We don't have much free time. On the weekend should I schedule a playdate or stay home instead? Is there research on this topic? (Yes, there is.)

This event is free and open to the public. RSVP at [mjds.org](http://mjds.org) or scan.
